

Evening News Review.

19TH YEAR. NO. 10.

EAST LIVERPOOL, O., MONDAY, JANUARY 13, 1902.

TWO CENTS.

ANOTHER BREAK IS FOUND IN NEW CITY RESERVOIR

Looks As If the Structure Would
Never Be Filled With the
Aqueous Fluid.

WITHOUT ANY WATER IN IT

A Long Fissure Has Developed in
the Southeast Corner of
the Basin.

IT RUNS FROM TOP TO BOTTOM

And Is in the Corner Opposite That on
Which Repairs Have Been in Progress—
Engineers Seem to Think the
Damage Is Irreparable.

If indications can be depended on
and if the opinions of supposedly competent
engineers are in any capacity
reliable, there is every reason to believe
that the new reservoir recently
erected for the use of the East Liverpool
water works system, which
has been undergoing repairs for some
time, will never be filled with water.

A great seam has made its appearance,
which extends from top to bottom
of the new basin, at the southeast
corner on the river side. The old
break occurred on the southwest
corner, and it is that portion of the basin
which is being repaired. A large
amount of money has been expended
in the repair work, but it looks very
much as if the city is throwing its
money away.

The crevice was discovered Saturday
evening by a News Review reporter
and on Sunday a number of men
were walking along the reservoir
hill top discovered the break. Among
them were two engineers. They expressed
their opinions privately, but said the new
basin would surely break out if an attempt
was made to fill it. This, it is said, is now
understood by members of the water works
board. There seems to be no remedy, but
that a solid wall should be constructed
for the full length of the two basins
along the reservoir hill.

FOUND HIS PARENTS

Youngstown Man After 25 Years
Learns He Has a Father And
Mother in Salem.

Youngstown, January 13.—Frederick
Klopfert, a butcher of this city, has
learned that his parents from whom
he had been separated for 25 years,
were Mr. and Mrs. Charles Campbell,
a wealthy couple of Salem, O.

About 29 years ago Charles Campbell,
of Salem, took his wife to Pittsburgh
for medical treatment. The doctors
advised that the patient be taken to
the hospital and the boy, Charles Frank,
a child then only two years old, was
given into the hands of a nurse till
the mother could recover. It seems that
the boy was lost or went astray from
the nurse and was picked up by some
one and taken to the Troy Hill Orphan's
home, in Allegheny, where he remained
until he was 12 years old. At that age
he was adopted by Mr. and Mrs. Charles
Klopfert, a pious German family, of Allegheny.
Klopfert took the name of his foster
parents and through a misdirected letter
learned that his parents were living.
He has resigned his position here and
will rejoin his parents in Salem.

WELLSVILLE MILL CASE

It Is Expected To Be Laid Before the
Grand Jury To-morrow.

A number of the members of the
Wellsville lodge of the Amalgamated
Association went to Lisbon today. It
is expected that they will present to
the grand jury the evidence on which
they expect to secure the indictment
of D. S. Brookman, manager of the
Wellsville mill, for the alleged illegal
discharge of union workmen, the case
of Leonard Schaeffer being made the
test case.

SUIT FOR \$1,050

Claimed As Due on a Building Contract
in Wellsville.

Lisbon, January 13.—(Special)—
Alexander D. Forbes and James W.
Dennis, as partners, have brought suit

against Edward G. Whitacre for \$1,050.
The petition says that the partners
erected a building for the defendant
on Third street, Wellsville, completing
it October 1. On the building \$1,250
has been paid and there is \$1,050 due.

The petition further alleges that
\$72.93 is due the plaintiffs on account.

RELIEF IS PROMISED STREET CAR PATRONS

THE 12-MINUTE SCHEDULE TO GO
INTO EFFECT AGAIN.

Manager Healy Says the Much-Desired
Change Will Take Place
January 20.

The 12-minute schedule on the East
Liverpool railway line, which it was
found necessary to change a few weeks
ago, thus causing much dissatisfaction,
will again go into effect on January
20—one week hence.

This information comes from the
management of the East Liverpool line.
Improvements which were found
necessary in the machinery at the
power house made the change in the
schedule compulsory.

It was not the intention to make
the change a permanent one, and
though all the contemplated improvements
have not been made, Manager Healy
expects to have them so near completed
that the old schedule can be put into
effect at the time above stated.

GRAND JURY AT WORK

CALLED AND EMpaneled AT LISBON TODAY.

The Instructions of the Judge on a
Variety of Offenses.

Lisbon, January 13.—(Special)—
The grand jury was empaneled today
at 10:30 a. m., with Al Carlile, of Salem,
as foreman.

The judge, in his instructions to the
jury, mentioned or defined the crimes
of assault and battery, cutting with
intent to kill or wound, rape, non-support
of minor child, seduction under
promise of marriage, and defrauding
a hotel keeper. He also explained to
the jury the meaning of the term
bucket shop.

It cannot, of course, be learned who
are to be before the jury or for what
crimes. But the judge's instructions
help to give an idea of the business
and the indictments to be considered.
The jury is to visit the county jail
and report on its condition.

FIFTEEN WERE RECEIVED

Into the M. E. Church As a Result
of the Revival Services.

As a result of the meetings at the
M. E. church, conducted by the pastor,
Rev. Dr. Crawford, eight persons
were received on probation and seven
by letter. The church was well filled
yesterday, both morning and evening,
manifesting increasing interest. The
sermon in the morning was especially
fine and was considered by many persons
one of the best ever delivered by
Dr. Crawford.

FALSE FIRE ALARM

Aroused Lisbon People From Their
Slumbers Before Breakfast
Was Ready.

Lisbon, January 13.—(Special)—
A fire alarm brought Lisbon people
from their beds at 6:30 o'clock this
morning. The alarm was sent in by
an individual who thought he saw
smoke issuing from the pad factory.

An investigation, however, revealed
that the supposed smoke was steam
coming from an engine in the factory.

A Strike at Salem.

Salem, January 13.—Almost 150 employees
of the Buckeye Engine company, of
this city, went out of the shops
Saturday night on a demand for
extra pay for working overtime. Members
of a committee appointed to wait
upon the company to make the demand
were discharged, it is alleged,
whereupon the entire gang quit work.

Appointed Administrator.

Lisbon, January 13.—(Special)—
No will having been found in the
estate of William T. F. Garwood, late
of Perry township, letters of administration
are granted to Mary E. Garwood,
his widow.

BIG DECREASE IN CONTAGION

Reports Compiled By Sanitary Officer
J. H. Burgess Are Interesting.

REMARKABLE DIFFERENCE

Is Shown By the Reports in the Number
of Contagious Cases in the City Last
December And Those of the Same Month
a Year Previous.

Sanitary Officer J. H. Burgess completed
the compiling of a report today for
the month of December of last year,
showing the number of cases of contagious
disease that have come under his jurisdiction.
A table for the month of December of
the year 1900 has also been compiled, and
a comparison of the two shows a remarkable
difference.

From December 1, 1900, to January
1, 1901, there were 14 cases of diphtheria
and 8 of scarlet fever, while during
December of last year there were but 3
cases of diphtheria and 3 of scarlet fever.
This decrease, in view of the fact that
the city has gained largely in population
during the past year, is difficult to understand.

Mr. Burgess, however, claims that
the efforts of the board of health are
responsible in a great measure, because
of the fact that the sanitary condition
of the city has been greatly improved
and that other precautions taken by
the board have not been without effect.

Without admitting that there is yet
room for improvement, Mr. Burgess
believes that East Liverpool leads many
cities of its size in its method of
battling with contagion. The crowded
condition of the city and the scarcity
of pure water, he says, are difficulties
that have to be confronted here that
most of the other cities know nothing of.

"It is almost surprising," says the
sanitary officer, "that we have escaped
the smallpox, since it is prevalent
in many of the towns and cities
almost in the immediate community.
However, since nothing of that nature
has shown up as yet, and also that the
lesser cases of contagion have been so
remarkably few, the citizens of East
Liverpool can rightly consider themselves
fortunate."

BLANKETS CAUGHT FIRE

AND TOUCHED OFF 40 QUARTS
OF NITRO GLYCERINE.

Terrific Explosion Near Smith's Ferry—
250 Barrel Oil Tank 6 Destroyed.

Forty quarts of nitro glycerine exploded
on the Galey oil property, near Smith's
Ferry, on Saturday morning. The nitro
glycerine was covered with some wet
blankets, which in some way caught
fire.

As soon as the men saw that the
blankets were on fire they fled, and
had gone but a few rods when the
explosion occurred, completely destroying
a 250-barrel tank and badly damaging
the engine house.

Licensed to Wed.

Lisbon, January 13.—(Special)—
A marriage license was issued Saturday
to William W. Urnstead, of Canton,
and Julia Hall, of Salem.

FAMILY IN A FIGHT WITH RABID DOGS

Elmer S. Good, his wife and several
small children, who live on Third
street, Chester, had a very exciting
and dangerous experience with five
mad dogs at an early hour this morning.
The family had arisen early and
were seated at the breakfast table
when a beagle hound and her four
pups burst into the room and made
a vicious attack upon them.

It was several minutes before the
family realized that the dogs were
mad. They recognized this when they
saw foam and froth issuing from the
dogs' mouths. The dogs, for a moment,
centered their attack upon Helen,
the eldest daughter of Mr. and Mrs.
Good. Her escape from being bitten
was prevented by Mrs. Good, who
seized her child and with her
climbed upon a table for refuge.

At this juncture the entire family
became much alarmed. They were
found upon chairs, battling with the

GOOD PLAN FOR Purer PRIMARIES

Suggested By Judge Smith a Year
Ago to Be Acted Upon
This Week.

STATE LAW EXPENSIVE

And the Proposed System Is Calculated
to Produce the Same Results With
Much Less of an Outlay—Committee
Will Meet Thursday.

If the wishes of a majority of the
Republican committeemen from the
southern end of the county are con-
curred in stricter regulations will be
adopted at the meeting of the committee
this week for the government of
primary elections in the future.

It will be remembered that a great
deal of dissatisfaction was experienced
over the manner in which the last
county primary was conducted.

No one was accused of crookedness,
but it was thought in several localities
the system was very lax. This was
especially true of Wellsville, where
the committeemen in charge of the
election were accused of conducting
affairs in a high-handed manner.
The outcome of the dissatisfaction
was that when the convention was
held at Lisbon for the purpose of
ratifying the nominations, Judge P. M.
Smith, of Wellsville, presented a set
of very excellent rules in the form of
a resolution. The rules covered every
detail of the work of conducting a
primary and were very generally
supported by a majority of the
candidates and committeemen. It was
argued that it would be a great
advantage to have the primaries governed
by the state law, which is a most
excellent system, but upon investigation
it was found if so conducted a vast
amount of expense would be incurred.
For this reason Judge Smith had
prepared the regulations in the manner
stated, which requires that all election
officers be qualified, and providing
penalties for neglect of the duties
of their office. The proposed plan was
calculated to save most of the
expense required by the state law, and
at the same time provide about the
same regulations.

The resolution was taken into the
meeting of the county committee in
the afternoon and after some discussion
was placed in the hands of a
committee headed by R. N. Chamberlain,
of East Palestine. The committee
was to make its report at the
next meeting of the county committee,
which will be held next Friday.

Mr. Chamberlain was communicated
with today with reference to what
his committee proposed to do.

He stated a meeting of the committee
had been called for Thursday
evening of this week at Lisbon, and
that in all probability a report would
be made to the county committee on
Friday. The committee is made up
of R. N. Chamberlain, East Palestine;
Attorney George E. Davidson, East
Liverpool; F. A. Adams and Ed A.
King, Lisbon.

PAID \$2 EXTRA

John Miller Finds That Sunday Drinking
Comes High in the
Mayor's Court.

Not forgetting his resolution to fine
those an extra dollar or two who
desecrate the Sabbath by getting drunk,
Mayor Davidson this morning assessed
John Miller \$3 and costs, where, if he

WENT DOWN TO HIS DEATH CLUTCHING MADLY AT ICE

had waited until today to go against
the flowing bowl, he might have got
off with \$1 and costs. Miller was
captured by Patrolman Woods and taken
to jail in the patrol, where he yet
holds forth. He couldn't stand the
pressure of the \$7.60.

Officer Stafford arrested a hobo Saturday
night who was sporting a well
developed "jag" and attempting to
clean out a Second street saloon. The
culprit told the mayor this morning
his name was John Young. "Well,
Young," said his honor, "I'll give you
one minute in which to vanish. If
you are seen here in two minutes from
now I'll send you up for life." Young
took an immediate sneak.

NEW BASEBALL DEAL IS BEING PROJECTED

CANTON - PAINESVILLE TEAM
WILL NOT COME HERE.

Manager Drumm's Proposition Turned
Down—Local Salaried Team
Now Proposed.

The negotiations which have been
pending between the East Liverpool
base ball magnates and the management
of the Canton-Painesville team,
are off.

The local men could not see fit to
accept Manager Drumm's proposition.

Plans are now being framed where-
by the team that will represent East
Liverpool will be made up in the
main of local players. William Ash-
baugh will be the manager and the
team will be a salaried one. The club
will have all the financial backing
necessary, and Mr. Ashbaugh will be
responsible to the magnates for the
conduct and efficiency of the play-
ers.

CARS IN COLLISION

A BAD SMASH ON THE STREET
RAILWAY LINE.

Cars Dashed Together And One Badly
Wrecked—One Person
Hurt.

A street car collision happened on
the East Liverpool line Saturday
evening on Lyth's switch, near Wells-
ville. The eastbound car was running
on an irregular schedule and Supt.
Thomas Reed said that this was per-
haps the reason for Nos. 15 and 16
coming together.

McDonald was conductor and Wern-
nick motorman of Car No. 15. On car
No. 16 was Motorman Harry Goddard
and G. W. Ferguson was conductor.
The cars came together with a terrific
clash. Mrs. William Burford, of
Wellsville, is reported to have been
slightly injured, although Supt. Reed
said, when asked about the accident,
said no one was hurt. Car 15 had its
end badly smashed and was run into
the repair shop.

TWELFTH BIRTHDAY

Pleasantly Observed By Miss Ethel
Wasbutzky—Her Friends
Entertained.

Miss Ethel Wasbutzky, of Sixth
street, entertained a number of her
friends Saturday afternoon in honor
of her twelfth birthday. The time was
pleasantly spent in music and games.
An elaborate luncheon was served.
She received a number of nice presents,
among them being a gold watch
from her mother.

MORE DEPUTIES NAMED

East Liverpool And Wellsville Men
Given Places By Sheriff
Leonard.

Lisbon, January 13.—(Special)—
Sheriff Leonard today appointed and
had approved by Judge Hole the following
deputies:

Thomas Stafford, East Liverpool.
Joseph T. Warren, Wellsville.
E. P. Speidel, Hanoverton.
Charles Johnson, Salem.
John Higgins, Salineville.

GRANTED A DIVORCE

An East Palestine Woman Charged
And Proved Cruelty And
Desertion.

Lisbon, January 13.—(Special)—
Cora Sutherland, of East Palestine, has
been granted a divorce from George
Sutherland and the custody of two minor
children. Desertion and cruelty
were charged.

Frank Feltz, a Laborer, Drowned
In the Ohio River After a
Hard Struggle.

VICTIM OF PECULIAR ACCIDENT

Was In a Skiff With a Companion
and Collided With a Steam-
boat Wheel.

BOTH THROWN INTO STREAM

But Feltz Having Been Injured in the
Collision Was Unable to Save Him-
self—His Body Has Not Yet Been
Recovered.

Clutching desperately at small, frail
pieces of floating ice, which were not
of sufficient strength to give him any
assistance, Frank Feltz, a laboring
man, who lived on a shanty boat on
the beach below the railroad depot,
went down to death in the Ohio river
last night as the result of a most pecu-
liar accident.

The steamer Keystone State on its
upward trip arrived at the wharf-
boat shortly before 10 o'clock and im-
mediately tied up. Owing to a strong
breeze and a rather swift current the
engineer allowed the machinery to re-
main slowly in motion to avoid any
unnecessary strain on the ropes, and
the paddle wheel continued to revolve
all the while the boat remained at the
wharf.

Soon after its arrival Feltz, in com-
pany with James Cunningham, a local
teamster, started out from shore at a
point just below the wharfboat, and
pulling out into the river, proceeded
upward in an effort to pass on the
outside of the steamer.

Just as the skiff was at the outer
edge of the wheel of the steamer a
collision resulted, which almost com-
pletely wrecked the skiff. The occu-
pants were thrown violently into the
water, but by a desperate effort Cun-
ningham seized the rudder of the boat,
where he held fast until rescued by a
roustabout with great difficulty. He
was completely exhausted and narrow-
ly escaped death.

Feltz had no chance to catch hold
of anything, and even if he had it is
thought he could not have done so.
He was nearest the wheel when the
collision occurred and it is claimed
by his companion that he was badly
injured. He made a struggle, however,
before going down, though he was too
much dazed to make an outcry.

Skiffs were immediately procured
and every effort made to find the body,
but without success. The search was
renewed this morning. Men dragged
the river all day and about the place
where the drowning occurred. It is the
belief of many that the body is
lodged near the wharfboat because
of the eddy there, which would tend
to prevent it from floating down stream.

Cunningham, in explaining why he
and Feltz came to be out in the river
at so late an hour, with the thermom-
eter near the zero point, says he in-
tended to get on the Keystone State
to buy some rabbits. Mrs. Feltz says
that when her husband started down
to the river he told her he was going
after coal.

Feltz was doing the rowing and it is
thought that he made a miscalculation
of distance when he tried to turn
around the wheel of the steamer.
However, it is the opinion of those
who witnessed the accident that it was
due to extreme foolishness. The
dead man is alone responsible.

Chief Thompson made an investiga-
tion this morning. It was his purpose
to use dynamite in an effort to raise
the body, but on the advice of expe-
rienced rivermen, who claimed the ex-
pensive would have no effect while the
ice was in the river, he abandoned the
notion.

Feltz was 33 years old and is sur-
vived by a wife and small child, who
are said to be in destitute circum-
stances. He came here early last Decem-
ber from Williamstown, W. Va., where
his parents reside.

Bond Fixed at \$7,000.

Lisbon, January 13.—(Special)—
In the estate of Christina McGilvary,
late of Madison township, the bond
of Alexander McBane is reduced to
\$7,000.

Evening News Review.

19TH YEAR. NO. 10.

EAST LIVERPOOL, O., MONDAY, JANUARY 13, 1902.

TWO CENTS.

ANOTHER BREAK IS FOUND IN NEW CITY RESERVOIR

Looks As If the Structure Would
Never Be Filled With the
Aqueous Fluid.

WITHOUT ANY WATER IN IT

A Long Fissure Has Developed in
the Southeast Corner of
the Basin.

IT RUNS FROM TOP TO BOTTOM

And is in the Corner Opposite That on
Which Repairs Have Been in Progress—
Engineers Seem to Think the
Damage Is Irreparable.

If indications can be depended on
and if the opinions of supposedly com-
petent engineers are in any capacity
reliable, there is every reason to be-
lieve that the new reservoir recently
erected for the use of the East Liver-
pool water works system, which
has been undergoing repairs for some
time, will never be filled with water.

A great seam has made its appear-
ance, which extends from top to bot-
tom of the new basin, at the south-
east corner on the river side. The old
break occurred on the southwest cor-
ner, and it is that portion of the basin
which is being repaired. A large
amount of money has been expended
in the repair work, but it looks very
much as if the city is throwing its
money away.

The crevice was discovered Satur-
day evening by a News Review rep-
orter and on Sunday a number of men
who were walking along the reservoir
hill top discovered the break. Among
them were two engineers. They ex-
pressed their opinions privately, but
said the new basin would surely break
out if an attempt was made to fill it.
This, it is said, is now understood
by members of the water works board.
There seems to be no remedy, but
that a solid wall should be construct-
ed for the full length of the two ba-
sins along the reservoir hill.

FOUND HIS PARENTS

Youngstown Man After 25 Years
Learns He Has a Father And
Mother in Salem.

Youngstown, January 13.—Freder-
ick Klopfer, a butcher of this city, has
learned that his parents from whom
he had been separated for 25 years,
were Mr. and Mrs. Charles Campbell,
a wealthy couple of Salem, O.

About 29 years ago Charles Camp-
bell, of Salem, took his wife to Pitts-
burg for medical treatment. The doc-
tors advised that the patient be taken
to the hospital and the boy, Charles
Frank, a child then only two years
old, was given into the hands of a
nurse till the mother could recover.
It seems that the boy was lost or went
astray from the nurse and was picked
up by some one and taken to the Troy
Hill Orphans' home, in Allegheny,
where he remained until he was 12
years old. At that age he was adopt-
ed by Mr. and Mrs. Charles Klopfer,
a pious German family, of Allegheny.
Klopfer took the name of his foster
parents and through a misdirected let-
ter learned that his parents were liv-
ing. He has resigned his position
here and will rejoin his parents in
Salem.

WELLSVILLE MILL CASE

It Is Expected to Be Laid Before the
Grand Jury To-
morrow.

A number of the members of the
Wellsville lodge of the Amalgamated
Association went to Lisbon today. It
is expected that they will present to
the grand jury the evidence on which
they expect to secure the indictment
of D. S. Brookman, manager of the
Wellsville mill, for the alleged illegal
discharge of union workmen, the case
of Leonard Schaeffer being made the
test case.

SUIT FOR \$1,050

Claimed As Due on a Building Con-
tract in Wells-
ville.

Lisbon, January 13.—(Special)—
Alexander D. Forbes and James W.
Dennis, as partners, have brought suit

against Edward G. Whitacre for \$1,
050. The petition says that the part-
ners erected a building for the defend-
ant on Third street, Wellsville, com-
pleting it October 1. On the building
\$1,250 has been paid and there is \$1,
050 due.

The petition further alleges that
\$72.93 is due the plaintiffs on account.

RELIEF IS PROMISED STREET CAR PATRONS

THE 12-MINUTE SCHEDULE TO GO
INTO EFFECT AGAIN.

Manager Healy Says the Much-De-
sired Change Will Take Place
January 20.

The 12-minute schedule on the East
Liverpool railway line, which it was
found necessary to change a few weeks
ago, thus causing much dissatisfaction
will again go into effect on January
20—one week hence.

This information comes from the
management of the East Liverpool
line. Improvements which were found
necessary in the machinery at the
power house made the change in the
schedule compulsory.

It was not the intention to make
the change a permanent one, and
though all the contemplated improve-
ments have not been made, Manager
Healy expects to have them so near
completed that the old schedule can
be put into effect at the time above
stated.

GRAND JURY AT WORK

CALLED AND EMpaneled AT LIS-
BON TODAY.

The Instructions of the Judge on a
Variety of Of-
fenses.

Lisbon, January 13.—(Special)—
The grand jury was empaneled today
at 10:30 a. m., with Al Carlile, of Sa-
lem, as foreman.

The judge, in his instructions to the
jury, mentioned or defined the crimes
of assault and battery, cutting with in-
tention to kill or wound, rape, non-sup-
port of minor child, seduction under
promise of marriage, and defrauding
a hotel keeper. He also explained to
the jury the meaning of the term
bucket shop.

It cannot, of course, be learned who
are to be before the jury or for what
crimes. But the judge's instructions
help to give an idea of the business
and the indictments to be considered.

The jury is to visit the county jail
and report on its condition.

FIFTEEN WERE RECEIVED

Into the M. E. Church As a Result
of the Revival
Services.

As a result of the meetings at the
M. E. church, conducted by the pas-
tor, Rev. Dr. Crawford, eight persons
were received on probation and seven
by letter. The church was well filled
yesterday, both morning and evening,
manifesting increasing interest. The
sermon in the morning was especially
fine and was considered by many per-
sons one of the best ever delivered by
Dr. Crawford.

FALSE FIRE ALARM

Aroused Lisbon People From Their
Slumbers Before Breakfast
Was Ready.

Lisbon, January 13.—(Special)—
A fire alarm brought Lisbon people
from their beds at 6:30 o'clock this
morning. The alarm was sent in by
an individual who thought he saw
smoke issuing from the pad factory.
An investigation, however, revealed
that the supposed smoke was steam
coming from an engine in the factory.

A Strike at Salem.

Salem, January 13.—Almost 150 em-
ployees of the Buckeye Engine com-
pany, of this city, went out of the
shops Saturday night on a demand for
extra pay for working overtime. Mem-
bers of a committee appointed to wait
upon the company to make the de-
mand were discharged, it is alleged,
whereupon the entire gang quit work.

Appointed Administrator.

Lisbon, January 13.—(Special)—
No will having been found in the es-
tate of Wilson T. F. Garwood, late
of Perry township, letters of adminis-
tration are granted to Mary E. Gar-
wood, his widow.

BIG DECREASE IN CONTAGION

Reports Compiled By Sanitary Of-
ficer J. H. Burgess Are
Interesting.

REMARKABLE DIFFERENCE

Is Shown By the Reports in the Num-
ber of Contagious Cases in the
City Last December And Those of
the Same Month a Year Previous.

Sanitary Officer J. H. Burgess com-
pleted the compiling of a report today
for the month of December of last
year, showing the number of cases of
contagious disease that have come
under his jurisdiction. A table for the
month of December of the year 1900
has also been compiled, and a compar-
ison of the two shows a remarkable
difference.

From December 1, 1900, to January
1, 1901, there were 14 cases of diph-
theria and 8 of scarlet fever, while
during December of last year there
were but 3 cases of diphtheria and
3 of scarlet fever. This decrease, in
view of the fact that the city has
gained largely in population during
the past year, is difficult to under-
stand.

Mr. Burgess, however, claims that
the efforts of the board of health are
responsible in a great measure, be-
cause of the fact that the sanitary
condition of the city has been greatly
improved and that other precautions
taken by the board have not been with-
out effect.

Without admitting that there is yet
room for improvement, Mr. Burgess
believes that East Liverpool leads
many cities of its size in its method
of battling with contagion. The crowd-
ed condition of the city and the scar-
city of pure water, he says, are dif-
ficulties that have to be confronted
here that most of the other cities
know nothing of.

"It is almost surprising," says the
sanitary officer, "that we have es-
caped the smallpox, since it is preva-
lent in many of the towns and cities
almost in the immediate community.
However, since nothing of that nature
has shown up as yet, and also that
the lesser cases of contagion have
been so remarkably few, the citizens
of East Liverpool can rightly consider
themselves fortunate."

BLANKETS CAUGHT FIRE

AND TOUCHED OFF 40 QUARTS
OF NITRO GLYCERINE.

Terrific Explosion Near Smith's Fer-
ry—250 Barrel Oil Tank 6
Destroyed.

Forty quarts of nitro glycerine ex-
plored on the Galey oil property, near
Smith's Ferry, on Saturday morning.
The nitro glycerine was covered with
some wet blankets, which in some
way caught fire.

As soon as the men saw that the
blankets were on fire they fled, and
had gone but a few rods when the ex-
plosion occurred, completely destroy-
ing a 250-barrel tank and badly damag-
ing the engine house.

Licensed to Wed.

Lisbon, January 13.—(Special)—
A marriage license was issued Sat-
urday to William W. Urmstead, of Can-
ton, and Julia Hall, of Salem.

FAMILY IN A FIGHT WITH RABID DOGS

Elmer S. Good, his wife and several
small children, who live on Third
street, Chester, had a very exciting
and dangerous experience with five
mad dogs at an early hour this morn-
ing. The family had arisen early
and were seated at the breakfast
table when a beagle hound and her
four pups burst into the room and
made a vicious attack upon them.

It was several minutes before the
family realized that the dogs were
mad. They recognized this when they
saw foam and froth issuing from the
dogs' mouths. The dogs, for a mo-
ment, centered their attack upon Hel-
en, the eldest daughter of Mr. and
Mrs. Good. Her escape from being
bitten was prevented by Mrs. Good,
who seized her child and with her
climbed upon a table for refuge.

At this juncture the entire family
became much alarmed. They were
found upon chairs, battling with the

GOOD PLAN FOR Purer PRIMARIES

Suggested By Judge Smith a Year
Ago to Be Acted Upon
This Week.

STATE LAW EXPENSIVE

And the Proposed System is Calculated
to Produce the Same Results With
Much Less of an Outlay—Commit-
tee Will Meet Thursday.

If the wishes of a majority of the
Republican committeemen from the
southern end of the county are con-
curred in stricter regulations will be
adopted at the meeting of the com-
mittee this week for the government
of primary elections in the future.

It will be remembered that a great
deal of dissatisfaction was experienced
over the manner in which the last
county primary was conducted.

No one was accused of crookedness,
but it was thought in several locali-
ties the system was very lax. This
was especially true of Wellsville,
where the committeemen in charge of
the election were accused of conduct-
ing affairs in a high-handed manner.
The outcome of the dissatisfaction
was that when the convention was
held at Lisbon for the purpose of rat-
ifying the nominations, Judge P. M.
Smith, of Wellsville, presented a set
of very excellent rules in the form of
a resolution. The rules covered every
detail of the work of conducting a pri-
mary and were very generally sup-
ported by a majority of the candi-
dates and committeemen. It was ar-
gued that it would be a great advan-
tage to have the primaries governed
by the state law, which is a most ex-
cellent system, but upon investigation
it was found if so conducted a vast
amount of expense would be incurred.
For this reason Judge Smith had pre-
pared the regulations in the manner
stated, which requires that all elec-
tion officers be qualified, and provid-
ing penalties for neglect of the duties
of their office. The proposed plan was
calculated to save most of the ex-
pense required by the state law, and
at the same time provide about the
same regulations.

The resolution was taken into the
meeting of the county committee in
the afternoon and after some discus-
sion was placed in the hands of a
committee headed by R. N. Chamber-
lain, of East Palestine. The commit-
tee was to make its report at the
next meeting of the county committee,
which will be held next Friday.
Mr. Chamberlain was communicated
with today with reference to what
his committee proposed to do.
He stated a meeting of the com-
mittee had been called for Thursday
evening of this week at Lisbon, and
that in all probability a report would
be made to the county committee on
Friday. The committee is made up
of R. N. Chamberlain, East Palestine;
Attorney George E. Davidson, East
Liverpool; F. A. Adams and Ed A.
King, Lisbon.

PAID \$2 EXTRA

John Miller Finds That Sunday Drink-
ing Comes High in the
Mayor's Court.

Not forgetting his resolution to fine
those an extra dollar or two who de-
secrate the Sabbath by getting drunk,
Mayor Davidson this morning assessed
John Miller \$3 and costs, where, if he

WENT DOWN TO HIS DEATH CLUTCHING MADLY AT ICE

had waited until today to go against
the flowing bowl, he might have got
off with \$1 and costs. Miller was cap-
tured by Patrolman Woods and taken
to jail in the patrol, where he yet
holds forth. He couldn't stand the
pressure of the \$7.60.

Officer Stafford arrested a hobo Sat-
urday night who was sporting a well
developed "jag" and attempting to
clean out a second street saloon. The
culprit told the mayor this morning
his name was John Young. "Well,
Young," said his honor, "I'll give you
one minute in which to vanish. If
you are seen here in two minutes from
now I'll send you up for life." Young
took an immediate sneak.

NEW BASEBALL DEAL IS BEING PROJECTED

CANTON - PAINESVILLE TEAM
WILL NOT COME HERE.

Manager Drumm's Proposition Turned
Down—Local Salaried Team
Now Proposed.

The negotiations which have been
pending between the East Liverpool
base ball magnates and the manage-
ment of the Canton-Painesville team,
are off.

The local men could not see fit to
accept Manager Drumm's proposition.

Plans are now being framed where-
by the team that will represent East
Liverpool will be made up in the
main of local players. William Ash-
baugh will be the manager and the
team will be a salaried one. The club
will have all the financial backing
necessary, and Mr. Ashbaugh will be
responsible to the magnates for the
conduct and efficiency of the play-
ers.

CARS IN COLLISION

A BAD SMASH ON THE STREET
RAILWAY LINE.

Cars Dashed Together And One Badly
Wrecked—One Person
Hurt.

A street car collision happened on
the East Liverpool line Saturday
evening on Lyth's switch, near Wells-
ville. The eastbound car was running
on an irregular schedule and Supt.
Thomas Reed said that this was per-
haps the reason for Nos. 15 and 16
coming together.

McDonald was conductor and Wer-
nick motorman of Car No. 15. On car
No. 16 was Motorman Harry Goddard
and G. W. Ferguson was conductor.
The cars came together with a terri-
fic clash. Mrs. William Burford, of
Wellsville, is reported to have been
slightly injured, although Supt. Reed
said, when asked about the accident,
said no one was hurt. Car 15 had its
end badly smashed and was run into
the repair shop.

TWELFTH BIRTHDAY

Pleasantly Observed By Miss Ethel
Wasbutzky—Her Friends
Entertained.

Miss Ethel Wasbutzky, of Sixth
street, entertained a number of her
friends Saturday afternoon in honor
of her twelfth birthday. The time was
pleasantly spent in music and games.
An elaborate luncheon was served.
She received a number of nice pres-
ents, among them being a gold watch
from her mother.

MORE DEPUTIES NAMED

East Liverpool And Wellsville Men
Given Places By Sheriff
Leonard.

Lisbon, January 13.—(Special)—
Sheriff Leonard today appointed and
had approved by Judge Hole the fol-
lowing deputies:

Thomas Stafford, East Liverpool.
Joseph T. Warren, Wellsville.
E. P. Speidel, Hanoverton.
Charles Johnson, Salem.
John Higgins, Salineville.

GRANTED A DIVORCE

An East Palestine Woman Charged
And Proved Cruelty And
Desertion.

Lisbon, January 13.—(Special)—
Cora Sutherin, of East Palestine, has
been granted a divorce from George
Sutherin and the custody of two mi-
nor children. Desertion and cruelty
were charged.

Frank Feltz, a Laborer, Drowned
In the Ohio River After a
Hard Struggle.

VICTIM OF PECULIAR ACCIDENT

Was In a Skiff With a Companion
and Collided With a Steam-
boat Wheel.

BOTH THROWN INTO STREAM

But Feltz Having Been Injured in the
Collision Was Unable to Save Him-
self—His Body Has Not Yet Been
Recovered.

Clutching desperately at small, frail
pieces of floating ice, which were not
of sufficient strength to give him any
assistance, Frank Feltz, a laboring
man, who lived on a shanty boat on
the beach below the railroad depot,
went down to death in the Ohio river
last night as the result of a most pec-
uliar accident.

The steamer Keystone State on its
upward trip arrived at the wharf-
boat shortly before 10 o'clock and im-
mediately tied up. Owing to a strong
breeze and a rather swift current the
engineer allowed the machinery to re-
main slowly in motion to avoid any
unnecessary strain on the ropes, and
the paddle wheel continued to revolve
all the while the boat remained at the
wharf.

Soon after its arrival Feltz, in com-
pany with James Cunningham, a local
teamster, started out from shore at a
point just below the wharfboat, and
pulling out into the river, proceeded
upward in an effort to pass on the
outside of the steamer.

Just as the skiff was at the outer
edge of the wheel of the steamer a
collision resulted, which almost com-
pletely wrecked the skiff. The occu-
pants were thrown violently into the
water, but by a desperate effort Cun-
ningham seized the rudder of the boat,
where he held fast until rescued by a
roustabout with great difficulty. He
was completely exhausted and narrow-
ly escaped death.

Feltz had no chance to catch hold
of anything, and even if he had it is
thought he could not have done so.
He was nearest the wheel when the
collision occurred and it is claimed
by his companion that he was badly
injured. He made a struggle, however,
before going down, though he was too
much dazed to make an outcry.

Skiffs were immediately procured
and every effort made to find the body,
but without success. The search was
renewed this morning. Men dragged
the river all day at and about the
place where the drowning occurred.
It is the belief of many that the body
is lodged near the wharfboat because
of the eddy there, which would tend
to prevent it from floating down
stream.

Cunningham, in explaining why he
and Feltz came to be out in the river
at so late an hour, with the thermom-
eter near the zero point, says he in-
tended to get on the Keystone State
to buy some rabbits. Mrs. Feltz says
that when her husband started down
to the river he told her he was going
after coal.

Feltz was doing the rowing and it is
thought that he made a miscalculation
of distance when he tried to turn
around the wheel of the steamer.
However, it is the opinion of those
who witnessed the accident that it was
due to extreme foolishness. The
dead man is alone responsible.

Chief Thompson made an investiga-
tion this morning. It was his purpose
to use dynamite in an effort to raise
the body, but on the advice of expe-
rienced rivermen, who claimed the ex-
pensive would have no effect while the
ice was in the river, he abandoned the
notion.

Feltz was 33 years old and is sur-
vived by a wife and small child, who
are said to be in destitute circumstan-
ces. He came here early last Decem-
ber from Williamstown, W. Va., where
his parents reside.

Bond Fixed at \$7,000.

Lisbon, January 13.—(Special)—
In the estate of Christina McGilvary,
late of Madison township, the bond
of Alexander McBane is reduced to
\$7,000.

AWFUL DEATH MET BY AN AGED WOMAN

Mrs. Mary Flinn the Victim of a Most Shocking Accident at Steubenville.

HER CLOTHING TOOK FIRE

While She Was Standing Before a Grate and She Was Literally Roasted Alive—Husband Terribly Burned While Trying to Aid Her.

Steubenville, Jan. 13.—Mrs. Mary Flinn, aged 73, wife of Patrick Flinn, died at the Gill hospital in this city Saturday afternoon from the effects of terrible burns received an hour before. Her body was roasted from head to foot, and death came as a merciful relief after an hour's untold agony. Her husband is lying in a critical condition at his home as a result of his heroic attempt to save the life of his wife.

It was while Mrs. Flinn was in the act of making coffee at a grate for her husband, who is an invalid, that her clothes caught fire. Her apron was first to ignite, and noticing the flames she screamed to her husband for help. He attempted to remove her apron, but while doing so, her skirts became ignited and in an instant her body was enveloped in flames.

The imperiled woman continued to scream for help, and failing to get an immediate response, she attempted to run into the street, but while going out the door, tripped and fell headlong down a small flight of steps. Her head struck the brick pavement and cut a long gash over her right eye.

A moment after she fell neighbors reached the scene and made an effort to extinguish the flames. It was practically useless, however, as the fire had consumed all of her clothing, and nothing remained around her body except small charred strips.

Doctors were hastily summoned while the aged sufferer was being carried into the house. An examination revealed that her eyes, hair and ears were burned, her face was black and her chest, back, legs and feet literally cooked, as were also her hands, from which the flesh fell when touched. It was evident, too that she inhaled the flames, as her lips were burned so severely that they became hard. The sight of her eyes was completely destroyed.

The burns were temporarily dressed and the patient then removed to the hospital, where she remained until her death. She was conscious to the last, though she suffered intense agony. In the meantime friends and relatives of the aged husband were at his home caring for him.

His right hand, with which he endeavored to loosen the apron string from his wife's burning body, was terribly burned. He had stepped on burning garments in his efforts, and when the neighbors arrived one of his socks was burning fiercely. The flames were extinguished, and the sock removed, but not before his foot was burned black.

It is feared that the aged victim's injuries, together with the shock occasioned by his wife's awful death, will also result fatally.

An Attack of Pneumonia Warded Off.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James Prendergast, merchant, Annato Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warded off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. For sale by Alvin H. Bulger, Druggist.

EAST END

EPWORTH LEAGUE OFFICERS

Chosen at a Meeting Held on Saturday Evening in Erie Street Church.

The Junior Epworth League met Saturday evening in the Erie street M. E. church and elected officers. The superintendents chosen were: Mesdames G. W. Orcutt, Sarah Dawson, Gertie Messenger. The president chosen was Miss Sadie Manley; vice president, Miss Lisette Smith; second vice president, Miss Mabel Flick; third vice president, Miss Beulah Wallover; fourth vice president, Miss Leiland Smith; secretary, Clinton Flick; treasurer, Miss Ada Miles.

The Juniors will give an "at home" January 23, 24 and 25 at the residence of Mrs. Sarah Dawson on St. George street.

YOUNGSTOWN POTTERY

Ed Fisher Looking After Interests of T. F. Burton, Who Is Ill.

Ed Fisher left this morning for Youngstown. He went in the place of Thomas F. Burton to look after Mr. Burton's interests in the forming of the new pottery at Youngstown. Mr. Burton has taken a deep interest in the Youngstown pottery deal and is unfortunate in being critically ill when an important deal is on.

Mr. Fisher is financially interested and will represent Mr. Burton in a meeting that will be held tonight in Youngstown.

SEVEN CONVERTS

As the Result of Last Evening's Services at the Second Presbyterian Church.

Services at the Second Presbyterian church were interesting last evening from the fact that when Rev. N. W. Crowe got through preaching seven persons announced their intention of leading a better life and wished their names affixed to the roll of Rev. Mr. Crowe's church.

Fell Down Stairs.

A little son of Captain W. J. Terrence, of the East End fire department, fell down stairs last evening and sustained some severe injuries. His left cheek was badly bruised and a physician was summoned, but the boy was found not to have been seriously hurt.

Repairing Kilns at Pipe Works.

George Culbertson, of Helena, has been given the contract for the repairing of all the kilns of the East End sewer pipe works. Culbertson has several men at work on the contract, but as each kiln is to be repaired it will be some time before the work is finished.

Six New Houses.

A contract has been let for the building of six new houses by A. G. Chaffins on Harker avenue.

EAST END AFFAIRS.

The Ladies' Aid society of the Erie street church will meet Thursday afternoon with Mrs. Frank Knowles at her home in the Calhoun addition.

Robert Burchett, of Louisville, arrived in the East End this morning. He will move his family and expects to engage in the mercantile business.

A lot of cinders are being used to repair the sidewalks in the Klondike. Teams have been busy for the past week hauling material to that section of the city and Klondikers are happy that they are being noticed.

Claims Will Present New Evidence.

Frankfort, Ky., Jan. 13.—At the second trial of James Howard on the charge of killing William Gobel two years ago, the commonwealth will conclude early this week, and the defense claims it will present evidence that was not available at the former trial.

When doctors fail try Burdock Blood Bitters. Cures dyspepsia, constipation; invigorates the whole system.

DISSOLUTION SALE

Chosen at a Meeting Held on Saturday Evening in Erie Street Church.

The Junior Epworth League met Saturday evening in the Erie street M. E. church and elected officers. The superintendents chosen were: Mesdames G. W. Orcutt, Sarah Dawson, Gertie Messenger. The president chosen was Miss Sadie Manley; vice president, Miss Lisette Smith; second vice president, Miss Mabel Flick; third vice president, Miss Beulah Wallover; fourth vice president, Miss Leeland Smith; secretary, Clinton Flick; treasurer, Miss Ada Miles.

The Juniors will give an "at home" January 23, 24 and 25 at the residence of Mrs. Sarah Dawson on St. George street.

YOUNGSTOWN POTTERY

Ed Fisher Looking After Interests of T. F. Burton, Who Is Ill.

Ed Fisher left this morning for Youngstown. He went in the place of Thomas F. Burton to look after Mr. Burton's interests in the forming of the new pottery at Youngstown. Mr. Burton has taken a deep interest in the Youngstown pottery deal and is unfortunate in being critically ill when an important deal is on.

Mr. Fisher is financially interested and will represent Mr. Burton in a meeting that will be held tonight in Youngstown.

SEVEN CONVERTS

As the Result of Last Evening's Services at the Second Presbyterian Church.

Services at the Second Presbyterian church were interesting last evening from the fact that when Rev. N. W. Crowe got through preaching seven persons announced their intention of leading a better life and wished their names affixed to the roll of Rev. Mr. Crowe's church.

Fell Down Stairs.

A little son of Captain W. J. Terrence, of the East End fire department, fell down stairs last evening and sustained some severe injuries. His left cheek was badly bruised and a physician was summoned, but the boy was found not to have been seriously hurt.

Repairing Kilns at Pipe Works.

George Culbertson, of Helena, has been given the contract for the repairing of all the kilns of the East End sewer pipe works. Culbertson has several men at work on the contract, but as each kiln is to be repaired it will be some time before the work is finished.

Six New Houses.

A contract has been let for the building of six new houses by A. G. Chaffins on Harker avenue.

EAST END AFFAIRS.

The Ladies' Aid society of the Erie street church will meet Thursday afternoon with Mrs. Frank Knowles at her home in the Calhoun addition.

Robert Burchett, of Louisville, arrived in the East End this morning. He will move his family and expects to engage in the mercantile business.

A lot of cinders are being used to repair the sidewalks in the Klondike. Teams have been busy for the past week hauling material to that section of the city and Klondikers are happy that they are being noticed.

Claims Will Present New Evidence.

Frankfort, Ky., Jan. 13.—At the second trial of James Howard on the charge of killing William Gobel two years ago, the commonwealth will conclude early this week, and the defense claims it will present evidence that was not available at the former trial.

When doctors fail try Burdock Blood Bitters. Cures dyspepsia, constipation; invigorates the whole system.

DISSOLUTION SALE

SCHLEY WAS SNUBBED

Signals Were Not Answered
From New York, When
She Came Up.

LOWERED DIGNITY BY PLEADING.

With the Commander of the Fleet
That We Might Have the Surrender
of the Colon, So Correspondent
Graham Asserts in His Book.

Chicago, Jan. 13.—A book entitled "Schley and Santiago" is in press in this city, and will be issued within ten days. The author is George E. Graham, a war correspondent, who had exceptional facilities for gathering materials, as he was on board the Brooklyn during the fight with the Spanish fleet, and was thus in a position to tell the story of Santiago "without fear or favor." The book is said to have the unqualified endorsement of Rear Admiral Schley, who read and corrected the proof sheets. When President Roosevelt was governor of New York he was present when Mr. Graham gave an account of the battle to State officials and members of the Legislature, and said:

Commended by Roosevelt.

"I am sure you feel as pleased at having listened to Mr. Graham as I do, for I have listened to the best account I have ever heard or read of the naval fighting during this war."

The book is the first and only complete story of the work of the flying squadron, commanded by Schley. Mr. Graham was assisted by his camera, which enabled him to add many interesting illustrations, and the account he gives of the movements of the fleet and the battle is evidently sincere. It is free of virulent and personal attacks; the aim is to give a truthful statement of every occurrence, in connection with the arrival of the New York, Mr. Graham says:

"The commodore reached over to me, took my glasses, and looked searchingly to the east, saying slowly as he did so: 'There is the Texas, and there is the Vixen, but I don't see the New York; and then, as he kept the glasses up, in an instant he evidently had found her, for he remarked: 'Yes, there she is; I can tell her by her snuff.' This was at 1:45 o'clock, and the Colon had gone ashore at 1:15, while Captain Cook had received the surrender at 1:43. At 2 o'clock, just as the New York got where we considered her in signal distance, Commodore Schley ordered the signal raised: 'A glorious victory has been achieved,' details later. This signal replaced the one which we had been flying for nearly three-quarters of an hour. 'The enemy has surrendered,' and which the New York had not answered. Vainly the signal officers on the bridge watched the New York, for even the courtesy of an answering signal pennant showing that she understood our signal. None was displayed, and then it apparently dawned upon Commodore Schley's mind that Sampson's flag captain on the New York was intent on ignoring him. Picking up the megaphone, Commodore Schley did the one thing that day for which I have always criticized him—lowered his dignity sufficiently to plead with the commander of a fleet that he might have the surrender of the ship where escape had been frustrated by the Brooklyn and Oregon, thus making complete the day's victory.

Made a Request to Sampson.

"I request the honor of the surrender of the Cristobal Colon," he said, in a clear, distinct voice; and from the commander-in-chief's flagship came wafted back the insolent answer from a cadet, "What?"

"I request the honor of the surrender of the Cristobal Colon," again called the commodore, and this time his voice trembled slightly. We watched the bridge of the New York closely, waited intently for an answer, but none came. And that message, as had all the others preceding it since the destruction of the Spanish fleet, which had been addressed by Schley to the New York, remained unanswered.

"Somebody raised a broom at our masthead on one of the pennant halyards, and the crew of the Oregon followed suit, and then gave three cheers for Commodore Schley. On the Texas the men all lined up on the forward deck, and at the request of somebody aboard—I presume of Philip himself—gave three cheers for Commodore Schley. The little Vixen circled around three or four times, her

Municipal Government Cannot Be Divorced From Partisan Politics

By EDWARD M. SHEPARD,
Late Candidate For Mayor of Greater New York

It has been said that the problems of municipal government are business problems simply. This is not correct. EVERY MUNICIPAL PROBLEM IS A POLITICAL PROBLEM IN THE PROPER, THOUGH NOT NECESSARILY IN THE PARTISAN, SENSE OF THE TERM. Ours is a democratic country. Every municipal problem is a political one that must be determined in the light of popular elections. Since that is the fact, every detail of municipal administration depends either directly or indirectly upon the opinions of the voters in the community.

I THINK IF WE RECOGNIZE THAT MUNICIPAL GOVERNMENT IS A POLITICAL AFFAIR WE WILL HAVE MADE SOME HEADWAY IN DEALING WITH THIS PROBLEM.

The populace must in some way be harnessed to the chariot of political progress. Without that you may make headway for a year or two with this experiment or that, but you will find yourself defeated—the end.

crew yelling themselves hoarse for the Brooklyn, for Schley and for the victory. But from the New York there came never a sound of joyfulness and never a cheer."

CATHOLIC CLUBS' FEDERATION.

Work For Current Year Likely to Be
Outlined at Executive Committee Meeting.

Cincinnati, Jan. 13.—Secretary Anthony Matre states that the constitution adopted by the American Federation of Catholic societies in this city last month will not be printed in time for distribution at the meeting of the National Executive Board in Columbus, January 26. The proceedings of the last National convention will be printed, in connection with the new constitution, and also such information as may be ordered after the meeting in Columbus, January 26. It is expected that the work for the current year will be definitely outlined at Columbus, and will be followed by State organizations wherever feasible. Secretary Matre says the new constitution and proceedings of the National convention and executive board will be printed later and forwarded to all societies enrolled at that time.

THE GHASTLY TUNNEL PROBLEM

Depew and Other Central People Will
Try to Solve It—Danger in
Third Rail.

New York, Jan. 13.—Senator Chauncey M. Depew will not go to Washington to-day as planned, but will stay over until to-morrow to have a conference with President Newman, William K. Vanderbilt, H. McKay

ENGINEER WISKAL.

Twombly and other managers and directors of the New York Central railroad, regarding the accident in the tunnel last week, especially to discuss the electrical and other improvements for that underground passage.

If electricity is to solve the tunnel problem, the Senator seems inclined to pin his faith to a powerful motor.

"We all thought," said the Senator, last night, "that with the use of electricity the chances of accidents would be reduced to a minimum. But we all have read of the recent accident in the Liverpool tunnel. Then there was something wrong with the third rail; in an instant the train was on fire and 26 people were killed. That shows what may happen with a third rail."

"I am going to the Central offices to-morrow feeling that if I could solve this tunnel question, had ability as an engineer, or in other ways, I would give up everything else, even the United States Senate, and devote myself to it. And I may add that is the spirit of the Central's managers and directors in taking hold of this question now."

TRADE SITUATION IN GERMANY.

The Berlin Bourse Had Another
Strong Week Despite Pessimistic Speeches.

Berlin, Jan. 13.—Notwithstanding the unfavorable view of the condition of business given by Emperor William's speech from the throne, read by Count von Buelow, at the opening of the Prussian diet January 8, and the pessimistic survey of the finances of the Empire by Baron von Thielmann, secretary of the imperial treasury, the Bourse had another strong week. The upward movement is assuming greater dimensions and is affecting more industries such as cement, machinery, electrical and tex-

tile concerns. "On some days last week an uncommon activity was developed, but it is remarked that the buying was solely speculative and confined to the professional element which is inclined to realize at the first opportunity. The investing public still holds aloof, particularly from industrial. The keenest observers point out that the present bull movement has already gone much too far, and reaction is predicted. The Frankfurter Zeitung and the Vossische Zeitung both express this view.

Money remains very easy. Call money was offered abundantly at 2 per cent and some was placed at less. The reviews emphasize the fact that money is now easier at Berlin than at any other place in Europe. The ease of money has caused all foreign exchange to rise, the exchange on Paris reaching the gold point. The export of gold to Paris is regarded as probable. The reviews, however, expect an early reduction in the Reichsbank rate of discount.

The market for most of the government funds was firm. Nevertheless government 3 per cent lost a fraction as a result of the speech from the throne and the statement of Baron von Thielmann, which they have not wholly recovered.

Bank stocks were bought considerably during the past week for speculative purposes, and the shares of provincial banks also improved. Shares of the ocean steamship companies were very quiet, as were American securities with the exception of Canadians, which were more active upon New York advices.

The reports of the iron industry continue to be mainly favorable. A number of price advances were announced last week. The rolling mills of Western Germany advanced the price of iron five marks to 105 marks, the Silesian works did the same thing, and the Bar iron association announced a similar increase. The latter resolved to take orders only for short terms, thus reversing their previous policy. The Siegen district reports an active demand for sheet iron.

Numerous textile centers announce an improved situation and Plauen has large American orders. The Chemnitz knitters are better employed and at higher prices.

THE ENGINEER WAS KILLED.

Collision on a Southern Railroad—
Five Injured, Among Them
Mme. Nordica.

Rome, Ga., Jan. 13.—As a result of a collision between a passenger train and a mixed freight on the Southern railway near Reeves station, twenty miles north of Rome, Mme. Nordica, the singer, was injured; her accompanist, E. omaine Simmons, sustained a bruised hand, an engineer was killed, and three other employees of the road were injured.

The Dead.

Frank Tracey, engineer, Atlanta.

The Injured.

Mme. Nordica.
E. Romaine Simmons.
Guy Connolly, passenger conductor.
Ed Lewis, fireman (colored).

Dr. Garlington, the Southern railway surgeon here, was summoned. He stated last night that Mme. Nordica was not badly hurt, and he thought she would be able to fill her engagement to-night.

Mr. Simmons, her accompanist, sustained injuries to his right hand. The exact condition of the injured member was not ascertained here, but it is understood he will be able to play to-night.

Mme. Nordica's car was not derailed, and together with two other Pullmans, was returned to Rome, and sent over the Nashville, Chattanooga and St. Louis to Nashville, where they were expected to arrive early this morning.

ALBAN SEIZED A SHIP.

Deposited the Value with a Banker—
Intends to Attack.

Colon, Colombia, (via Galveston, Texas), Jan. 13.—The South American Steamship company, having refused to charter its steamer Lantaro to the Colombian government to be used by the latter as a gunboat, General Alban, the military commander of this district, issued a decree appropriating it and has deposited a sum of money equal to its value with Senor Eshman, a banker of Panama. The captain and crew of the Lantaro will remain in the service of the Colombian government. Cannon are now being mounted upon her and she will probably sail from Panama to-morrow to attack the fleet of the Colombian liberals.

The United States cruiser Philadelphia which left Panama January 9 for Las Labels, has not yet returned.

Smallpox Suspect Escapes.

Steubenville, Jan. 13.—Tom Breen, a smallpox suspect in quarantine at the McDewitt hotel at Mingo, was picked up near the court house here Saturday, by Officer Edgerly and placed in the lockup. Breen had been in the city since he escaped from the hotel, and was loafing about the saloons drinking. He was taken to Mingo by several guards who came up after him and again locked up in the hotel building.

Takes the burn out; heals the wound; cures the pain. Dr. Thomas' Electric Oil, the household remedy.

Wintering in Colorado And Utah.

The climate of Colorado and Utah has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument—the conclusion is self-evident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow blockades during the last ten winters than it has upon the majority of railroads in other localities which are popularly supposed to be more free from such delays than the mountain systems. For free illustrated booklet write S. K. Hooper, R. P. & T. A., Denver, Col.

The Injured.

Mme. Nordica. E. Romaine Simmons. Guy Connolly, passenger conductor. Ed Lewis, fireman (colored.) Dr. Garlington, the Southern railway surgeon here, was summoned. He stated last night that Mme. Nordica was not badly hurt, and he thought she would be able to fill her engagement to-night.

Mr. Simmons, her accompanist, sustained injuries to his right hand. The exact condition of the injured member was not ascertained here, but it is understood he will be able to play to-night.

Mme. Nordica's car was not derailed, and together with two other Pullmans, was returned to Rome, and sent over the Nashville, Chattanooga and St. Louis to Nashville, where they were expected to arrive early this morning.

ALBAN SEIZED A SHIP.

Deposited the Value with a Banker—Intends to Attack.

Colon, Colombia, (via Galveston, Texas), Jan. 13.—The South American Steamship company, having refused to charter its steamer Lantaro to the Colombian government to be used by the latter as a gunboat, General Alban, the military commander of this district, issued a decree appropriating the vessel. He has taken possession of it and has deposited a sum of money equal to its value with Senor Ehrman, a banker of Panama. The captain and crew of the Lantaro will remain in the service of the Colombian government. Cannon are now being mounted upon her and she will probably sail from Panama to-morrow to attack the fleet of the Colombian liberals.

The United States cruiser Philadelphia which left Panama January 9 for Las Labels, has not yet returned.

COUNTY AND NEIGHBORHOOD

An Angora cat farm is projected for Brilliant.

Doctors at Mingo vaccinated 275 Italians, Saturday.

The rural delivery system will be established in Hancock county about April 1.

Attorney Alfred J. Thomas, 40 years a member of the bar at Wooster, has been sentenced to the penitentiary for five years for perjury.

In the Soldiers' and Sailors' Orphans home at Xenia, with a population of 2,500, there has been no deaths in the past two and one-half years.

John Lennon, a miner, who was injured at Laurelton some time ago, and later was removed to a Wheeling hospital, died there from the effects of his injuries.

James Reofert, a lineman, fell 65 feet from the top of an electric light pole at Youngstown. Not a bone in his body was broken and he will be at work in a week.

Thomas Lemmons, a miner at Glen's Run coal mine, near Steubenville, in attempting to get on a loaded trip while in motion, missed his hold and was fatally crushed.

Homer Thompson, of Irondale, was committed to the probate court by Squire Prentiss at Steubenville, it being evident that he is mentally unbalanced. He will be committed to the Massillon asylum.

J. Hahn, postmaster at Bayard, was fined \$200 for making false reports of the business of his office to bring about an increase in his salary. He will also be required to return to the government the amount obtained illegally.

Kindly Take Notice that Ely's Liquid Cream Balm is of great benefit to those sufferers from nasal catarrh who cannot inhale freely through the nose, but must treat themselves by spraying. Liquid Cream Balm differs in form, but not medicinally from the Cream Balm that has stood for years at the head of remedies for catarrh. It may be used in any nasal atomizer. The price, including a spraying tube, is 75 cts. Sold by druggists and mailed by Ely Brothers, 56 Warren street, New York.

Moffat's Life Pills are truly the woman's best friend, because they cure all female obstructions and general weakness. Try them.

Get the best—the Evening News Review.

Smallpox Suspect Escapes.

Steubenville, Jan. 13.—Tom Breen, a smallpox suspect in quarantine at the McDewitt hotel at Mingo, was picked up near the court house here Saturday, by Officer Edgerly and placed in the lockup. Breen had been in the city since he escaped from the hotel, and was loafing about the saloons drinking. He was taken to Mingo by several guards who came up after him and again locked up in the hotel building.

Takes the burn out; heals the wound; cures the pain. Dr. Thomas' Eclectic Oil, the household remedy.

Wintering in Colorado And Utah.

The climate of Colorado and Utah has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument—the conclusion is self-evident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow blockades during the last ten winters than it has upon the majority of railroads in other localities which are popularly supposed to be more free from such delays than the mountain systems. For free illustrated booklet write S. K. Hooper, R. P. & T. A., Denver, Col.

CIRCULATION STATEMENT.

The sworn paid circulation of the
EVENING NEWS REVIEW Septem-
ber 17, 1901, TWO THOUSAND ONE
HUNDRED (2,100.)

The average circulation since the
statement of August 1, 1901, TWO
THOUSAND AND THIRTY-FIVE (2,035.)

A net gain since March 1, 1901, of
ONE THOUSAND TWO HUNDRED
AND TWENTY-THREE (1,223) sub-
scribers.

MONDAY, JANUARY 13, 1902.

Governor Nash's effort to have Jan-
uary 29, McKinley's birthday, observ-
ed throughout the country as a day
for contributions to the McKinley
monument fund is meeting with gen-
eral favor. The governor, as chairman
of the Ohio auxiliary of the McKinley
National Memorial association, has
invited every governor of a state or
territory to issue an appeal to the
citizens to observe the day in the
manner indicated. Several governors
have already issued proclamations on
the subject and all others heard from
promise to do so. January 29 ought
to swell the Canton monument fund
to such dimensions that no further ap-
peals for contributions will be neces-
sary.

A leading German statistician has
compiled statistics which indicate
that married people live longer than
single. For instance, there are 64.4
married people to every 58.63 single
people who live to be past 30 years
of age. Between the ages of 40 and
50 the death rate of married people
is 14.2 per thousand, and of single peo-
ple, 26.5. As years advance, the pro-
portion grows greater. The figures
carry with them their own moral.

The Kaiser's brother will soon be a
visitor to this country. He is said to
be a well-behaved and well educated
young man and therefore deserving
of a cordial welcome. But the fact
that he is a prince need not influence
Americans to overdo the reception
business until the honored guest, as
well as other sensible people, becomes
disgusted.

The first McKinley monument to be
completed and unveiled is not in Ohio,
but in the little college town of Dur-
ham, N. C. President McKinley was
the friend of the south, as he was of
the whole country. Affection and es-
teem for him were bounded by no
sectional lines.

The extension of the Panhandle rail-
road from Chester toward Pittsburg is
apparently about to be undertaken in
a short time. It means increased
prosperity, not alone to Chester, but
to all territory along the route, and
cannot be completed too soon to suit
the people.

Senator Patterson has prepared a
bill which provides for the infliction
of the penalty of life imprisonment
upon any person who shall assault the
president or vice president of the
United States while they are within
the borders of the state of Ohio.

Despite an increase of 50 per cent
in the cost of material and a rise in
the price of labor, the leading cities
of the country report that the year
1901 was the most remarkable in the
history of the United States for the
extent of its building operations.

Government ownership for the pro-
posed Pacific canal is both common
sense and business. The government
will be the greatest customer of the
cable line to Manila, and it should not
license a monopoly and then pay tri-
bute to it.

Tammany Hall's new boss loudly
proclaims that he intends to be the
"whole thing." But there is a well-
grounded suspicion that he wears a
brass collar, with string attached, and
that the collar is stamped "R. Cro-
ker."

It is said a large number of the
Democratic members of the legislature

will unite with the Republicans in
enacting the legislation recommended
by Governor Nash for reform in tax-
ation. This is as it should be. The
question is one that concerns the
whole people, and it would be folly to
make it a party matter.

Some Democrats are talking about
Schley for president and others about
Miles. How they could lay aside their
professed fear of "militarism" long
enough to nominate either is one of
the things that passes comprehension.

Governor Nash will be inaugurated
today with imposing ceremonies. Ohio
is proud of her executive and has full
confidence in his wisdom and states-
manship.

Boston has formed a club for the
advancement of aerial navigation.
Those Bostonians were always eager
to get up in the world.

The Kimberley mines in Africa last
year produced \$22,000,000 worth of
diamonds. It was not a good year for
diamond mining, either.

Germany is now forming a steel
trust. Of course the Democrats will
hold the American protective tariff
system responsible.

The principal trouble of the De-
mocracy, both in congress and in the
Ohio legislature, is lack of leaders and
issues.

Columbus is to get a Carnegie li-
brary. It is one of the needs of the
capital city.

These are days when the gas meter
is putting in its best licks for its em-
ployers.

OBITUARY

Basil Rowe.

Basil Rowe, a former resident of
East Liverpool, and one of the best
known men in this community, died at
his home in East Palestine Saturday
night, after an illness of several
months from heart trouble. He was in
his 70th year.

Mr. Rowe came to this city many
years ago and was among the older
residents who witnessed the develop-
ment of the then small village. He
remained here until a few years ago
when he went to East Palestine,
where he has since resided and where
he was held in high esteem.

He is survived by a wife, who is the
daughter of Philander Gaston, of near
Clarkston, and the following daugh-
ters: Mrs. J. N. Logan, of East Liv-
erpool; Mrs. John McBryor, of Cora-
opolis, Pa.; Mrs. Norman Ward, of Al-
liance, and Mrs. William Owens and
Mrs. Harry Lyons, of East Palestine.
Two sons, Walter and Charles, both
of East Palestine, are also living.

The funeral will take place at East
Palestine tomorrow afternoon at 1
o'clock from the M. E. church. A short
service will be held previously at the
residence. Interment in the East Pal-
estine cemetery.

Mrs. Hannah Orr.

Mrs. Hannah Orr died at the home
of her son-in-law, Mark Brownlow,
156 Mary street, at 3:30 this morning,
aged 74 years. She died from the ef-
fects of jaundice, from which she had
suffered for the past four months.
Mrs. Orr had been a resident of this
city for 14 years, and is survived by
a large family of children. They are:
Mrs. Alice Moore, of New Rumley, O.;
Mrs. Ella Beatty, Kilgore; Mrs. Belle
Brownlow, Mrs. Blanche McNutt,
Frank Orr, of this city, and James
Orr, of Salineville. She also leaves
two brothers, Henry A. Clark, of Ade-
na, and J. W. Clark, of Davenport,
Neb., and two sisters, Mrs. Sarah E.
Hines, Uhrichsville, and Mrs. Mary J.
Shields, of Adena.

Funeral services will be conducted
from the late residence at 2:30 Thurs-
day afternoon, Dr. Clark Crawford, of
whose church Mrs. Orr had been a
life-long member, officiating. Inter-
ment will be made in Riverview cem-
tery.

Death of an Infant.

The infant daughter of Mr. and Mrs.
W. A. Calhoun died last night at 9
o'clock, stomach trouble being the
cause. The funeral will be held at
the Calhoun home tomorrow afternoon
at 2 o'clock and will be conducted by
Rev. D. A. Herrick, of Alliance. In-
terment in Spring Grove cemetery.

William Wines.

The demise of William Wines, aged
22, occurred Saturday evening at his
home on Waterloo street. He had been
ill for several months with consump-
tion. Funeral services will be held
tomorrow afternoon at 2 o'clock from
the M. P. church. The interment will
be in Riverview.

Helen Calhoun.

The three-months-old daughter, Hel-
en Calhoun, of Mr. and Mrs. William
A. Calhoun, died last evening at their
home, 171 Seventh street. The funeral
services will be conducted from the
residence at 2 o'clock tomorrow after-
noon.

POTTERY NEWS

William Devon, of the D. E. Mc-
Nicol pottery, on Saturday received a
large photograph from his brother,
Harry Devon, at Burslem, England,
which shows a gathering of many
members of the "Pleasant Afternoon
Society," a band of men of that town
who are engaged in missionary work.
In the picture is shown Mayor Lovett,
of Burslem, and his daughter, and al-
so Councilman Borden, of that town.
The object of the society is to seek
persons who are non-church goers for
the purpose of making them good
church members. This society is
granted a large sum of money annu-
ally from the wealthy residents of that
section to advance its work.

The deal for the purchase of the
American pottery at Toronto by the
Union Potteries company, of this
city and Pittsburg, still hangs fire,
but there is a possibility of papers
being signed soon, causing the To-
ronto factory to be turned over to the
Union. It has been known for some
time that a "deal" was on. It has
been said that additional conferences
will be held soon between the officers
of the two companies, when a satis-
factory purchase will be decided upon.
The figure placed on the Toronto pot-
tery by its present owners was con-
sidered too high by the officials of
the Union company.

The National Pottery company is
about to place a novelty on the mar-
ket. It is composed of three plain
plates and a mug, the color of which
is brown, resembling "Rookwood"
ware. On the right side of each plate
is painted a monk, but on each plate
the figure is changed. On one the
monk is testing a violin, on another he
is smelling a cluster of pinks, and
on another he is pictured reading a
paper. A similar design is on the
mug. A name for the novelty has not
been selected. The first set was com-
pleted last Thursday.

President A. S. Hughes, of the Na-
tional Brotherhood, left yesterday for
Cincinnati, where he will be at work
probably the remainder of the week.
The Scott Pottery company, of Cin-
cinnati, has been reorganized and ex-
tensive improvements made to the
plant. It is the desire of the company
to have the concern conducted in all
departments under the uniform list,
and President Hughes will aid the op-
eratives in putting the scale in effect.

Carpenters are working at the Union
pottery building addition, in which an
elevator will be installed. The services
of a clay carrier will then be dispen-
sed with. After the improvement is
finished clay will be sent to the clay
shops from the clay cellars by the
new elevator. After the new jiggers
are installed at this plant, the clay
shops will contain 11 machines, many
of which are of an improved pat-
tern.

The Evans Bros., part owners of the
Fallston pottery, were in the city last
Saturday for the purpose of placing
several large orders. The output of
the Fallston pottery is disposed of al-
most entirely by these gentlemen, and
in order to keep abreast of their or-
ders, they are compelled to place busi-
ness with factories in this city.

Saggermakers' local No. 16 will
meet in its hall this evening when
one new candidate will be obligated.
At the last meeting of this local new
officers were installed for the new
term of six months. The membership
of this local has been increasing quite
rapidly during the last few months.

Work on the changes being made
to the clay shop of the Union pottery
has been delayed materially on ac-
count of the slow delivery of the shaft-
ing. The shafting is expected to ar-
rive this week, and the new jiggers
will be started as soon as possible.

J. F. Bradshaw, traveling salesman
for the National China company, left
today for a two months' trip in West
Virginia. Mr. Bradshaw has had an
established route in that state for six
years. He reports trade for 1901 the
best by far of any previous year.

William Walls, foreman of the Steu-
benville pottery, was here Saturday
visiting the Laughlin pottery No. 2
and the Vodrey pottery. He has been
connected with the Steubenville pot-
tery for a number of years and is
well known in this city.

William Devon, fireman at the D. E.
McNicol pottery, received a letter
from his brother Saturday, in which
the writer stated he expected to visit
this city soon. He is a kilnman and
employed in one of the Burslem pot-
teries.

The molds that will be used at the
new pottery at Barberton will be
blocked out in this city. The work,
it is said, will be done at the Frost
model shop. Work will begin soon.

The glost kiln crew of the D. E.
McNicol pottery is now composed of

10 men. The latest additions to this
crew are Jack Barbour and Mike Ma-
lone.

Daniel Madden, a printer at the Vod-
rey pottery, who has been ill for five
weeks with pneumonia, has recovered
and is able to leave his home.

Gotham & Lockhart have secured
an order for the new models of ware
to be made for the New Castle China
company.

George Smith, secretary of No. 9,
who has been ill with an attack of
pneumonia, is improving rapidly.

FRIENDS AND VISITORS

Mrs. M. O. Fisher, of McKinley ave-
nue, is ill.

Thomas Marron returned this morn-
ing from a trip to Zanesville.

Mrs. George Hailes, of West Market
street, who has been ill with typhoid
fever, is able to be out again.

Mrs. W. C. Van Fossen and daugh-
ter have returned to their home in
this city, after a visit with relatives
at Winona.

Mrs. M. E. Koplin, of New Castle,
is the guest of her son, H. B. Koplin,
manager of the Columbiana County
Telephone company in this city.

Miss Catherine Craft, of Wellsburg,
who has been visiting her brother,
Charles Craft, of this city, for several
weeks, returned to her home yester-
day.

F. W. Shea leaves this evening for
Louisville, Ky., from which point he
will start on an extensive southern
trip in the interest of the National
Glass company, of Pittsburg.

Rev. Dunham, the evangelist who is
expected in the city about the middle
of the week, will be entertained during
his sojourn here at the home of Mr.
Arthur B. Taylor, Jackson street.
For Township Clerk,

AT THE THEATER

The stage hands' benefit will be held
earlier this year than was expected,
arrangements to this effect having
been closed Saturday morning. The
attraction this year will be "Lovers'
Lane," by Clyde Fitch, which was pre-
sented at the Alvin theater, Pittsburg,
recently. The company appearing at
Pittsburg will be here for the benefit
January 21. It is said this will be the
only Fitch production that will appear
here this season and is the best he
has written.

Chester De Vonde and an excellent
company will begin a week's engage-
ment at the opera house tonight. Mr.
De Vonde has surrounded himself with
the strongest talent available. No ex-
pense has been spared to make each
play a production. One thing always
noticeable about the staging of the
plays produced by the above company
is the detail in which everything is
worked out.

There was a rather small attend-
ance at the opera house Saturday
night to witness the performance
given by the Atkinson & Richards
vaudeville company. Owing to the
small audience many of the acts were
cut short, though the performance
was pleasing. Several features were of
a high order.

"Are You a Mason?" one of the best
attractions the Knights of Pythias
could secure for their annual benefit,
will be presented at the opera house
Monday evening, January 27. Tickets
are now on sale and an unusually large
demand for them is reported.

AND TWENTY-THREE (1,223) sub-
scribers.

MONDAY, JANUARY 13, 1902.

Governor Nash's effort to have Jan-
uary 29, McKinley's birthday, observ-
ed throughout the country as a day
for contributions to the McKinley
monument fund is meeting with gen-
eral favor. The governor, as chairman
of the Ohio auxiliary of the McKinley
National Memorial association, has
invited every governor of a state or
territory to issue an appeal to the
citizens to observe the day in the
manner indicated. Several governors
have already issued proclamations on
the subject and all others heard from
promise to do so. January 29 ought
to swell the Canton monument fund
to such dimensions that no further ap-
peals for contributions will be neces-
sary.

A leading German statistician has
compiled statistics which indicate
that married people live longer than
single. For instance, there are 64.4
married people to every 58.63 single
people who live to be past 30 years
of age. Between the ages of 40 and
50 the death rate of married people
is 14.2 per thousand, and of single
people, 26.5. As years advance, the pro-
portion grows greater. The figures
carry with them their own moral.

The kaiser's brother will soon be a
visitor to this country. He is said to
be a well-behaved and well educated
young man and therefore deserving
of a cordial welcome. But the fact
that he is a prince need not influence
Americans to overdo the reception
business until the honored guest, as
well as other sensible people, becomes
disgusted.

The first McKinley monument to be
completed and unveiled is not in Ohio,
but in the little college town of Dur-
ham, N. C. President McKinley was
the friend of the south, as he was of
the whole country. Affection and es-
teem for him were bounded by no
sectional lines.

The extension of the Panhandle rail-
road from Chester toward Pittsburg is
apparently about to be undertaken in
a short time. It means increased
prosperity, not alone to Chester, but
to all territory along the route, and
cannot be completed too soon to suit
the people.

Senator Patterson has prepared a
bill which provides for the infliction
of the penalty of life imprisonment
upon any person who shall assault the
president or vice president of the
United States while they are within
the borders of the state of Ohio.

Despite an increase of 50 per cent
in the cost of material and a rise in
the price of labor, the leading cities
of the country report that the year
1901 was the most remarkable in the
history of the United States for the
extent of its building operations.

Government ownership for the pro-
posed Pacific canal is both common
sense and business. The government
will be the greatest customer of the
cable line to Manila, and it should not
license a monopoly and then pay tri-
bute to it.

Tammany Hall's new boss loudly
proclaims that he intends to be the
"whole thing." But there is a well-
grounded suspicion that he wears a
brass collar, with string attached, and
that the collar is stamped "R. Cro-
ker."

It is said a large number of the
Democratic members of the legislature

will unite with the Republicans in
enacting the legislation recommended
by Governor Nash for reform in taxa-
tion. This is as it should be. The
question is one that concerns the
whole people, and it would be folly to
make it a party matter.

Some Democrats are talking about
Schley for president and others about
Miles. How they could lay aside their
professed fear of "militarism" long
enough to nominate either is one of
the things that passes comprehension.

Governor Nash will be inaugurated
today with imposing ceremonies. Ohio
is proud of her executive and has full
confidence in his wisdom and states-
manship.

Boston has formed a club for the
advancement of aerial navigation.
Those Bostonians were always eager
to get up in the world.

The Kimberley mines in Africa last
year produced \$22,000,000 worth of
diamonds. It was not a good year for
diamond mining, either.

Germany is now forming a steel
trust. Of course the Democrats will
hold the American protective tariff
system responsible.

The principal trouble of the De-
mocracy, both in congress and in the
Ohio legislature, is lack of leaders and
issues.

Columbus is to get a Carnegie li-
brary. It is one of the needs of the
capital city.

These are days when the gas meter
is putting in its best licks for its em-
ployers.

OBITUARY

Basil Rowe.

Basil Rowe, a former resident of
East Liverpool, and one of the best
known men in this community, died at
his home in East Palestine Saturday
night, after an illness of several
months from heart trouble. He was in
his 70th year.

Mr. Rowe came to this city many
years ago and was among the older
residents who witnessed the develop-
ment of the then small village. He
remained here until a few years ago
when he went to East Palestine,
where he has since resided and where
he was held in high esteem.

He is survived by a wife, who is the
daughter of Phyllander Gaston, of near
Clarkston, and the following daugh-
ters: Mrs. J. N. Logan, of East Liv-
erpool; Mrs. John McBryor, of Cora-
opolis, Pa.; Mrs. Norman Ward, of Al-
liance, and Mrs. William Owens and
Mrs. Harry Lyons, of East Palestine.
Two sons, Walter and Charles, both
of East Palestine, are also living.

The funeral will take place at East
Palestine tomorrow afternoon at 1
o'clock from the M. E. church. A short
service will be held previously at the
residence. Interment in the East Pal-
estine cemetery.

Mrs. Hannah Orr.

Mrs. Hannah Orr died at the home
of her son-in-law, Mark Brownlow,
156 Mary street, at 3:30 this morning,
aged 74 years. She died from the ef-
fects of jaundice, from which she had
suffered for the past four months.
Mrs. Orr had been a resident of this
city for 14 years, and is survived by
a large family of children. They are:
Mrs. Alice Moore, of New Rumley, O.;
Mrs. Ella Beatty, Kilgore; Mrs. Belle
Brownlow, Mrs. Blanche McNutt,
Frank Orr, of this city, and James
Orr, of Salineville. She also leaves
two brothers, Henry A. Clark, of Ade-
na, and J. W. Clark, of Davenport,
Neb., and two sisters, Mrs. Sarah E.
Hines, Uhrichsville, and Mrs. Mary J.
Shields, of Adena.

Funeral services will be conducted
from the late residence at 2:30 Thurs-
day afternoon, Dr. Clark Crawford, of
whose church Mrs. Orr had been a
life-long member, officiating. Inter-
ment will be made in Riverview ceme-
tery.

Death of an Infant.

The infant daughter of Mr. and Mrs.
W. A. Calhoun died last night at 9
o'clock, stomach trouble being the
cause. The funeral will be held at the
Calhoun home tomorrow afternoon
at 2 o'clock and will be conducted by
Rev. D. A. Herrick, of Alliance. In-
terment in Spring Grove cemetery.

William Wines.

The demise of William Wines, aged
22, occurred Saturday evening at his
home on Waterloo street. He had been
ill for several months with consump-
tion. Funeral services will be held
tomorrow afternoon at 2 o'clock from
the M. P. church. The interment will
be in Riverview.

Helen Calhoun.

The three-months-old daughter, Hel-
en Calhoun, of Mr. and Mrs. William
A. Calhoun, died last evening at their
home, 171 Seventh street. The funeral
services will be conducted from the
residence at 2 o'clock tomorrow after-
noon.

POTTERY NEWS

William Devon, of the D. E. Mc-
Nicol pottery, on Saturday received a
large photograph from his brother,
Harry Devon, at Burslem, England,
which shows a gathering of many
members of the "Pleasant Afternoon
Society," a band of men of that town
who are engaged in missionary work.
In the picture is shown Mayor Lovett,
of Burslem, and his daughter, and also
Councilman Borden, of that town.
The object of the society is to seek
persons who are non-church goers for
the purpose of making them good
church members. This society is
granted a large sum of money annu-
ally from the wealthy residents of that
section to advance its work.

The deal for the purchase of the
American pottery at Toronto by the
Union Pottery company, of this
city and Pittsburg, still hangs fire,
but there is a possibility of papers
being signed soon, causing the To-
ronto factory to be turned over to the
Union. It has been known for some
time that a "deal" was on. It has
been said that additional conferences
will be held soon between the officers
of the two companies, when a satis-
factory purchase will be decided upon.
The figure placed on the Toronto po-
ttery by its present owners was con-
sidered too high by the officials of
the Union company.

The National Pottery company is
about to place a novelty on the mar-
ket. It is composed of three plain
plates and a mug, the color of which
is brown, resembling "Rookwood"
ware. On the right side of each plate
is painted a monk, but on each plate
the figure is changed. On one the
monk is testing a violin, on another he
is smelling a cluster of pinks, and
on another he is pictured reading a
paper. A similar design is on the
mug. A name for the novelty has not
been selected. The first set was com-
pleted last Thursday.

President A. S. Hughes, of the Na-
tional Brotherhood, left yesterday for
Cincinnati, where he will be at work
probably the remainder of the week.
The Scott Pottery company, of Cin-
cinnati, has been reorganized and ex-
tensive improvements made to the
plant. It is the desire of the company
to have the concern conducted in all
departments under the uniform list,
and President Hughes will aid the op-
eratives in putting the scale in effect.

Carpenters are working at the Union
pottery building addition, in which an
elevator will be installed. The services
of a clay carrier will then be dispens-
ed with. After the improvement is
finished clay will be sent to the clay
shops from the clay cellars by the
new elevator. After the new jiggers
are installed at this plant, the clay
shops will contain 11 machines, many
of which are of an improved pat-
tern.

The Evans Bros., part owners of the
Fallston pottery, were in the city last
Saturday for the purpose of placing
several large orders. The output of
the Fallston pottery is disposed of al-
most entirely by these gentlemen, and
in order to keep abreast of their or-
ders, they are compelled to place busi-
ness with factories in this city.

Saggermakers' local No. 16 will
meet in its hall this evening when
one new candidate will be obligated.
At the last meeting of this local new
officers were installed for the new
term of six months. The membership
of this local has been increasing quite
rapidly during the last few months.

Work on the changes being made
to the clay shop of the Union pottery
has been delayed materially on ac-
count of the slow delivery of the shaft-
ing. The shafting is expected to ar-
rive this week, and the new jiggers
will be started as soon as possible.

J. F. Bradshaw, traveling salesman
for the National China company, left
today for a two months' trip in West
Virginia. Mr. Bradshaw has had an
established route in that state for six
years. He reports trade for 1901 the
best by far of any previous year.

William Walls, foreman of the Steu-
benville pottery, was here Saturday
visiting the Laughlin pottery No. 2
and the Vodrey pottery. He has been
connected with the Steubenville po-
ttery for a number of years and is
well known in this city.

William Devon, fireman at the D. E.
McNicol pottery, received a letter
from his brother Saturday, in which
the writer stated he expected to visit
this city soon. He is a kilnman and
employed in one of the Burslem po-
teries.

The molds that will be used at the
new pottery at Barberton will be
blocked out in this city. The work,
it is said, will be done at the Frost
model shop. Work will begin soon.

The ghost kiln crew of the D. E.
McNicol pottery is now composed of

10 men. The latest additions to this
crew are Jack Barbour and Mike Ma-
lone.

Daniel Madden, a printer at the Vo-
drey pottery, who has been ill for five
weeks with pneumonia, has recovered
and is able to leave his home.

Gotham & Lockhart have secured
an order for the new models of ware
to be made for the New Castle China
company.

George Smith, secretary of No. 3,
who has been ill with an attack of
pneumonia, is improving rapidly.

FRIENDS AND VISITORS

Mrs. M. O. Fisher, of McKinley ave-
nue, is ill.

Thomas Marron returned this morn-
ing from a trip to Zanesville.

Mrs. George Hailes, of West Market
street, who has been ill with typhoid
fever, is able to be out again.

Mrs. W. C. Van Fossen and daugh-
ter have returned to their home in
this city, after a visit with relatives
at Winona.

Mrs. M. E. Koplin, of New Castle,
is the guest of her son, H. B. Koplin,
manager of the Columbiana County
Telephone company in this city.

Miss Catherine Craft, of Wellsburg,
who has been visiting her brother,
Charles Craft, of this city, for several
weeks, returned to her home yester-
day.

F. W. Shea leaves this evening for
Louisville, Ky., from which point he
will start on an extensive southern
trip in the interest of the National
Glass company, of Pittsburg.

Rev. Dunham, the evangelist who is
expected in the city about the middle
of the week, will be entertained during
his sojourn here at the home of Mr.
Arthur B. Taylor, Jackson street.
For Township Clerk,

AT THE THEATER

The stage hands' benefit will be held
earlier this year than was expected,
arrangements to this effect having
been closed Saturday morning. The
attraction this year will be "Lovers'
Lane," by Clyde Fitch, which was
presented at the Alvin theater, Pittsburg,
recently. The company appearing at
Pittsburg will be here for the benefit
January 21. It is said this will be the
only Fitch production that will appear
here this season and is the best he
has written.

Chester De Vonde and an excellent
company will begin a week's engage-
ment at the opera house tonight. Mr.
De Vonde has surrounded himself with
the strongest talent available. No ex-
pense has been spared to make each
play a production. One thing always
noticeable about the staging of the
plays produced by the above company
is the detail in which everything is
worked out.

There was a rather small attend-
ance at the opera house Saturday
night to witness the performance
given by the Atkinson & Richards
vaudeville company. Owing to the
small audience many of the acts were
cut short, though the performance
was pleasing. Several features were of
a high order.

"Are You a Mason?" one of the best
attractions the Knights of Pythias
could secure for their annual benefit,
will be presented at the opera house
Monday evening, January 27. Tickets
are now on sale and an unusually large
demand for them is reported.

WELLSVILLE

PRESIDING ELDER PREACHED

Dr. Manchester Appropriately Opened the M. E. Revival Season in Wellsville.

In the Methodist Episcopal church last evening a very large congregation greeted Dr. Manchester, presiding elder of the Steubenville district. The eminent clergyman preached an eloquent sermon, using as his text a portion of Paul's letter to the Corinthians. At the conclusion of the sermon the pastor, Rev. C. E. Clark, announced that the address of the visiting minister was very appropriate for the revival meetings which commence tonight and continue throughout the week.

The services last evening were opened with a duet sung by Mrs. Al Lichtenberger and Miss Ethel McCann.

ALBINO ARRESTED

"White Bill," of Wellsville Is Accused of Stealing a Timepiece.

A young man known only by the name of "White Bill" was jailed Saturday evening by Officer Roley. The charge of stealing a watch was preferred against him by Frank Geisse, the Third street saloonist. Bill is a peculiar character. In appearance he resembles an Albino. His hair, eye brows and lashes are a snowy white and his eyes are a pink. He undergoes the same difficulty with his eyesight as does an owl. During the day he can scarcely see, but at night his eyes can penetrate the darkness with the accuracy of a cat.

For the alleged stealing he will be given a hearing this evening by Mayor Dennis.

HURLED AGAINST A SEAT

Lady Injured in a Collision of Street Cars in Wellsville.

Mrs. William Burford, of this city, was slightly injured in the street car collision at Lyth's switch Saturday evening. She was on the car bound for Wellsville and was sitting on a front seat.

When the cars collided she was thrown violently against another seat and sustained minor bruises to her limbs. No one else was hurt.

Bowlers Going to Alliance.

Captain Shingler's bowling aggregation will leave tomorrow evening for Alliance to battle with a league team. The members of the home team are Messrs. Willet Aten, Dick Harsha, Ben Evans, George Apple, Charles Hall and M. R. Shingler. They will be accompanied by several bowling enthusiasts, among whom will be Mayor Dennis and Frank Fox.

Mayor a Good Walker.

Mayor Dennis established a walking record Saturday afternoon. He had a business mission in Pughtown, a little hamlet in West Virginia, seven miles back of Congo, and not being able to procure a livery rig he walked the entire distance, covering the 14 miles in two hours and 50 minutes.

Commission's Last Meeting.

The last meeting of Wellsville's sewer commission will be held tonight. Preparations have been completed for its official demise. However, the commission intends to die "hard." Numerous resolutions have been prepared and will be passed at this meeting.

Will Address Teachers.

Superintendent Powell, of the Steubenville schools, will make an address before the teachers of the public schools this evening. His subject will be on school work and will no doubt be very interesting and instructive to the teachers.

MINOR NEWS OF WELLSVILLE.

Charles Stevenson is in Pittsburg on business.

James Nolan was a Pittsburg visitor Saturday evening.

Mrs. Frank Slaughter, of Pittsburg, is the guest of friends.

Mrs. John Strudoff is in from the country visiting friends.

Mrs. Harriet Pierce, Main street, is visiting friends in Pittsburg.

Alexander Forbes is recovering from his recent severe illness.

SOUTH SIDE

TO M'KEES ROCKS

THE MONACA-CHESTER EXTENSION MAY RUN.

Report That the Pennsylvania Company Intends to Parallel the Lake Erie.

Surveys made by the engineering corps of the Pennsylvania company within the past week have created considerable interest in railroad circles. It is reported that plans are in progress for the construction of a branch line of the Panhandle that will parallel the Pittsburg and Lake Erie from Monaca to McKee's Rocks, where the line will cross the river and connect with the Fort Wayne.

The plan under contemplation by the Pennsylvania officials, says a Pittsburg paper, is for the extension of the New Cumberland branch of the Panhandle from Crester, W. Va., to Monaca, and thence along the river front to McKee's Rocks. At this point it is said that the Ohio river will be bridged and a connection had with the Fort Wayne. The survey also includes a division of the route in order to pass along Neville island and there penetrate many of the industrial centers that are yielding heavy freight tonnage.

It is stated on good authority that rights of way for the new branch line have been acquired. Between the tracks of the Lake Erie for most of the distance there is ample room to construct a single track line, while at various points where the surveys touch the river's edge the company is planning to drive piles. The permission for this is now being sought, and as soon as the agreement with the government officials has been reached the detailed plans for the branch line will be officially announced.

For several months past the engineers have been working in the vicinity of Chester. Numerous reports have gained circulation relative to the real purpose of the projected line and the name of the promoter. On several occasions the Pittsburg and Lake Erie has been named in this connection, but officials of that company deny all knowledge of the reported surveys. Another report has it that surveys have been made along the Raccoon creek, by which route the Pennsylvania hopes to reach Monaca.

REAL ESTATE BOOM

Continues Active in Chester—Site For Three Story Building Purchased.

Real estate and other property in Chester is every day increasing in value. Lots that could have been purchased a year ago for \$200 cannot be obtained at the present time for less than \$400 and there are numerous lots near the center of the city that are valued at \$1,000 and over.

William Allison, of Middle Run, has purchased a corner lot on Carolina avenue from George Richmond for \$750. Mr. Allison states he will soon start the erection of a three-story brick building on the lot, for store and residence purposes, the top floor being arranged for dancing purposes.

Back to His Old Home.

George Moore, a farmer of Hancock county, who resided near Chester until a few years ago, when he went west, returned to Chester yesterday. He has been working in South Dakota for some time, and came here from Rapid City, S. D.

CHESTER NOTES.

Miss Bessie Swearingen visited Miss Moore in Wellsville.

Miss Kate Peck has returned from a six weeks' visit at Cleveland.

Mrs. Edgar Pauley is in Pittsburg to visit her father, who is critically ill. Charles Branley gave a dance at his

We're Getting Ready to Inventory

We're going to get ready for two weeks.

We've found it easier to count money than goods.

So this week and next we're going to sell as many goods as we can. Its cold weather and a little off season for big sales of Furniture and Carpets but we're going to help the matter along by remarkable bargains.

We'll adopt a new plan in this sale.

Instead a straight, arbitrary discount we'll have you make your selection and we'll make the price.

HARD'S

"THE BIG STORE"

home in Eleventh street Saturday night.

E. C. Baxter has returned from a two weeks' business visit in the neighborhood of Wellsburg.

Thompson Allison, toll collector, is confined to his home, being dangerously ill with typhoid fever.

George Still, after a week's sickness, has returned to work at the Taylor, Smith and Taylor pottery.

WHAT CONGRESS MAY DO.

Senate Has No Defined Programme. Forecast of the House.

Washington, Jan. 13.—The Senate is still without any definite plan of action for the future, and the indications are that the present week will witness a greater display of activity in the Senate committee rooms than in the Senate chamber. There are very few matters of importance on the calendar, but enough to engage attention for a few hours each day until Thursday, when the Senate probably will adjourn for the week.

Among the measures which there will be an effort made to get out of committee during the week are: The Nicaragua canal bill, the Philippine tariff bill, and the ship subsidy bill. The indications are that the Nicaragua bill will be reported practically as it passed the House, and that the shipping bill will not be materially amended, but the Republican leaders have practically decided to make a material reduction of the tariff on Philippine imports.

It is not probable that the discussion of either of these questions will begin for some time. The utmost that is to be expected in that direction is a preliminary arrangement for consideration. Which of the measures shall receive first attention is not yet determined, and considerable rivalry is likely to develop for precedence. All of the three measures will be debated at some length when taken up in the Senate.

Washington, Jan. 13.—The really important work of the House of Representatives aside from the Nicaragua canal bill is still in the committee stage, so that there is little of importance to be considered during the week. Monday will be given to bills affecting the District of Columbia. After that the pension appropriation bill will be passed. Although this measure carries about \$139,000,000, it follows the department estimates and does not involve any serious issues, so that after a brief explanation its passage usually follows promptly. The ways and means committee has a few minor bills on the calendar, for the redemption of revenue stamps made worthless by the repeal of certain features of the war revenue act. With the disposal of these bills, there will be little to engage the attention of the House, and there promises to be several periods of adjournment during which time the committees will perfect the largest measures to be brought before the House. The chief interest of the week will center in the hearing on Cuban reciprocity, to begin at 10 o'clock Wednesday morning, before the ways and means committee. The hearings will continue for several days, and it is expected that General Wood and others prominent in Cuban affairs, as well as the interest opposed to reciprocity, will address the committee.

He Grabbed the Offer.

Ex-Governor George W. Peck of Wisconsin, author of "Peck's Bad Boy," was running a little country weekly in the pinneries in the early sixties. It was an unimportant sheet save for one column of jokes which Peck wrote each week. This department caught the eye of "Brick" Pomeroy, who was then printing his Democrat in Lacrosse, Wis., and one day he wrote to Peck asking him whether he would be willing to go down to Lacrosse and work for The Democrat at \$25 a week.

Three days later Mr. Pomeroy got this telegram: "I accept your offer quicker than instantly. For heaven's sake don't withdraw it!"

CORRECTING BOUNDARY LINE.

Surveyors for Maryland and Pennsylvania at Work.

Hanover, Pa., Jan. 13.—The surveyors employed jointly by the States of Pennsylvania and Maryland to correct the boundary line as first established by Mason and Dixon have proceeded with their work as far as Germany township, Adams county, Pa.

They report that many of the stones are displaced. The surveyors found one used as a doorsill in a dwelling, another in a church, others lying down and some at a considerable distance from the original places. All these stones will be secured and reset in their proper places.

GOV. NASH TO BE AGAIN INAUGURATED TO-DAY.

Columbus, O., Jan. 3.—Gov. George K. Nash will to-day be inaugurated into office for his second term. Arrangements have been made for a military and civic parade in the afternoon. In the evening there will be a public reception.

By a Modern Esop.

In the days when Children understood the language of Everything a Boy was telling his Troubles to the Eggs.

"They always Beat me," he complained, "unless I am Good."

"They will not beat us," observed the Eggs, "unless we are Good."

Moral.—There must be some Mistake in those Jokes about Omelets.—Baltimore American.

Where He Didn't Study.

"My gracious!" cried the sympathetic girl. "Your dog seems half starved. He looks as if he hadn't had anything to eat for a week."

"Neither he has, poor fellow!" replied the college student. "I forgot all about him."

"Why, where was he?"

"Locked up in my study room!"—Philadelphia Record.

ANNOUNCEMENTS.

For County Commissioner, WILLIS GASTON, (St. Clair Township.)

Subject to the decision of the Republican county primary.

WELLSVILLE

PRESIDING ELDER PREACHED

Dr. Manchester Appropriately Opened the M. E. Revival Season in Wellsville.

In the Methodist Episcopal church last evening a very large congregation greeted Dr. Manchester, presiding elder of the Steubenville district. The eminent clergyman preached an eloquent sermon, using as his text a portion of Paul's letter to the Corinthians. At the conclusion of the sermon the pastor, Rev. C. E. Clark, announced that the address of the visiting minister was very appropriate for the revival meetings which commence to night and continue throughout the week.

The services last evening were opened with a duet sung by Mrs. Al Lichtenberger and Miss Ethel McCann.

ALBINO ARRESTED

"White Bill," of Wellsville Is Accused of Stealing a Timepiece.

A young man known only by the name of "White Bill" was jailed Saturday evening by Officer Roley. The charge of stealing a watch was preferred against him by Frank Geisse, the third street saloonist. Bill is a peculiar character. In appearance he resembles an Albino. His hair, eye brows and lashes are a snowy white and his eyes are a pink. He undergoes the same difficulty with his eyesight as does an owl. During the day he can scarcely see, but at night his eyes can penetrate the darkness with the accuracy of a cat.

For the alleged stealing he will be given a hearing this evening by Mayor Dennis.

HURLED AGAINST A SEAT

Lady Injured in a Collision of Street Cars in Wellsville.

Mrs. William Burford, of this city, was slightly injured in the street car collision at Lyth's switch Saturday evening. She was on the car bound for Wellsville and was sitting on a front seat.

When the cars collided she was thrown violently against another seat and sustained minor bruises to her limbs. No one else was hurt.

Bowlers Going to Alliance.

Captain Shingler's bowling aggregation will leave tomorrow evening for Alliance to battle with a league team. The members of the home team are Messrs. Willet Aten, Dick Harsha, Ben Evans, George Apple, Charles Hall and M. R. Shingler. They will be accompanied by several bowling enthusiasts, among whom will be Mayor Dennis and Frank Fox.

Mayor a Good Walker.

Mayor Dennis established a walking record Saturday afternoon. He had a business mission in Pughtown, a little hamlet in West Virginia, seven miles back of Congo, and not being able to procure a lively rig he walked the entire distance, covering the 14 miles in two hours and 50 minutes.

Commission's Last Meeting.

The last meeting of Wellsville's sewer commission will be held tonight. Preparations have been completed for its official demise. However, the commission intends to die "hard." Numerous resolutions have been prepared and will be passed at this meeting.

Will Address Teachers.

Superintendent Powell, of the Steubenville schools, will make an address before the teachers of the public schools this evening. His subject will be on school work and will no doubt be very interesting and instructive to the teachers.

MINOR NEWS OF WELLSVILLE.

Charles Stevenson is in Pittsburgh on business. James Nolan was a Pittsburgh visitor Saturday evening. Mrs. Frank Slaughter, of Pittsburgh, is the guest of friends. Mrs. John Strudoff is in from the country visiting friends. Mrs. Harriet Pierce, Main street, is visiting friends in Pittsburgh. Alexander Forbes is recovering from his recent severe illness. Messrs. M. R. Shingler and Frank

THE MONACA-CHESTER EXTENSION MAY RUN.

Report That the Pennsylvania Company Intends to Parallel the Lake Erie.

Surveys made by the engineering corps of the Pennsylvania company within the past week have created considerable interest in railroad circles. It is reported that plans are in progress for the construction of a branch line of the Panhandle that will parallel the Pittsburgh and Lake Erie from Monaca to McKee's Rocks, where the line will cross the river and connect with the Fort Wayne.

The plan under contemplation by the Pennsylvania officials, says a Pittsburgh paper, is for the extension of the New Cumberland branch of the Panhandle from Crester, W. Va., to Monaca, and thence along the river front to McKee's Rocks. At this point it is said that the Ohio river will be bridged and a connection had with the Fort Wayne. The survey also includes a division of the route in order to pass along Neville island and there penetrate many of the industrial centers that are yielding heavy freight tonnage.

It is stated on good authority that rights of way for the new branch line have been acquired. Between the tracks of the Lake Erie for most of the distance there is ample room to construct a single track line, while at various points where the surveys touch the river's edge the company is planning to drive piles. The permission for this is now being sought, and as soon as the agreement with the government officials has been reached the detailed plans for the branch line will be officially announced.

For several months past the engineers have been working in the vicinity of Chester. Numerous reports have gained circulation relative to the real purpose of the projected line and the name of the promoter. On several occasions the Pittsburgh and Lake Erie has been named in this connection, but officials of that company deny all knowledge of the reported surveys. Another report has it that surveys have been made along the Raccoon creek, by which route the Pennsylvania hopes to reach Monaca.

REAL ESTATE BOOM

Continues Active In Chester—Site For Three Story Building Purchased.

Real estate and other property in Chester is every day increasing in value. Lots that could have been purchased a year ago for \$200 cannot be obtained at the present time for less than \$400 and there are numerous lots near the center of the city that are valued at \$1,000 and over.

William Allison, of Middle Run, has purchased a corner lot on Carolina avenue from George Richmond for \$750. Mr. Allison states he will soon start the erection of a three-story brick building on the lot, for store and residence purposes, the top floor being arranged for dancing purposes.

Back to His Old Home.

George Moore, a farmer of Hancock county, who resided near Chester until a few years ago, when he went west, returned to Chester yesterday. He has been working in South Dakota for some time, and came here from Rapid City, S. D.

CHESTER NOTES.

Miss Bessie Swearingen visited Miss Moore in Wellsville.

Miss Kate Peck has returned from a six weeks' visit at Cleveland.

Mrs. Edgar Pauley is in Pittsburgh to visit her father, who is critically ill. Charles Branley gave a dance at his

home in Eleventh street Saturday night.

E. C. Baxter has returned from a two weeks' business visit in the neighborhood of Wellsburg.

Thompson Allison, toll collector, is confined to his home, being dangerously ill with typhoid fever.

George Still, after a week's sickness, has returned to work at the Taylor, Smith and Taylor pottery.

WHAT CONGRESS MAY DO.

Senate Has No Defined Programme. Forecast of the House.

Washington, Jan. 13.—The Senate is still without any definite plan of action for the future, and the indications are that the present week will witness a greater display of activity in the Senate committee rooms than in the Senate chamber. There are very few matters of importance on the calendar, but enough to engage attention for a few hours each day until Thursday, when the Senate probably will adjourn for the week.

Among the measures which there will be an effort made to get out of committee during the week are: The Nicaragua canal bill, the Philippine tariff bill, and the ship subsidy bill. The indications are that the Nicaragua bill will be reported practically as it passed the House, and that the shipping bill will not be materially amended, but the Republican leaders have practically decided to make a material reduction of the tariff on Philippine imports.

It is not probable that the discussion of either of these questions will begin for some time. The utmost that is to be expected in that direction is a preliminary arrangement for consideration. Which of the measures shall receive first attention is not yet determined, and considerable rivalry is likely to develop for precedence. All of the three measures will be debated at some length when taken up in the Senate.

Washington, Jan. 13.—The really important work of the House of Representatives aside from the Nicaragua canal bill is still in the committee stage, so that there is little of importance to be considered during the week. Monday will be given to bills affecting the District of Columbia. After that the pension appropriation bill will be passed. Although this measure carries about \$139,000,000, it follows the department estimates and does not involve any serious issues, so that after a brief explanation its passage usually follows promptly. The ways and means committee has a few minor bills on the calendar, for the redemption of revenue stamps made worthless by the repeal of certain features of the war revenue act. With the disposal of these bills, there will be little to engage the attention of the House, and there promises to be several periods of adjournment during which time the committees will perfect the largest measures to be brought before the House. The chief interest of the week will center in the hearing on Cuban reciprocity, to begin at 10 o'clock Wednesday morning, before the ways and means committee. The hearings will continue for several days, and it is expected that General Wood and others prominent in Cuban affairs, as well as the interest opposed to reciprocity, will address the committee.

He Grabbed the Offer.

Ex-Governor George W. Peck of Wisconsin, author of "Peck's Bad Boy," was running a little country weekly in the pinneries in the early sixties. It was an unimportant sheet save for one column of jokes which Peck wrote each week. This department caught the eye of "Brick" Pomeroy, who was then printing his Democrat in LaCrosse, Wis., and one day he wrote to Peck asking him whether he would be willing to go down to LaCrosse and work for The Democrat at \$25 a week.

Three days later Mr. Pomeroy got this telegram: "I accept your offer quicker than instantly. For heaven's sake don't withdraw it!"

CORRECTING BOUNDARY LINE.

Surveyors for Maryland and Pennsylvania at Work.

Hanover, Pa., Jan. 13.—The surveyors employed jointly by the States of Pennsylvania and Maryland to correct the boundary line as first established by Mason and Dixon have proceeded with their work as far as Germany township, Adams county, Pa.

They report that many of the stones are displaced. The surveyors found one used as a door sill in a dwelling, another in a church, others lying down and some at a considerable distance from the original places. All these stones will be secured and reset in their proper places.

GOV. NASH TO BE AGAIN INAUGURATED TO-DAY.

Columbus, O., Jan. 3.—Gov. George K. Nash will to-day be inaugurated into office for his second term. Arrangements have been made for a military and civic parade in the afternoon. In the evening there will be a public reception.

By a Modern Esop.

In the days when Children understood the language of Everything a Boy was telling his Troubles to the Eggs.

"They always Beat me," he complained, "unless I am Good."

"They will not beat us," observed the Eggs, "unless we are Good."

Moral.—There must be some Mistake in those Jokes about Omelets.—Baltimore American.

Where He Didn't Study.

"My gracious!" cried the sympathetic girl. "Your dog seems half starved. He looks as if he hadn't had anything to eat for a week."

"Neither he has, poor fellow!" replied the college student. "I forgot all about him."

"Why, where was he?"

"Locked up in my study room!"—Philadelphia Record.

LATE AND IMPORTANT PHASES OF CHILD STUDY.

BY COLIN A. SCOTT, PH. D.,

Professor of Psychology and Child Study in the Wisconsin Normal School.

III.—First Thoughts of Children.

SINCE the publication of Darwin's "Biographical Sketch of an Infant" a great many facts have been collected indicating the way in which children react to their environment during the first months of their existence. These observations all show that sensorimotor brain centers, the first in structural development, also come first into function and at the start with a very small amount of definite association. In this latter point the human child differs markedly from the young of the lower animals. In the case of a newly born chicken, for example, we find a large number of the reactions of which he is capable already formed and needing only the slightest touch on the part of the environment to set them off. During the first day of his life the chicken, after picking his way through his shell, stands and walks and when he sees food among grains of sand seizes it with about as much precision as he ever does in later life. He is to a large extent mature and capable of supporting himself.

With the human infant there are indeed some reflexes already in existence, but with the exception of that for sucking these are of a very generalized type. There has been observed on the first day of life, even with infants prematurely born, a turning of the head toward the light. This indicates a performed associative path between the optic centers and the motor centers which move the head. It is, however, of a very indefinite character and goes no further than the pleasurable differentiation between light and darkness. The infant is still practically blind, and the distinguishing of objects is quite impossible to him.

There is a similar condition with respect to hearing, some observers reporting that even to loud noises the child makes no response whatever during the first few days.

Touch has been regarded by many as the first sense to manifest itself. Kussmaul, Perez and Preyer all believe that individual tactile sensations show themselves during intrauterine life. Even with prematurely born children touch elicits some response at the very first. The tongue, lips, nostrils and eyelashes are especially sensitive. The difference in sensibility is, however, less in infants than in adults, and reaction time is slower, indicating a lack of definite association.

Taste is developed as early as touch. Kussmaul found that on the first day of life solutions of sugar and quinine, introduced by a hair pencil and warmed so that the feeling of temperature would not affect the result, called forth "the same mimetic movements which we designate among grown people as the facial expressions of sweet and bitter." They respond to the sugar by protruding the lips in a spoutlike form, pressing the tongue between them, sucking and swallowing. On the contrary, when the quinine was introduced the visage was distorted, the eyes closed, the tongue protruded, and choking movements were made, accompanied by the expulsion of the fluid and active secretion of saliva. In many cases, however, the introduction of an attenuated solution of quinine was responded to by sucking movements, showing that taste sensibility is weaker at this age than the adult (Tracey). These movements cannot be called voluntary in the adult sense, but were as uncontrollable reflexes. They indicate a differentiation of associative paths in advance of what is to be observed with the sense of sight and hearing.

Children make indefinite reactions to strong odors while asleep during the first hours after birth. They are behind many of the lower animals in motor associations leading from this sense. A kitten 3 days old, before its eyes are opened, will raise its back and "spit" at a hand which has been rubbed over the back of a dog.

Internal sensations will give rise to various indefinite reactions. Pleasure and pain are at first manifested in connection with feelings of hunger and thirst. Pleasure is not expressed by a "real smile" until about the forty-fifth day (Darwin).

These reactions are evidently of a very simple character, so simple, indeed, that the most of them may be carried out, in a great part at least, by nervous centers below the brain proper. The sucking reflex, for example, is possible in microcephalous children, in whom the upper brain is almost wholly wanting. With normal children, however, there is in a very few days after birth enough difference in their reactions, as compared with those born without the upper brain, to show that the cortex, the organ of consciousness par excellence, is contributing at least some re-enforcement to the lower centers.

With regard to the higher and more concrete phases of experiences, known to adults as volitions, desires, feeling, knowledge, and which we generally infer to exist in connection with the activity of the higher centers, it is impossible to say just at what point in the life of the child they first make their appearance. Although there may very likely be some protoplasmic mother liquid of an inner state in the automatic reactions and reflexes of children, or even in the germ cell itself, what all are accustomed to regard as really personal is at birth and for some time after conspicuous by its absence. The distinguishing of objects by sight, generally called "noticing," is not reported until the child is over a month old. Even after this, however, there is very little idea of distance derived from the eyes. Preyer's boy at 4 months old often grasped at objects which were twice the length of his arm from him and "when nearly 2 years old tried to hand a piece of paper to a person looking out of a second story window from the garden below." This failure to appreciate distances arises out of the fact that knowledge of this feature of experience arises from the senses of touch and pressure, and not until slight sensations and touch sensations have been sufficiently associated together can we dispense with the evidence of touch. By sight alone we would not be able to tell that anything was distant or near, rough or smooth, transparent or opaque. It is by a series of trials involving his skin and muscles that the child learns that he can walk through air, but not through a wall, or that he cannot pick up the spot of light from the floor. Similar associations are made with hearing and the other senses, and a great part of the child's early months is spent in making physical experiments on himself and his environment. When visual "noticing" begins, it is at first limited to about the distance of his fingers. Beyond this point he is practically blind, while the first real grasping of an object with an appreciation of its distance is not observed until about the end of the fifth month.

About this time he discovers various portions of his body. He notices his toes and may be observed to hunt for them when they have by some reflex and accidental movement on his part disappeared from sight. He discovers a difference in experience when he touches or handles his own body and when he does the same thing with another. He discovers that many things have a reverse side to them and turns them over and over, impressing on his mind the difference of appearance from different angles, while at the same time the object remains the same to his feeling of touch and pressure. He examines carefully the edges and corners of things and studies their weight and thickness. The rustle, and especially the thinness, of paper about this age is a delightful discovery, and when he finds out that paper will tear the new experience, revealing such an unusual effect of his volitions, is repeated time and time again, finding in every possible variety of association between sight, sound, touch and muscular co-ordination. He takes the greatest pleasure in finding himself a cause.

The elaborate experiments which a child of 6 or 7 months goes through are not possible without a considerable degree of memory and associative power. The facility with which associated ideas are acquired is, according to Mr. Darwin, the most strongly marked of all the characteristics separating a child from even the most intelligent of the lower animals. Association by contiguity appears quite early. About the age of 5 or 6 months when a child is dressed for the street and put in his carriage he becomes restless and angry if he is not taken out immediately. Here is a firmly fixed association which has been acquired and remembered from past experience. From a brain standpoint we may figure it as follows, and by this it is not meant that we will have fully explained, but only given one of the necessary conditions of these more concrete elements of experience. At first the dressing, placing in carriage and taking out give rise to movements, touches, sights and sounds which involve the reaction of different brain centers following one after another. Each of these centers has associative fibers leading out in various directions throughout the brain. The three different outward events mean three different groups of brain activities. The first group is discharged at the time the first dressing occurred. At that time the centers involved in this group would radiate out impulses in every direction. The neutral process accompanying the sight of the carriage might even be one of the elements, but would be submerged by all the others. The sight of the carriage is, however, continued, while the other processes, involving, for instance, the sight of his crib,

FAMILY PERISHED.

Seven Cremated In Fire That Destroyed a Building, In Buffalo.

TWO MEN PUT UNDER ARREST.

Owner of Building and His Brother-in-Law Suspected of Setting the Place Afire to Get the Insurance Money.

Buffalo, Jan. 13.—Henry Bearstein, his wife and five children ranging in age from one-and-a-half to twelve years, were burned to death in a fire that destroyed a two-story frame building. Joseph Supowick, who owned the building, and Karl Bracki, his brother-in-law, have been arrested pending an investigation. Supowick carried an insurance of \$9,000 on the building and its contents. The Pearlsteins and another family lived in rooms above the shoe store, and were asleep when the fire started. Supowick told the police that he accidentally dropped a lamp a few minutes after the fire began there was a loud explosion that blew out the front of the store and hurled some of the contents of the windows into the middle of the street. Plate glass windows on the opposite side of Broadway were shattered, and the sound of the explosion was heard two blocks away. The flames enveloped the building in a short time. The family living in the rear flat barely escaped with their lives. The Pearlsteins were awakened, but before they could reach the only stairway leading from their rooms, the fire had undermined the floor in the hallway, and it collapsed, carrying them down into a mass of flames. Their charred bodies were found at 8 o'clock, four hours after the firemen had extinguished the flames. The body of the mother and baby were found together, the little one tightly clasped in its mother's arms. Pearlstein's body was found close to that of his wife. He also held one of the children in his arms. The bodies of the other three children were found huddled together close to the father's body.

have ceased. New processes are stirred up in his new situation, the most of which are immediately dropped. The carriage process, sight, etc., however, still remain and new experiences, such as movement of the carriage, added. There has thus been a more constant repetition of some processes than of others.

It will be seen from this that the problem of nutrition is fundamental to even these complex evidences of intelligence. That the association should be firmly fixed depends not merely on the number of repetitions, but upon the nutritive overcompensation which follows the reaction. Vital conditions may be such that there is no overcompensation. Too early a repetition may produce this result, and we will then be dealing with associative paths which are fatigued and still charged with the waste products of former efforts.

If the associative process is complex and intense, recuperation will be proportionately tardy. It is only the shallower, more insignificant and artificial kinds of associations which are effected by what teachers know as a steady drill.

[Copyright, 1900.]

A HISTORIC ESTATE

THE STORY OF FAMOUS OLD BATTLE ABBEY.

Erected by William the Conqueror to Commemorate His Victory—Its Founding In A. D. 1066 and Its Many Vicissitudes.

"Going—going—gone!" cried the auctioneer at a recent sale in London, and then was sold a piece of property which, from its association with the battle of Hastings, is inseparably bound up with the story of the British nation. It was no less a place than Battle abbey, erected by William the Conqueror in 1066 to commemorate his victory.

Since the time of the first William it has had many owners and has now become the property of Sir Augustus Frederick Webster. The new owner is a descendant of Sir Thomas Webster, who bought the abbey from Viscount Montague in 1719 and whose family retained possession of it for 137 years.

Battle abbey is situated near Battle, Sussex. The town was formerly called Epiton and received its present name from being the spot on which the Saxons, under Harold, were defeated by William, duke of Normandy, in 1066. The Norman duke, marching from Pevensey, a few miles away, where he had landed, found the Saxons entrenched behind a stockade on ground which lies within the inclosure of the Battle estate. So stubborn was the defense that the fate of the day was uncertain until William ordered his archers to shoot upward. An arrow pierced Harold's eye, and he fell, with a few of his earls faithful to the last. After the battle Duke William, known as the Conqueror, founded a magnificent abbey to commemorate his victory. The high altar in the church is said to have stood on the very spot where the body of the Saxon prince was found.

The abbey was entrusted to the Benedictine order and enjoyed for 500 years great celebrity. The church was consecrated on Feb. 11, 1064, during a visit of William Rufus to Hastings, and the occupants of the original abbey came from the Benedictine monastery of Marmoutier-les-Tours, on the banks of the Loire, founded by St. Martin as a refuge of privacy. In the middle of

SOUND AS A DOLLAR

That is the result of a course of treatment with Scott's Emulsion. We have special reference to persons with weak lungs and sensitive throats.

Scott's Emulsion does some things better than others. This is one of them. It has a peculiar action on the throat and lungs which gives them strength and makes them tough.

That's how Scott's Emulsion drives out coughs, colds and bronchitis. It keeps them out, too.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

"GO KNOCK ON THE DOOR IF YOU WANT TO GET IN"

By JOHN D. ROCKEFELLER, Jr.

It often happens that a young man in all earnestness says, "I want to do something for myself, something for my friends, something for my family and something for my God," and fails to do anything. Then he sighs and believes that opportunity has never offered itself to him.

I suppose that it often happens that men are the victims of circumstances, but more often a better explanation for failure can be found. Some say that Hobson did that great deed in the harbor of Santiago because fortune favored him. Others who were there were brave and competent and just as willing as Hobson, yet the opportunity was only for him.

The reason that one man finds an opportunity while another fails is that the first seeks, while the other waits to be called. It is not always so, but at least NINETY-NINE TIMES IN A HUNDRED FORTUNE FAVORS THE PERSISTENT HUNTER AND PASSES BY THE LAGGARD.

Go and knock on the door if you want to get in. Don't sit back and wait for the door to open.

ly living in the rear flat barely escaped with their lives. The Pearlsteins were awakened, but before they could reach the only stairway leading from their rooms, the fire had undermined the floor in the hallway, and it collapsed, carrying them down into a mass of flames. Their charred bodies were found at 8 o'clock, four hours after the firemen

had extinguished the flames. The body of the mother and baby were found together, the little one tightly clasped in its mother's arms. Pearlstein's body was found close to that of his wife. He also held one of the children in his arms. The bodies of the other three children were found huddled together close to the father's body.

"Fricassee Nightmare."

God has given us a capacity to enjoy food. That is not the principal object in eating. One goes to a dinner and after eating all that he really desires and more than is beneficial thinks he will add a little of the compounds they call dessert—the invention of the devil—and becomes uncomfortable and wretched. Most of the desserts we have might be called "fricassee nightmare" or "escapalod indigestion." Eating becomes idolatry if it becomes unfitting for higher service. It is a crime to gorge and be uncomfortable or to induce a headache. I once attended a dinner at the invitation of a parishioner and was asked to accompany a lady to the table. I did not need to eat, but I offered to help her to whatever she desired, and she asked for chicken salad, remarking, "It always gives me a wretched headache, but I am going to have some," and I replied, "Then you may help yourself, for I will not."—Address by Dr. Pierson.

The little folks love Dr. Wood's Norway Pine Syrup. Pleasant to take; perfectly harmless; positive cure for coughs, colds, bronchitis, asthma.

East Liverpool, Ohio,

The Most Eminent Specialist in America are in our city and will remain until

Wednesday Noon, January 22, Ten Days Only,

and will receive patients while here at the parlors of the Thompson House.

Dr. Snell and Staff

—OF THE—

New York and Ohio Electro-Medical Institute are visiting a few of the principal cities of our country. This being their visiting trip, and to introduce their new system of curing disease, they will give consultation, examination, advice and all medicine necessary to complete a cure FREE. All patients taking advantage of this offer will be expected to state to their friends the results obtained.

Don't fail to call on these renowned specialists. All diseases of men and women treated. No matter what your disease may be or of how long standing, there is no experimenting or guesswork; you will be told whether you can be cured or not.

They have an entirely new and original method of treating all kinds of deafness which has restored the hearing to hundreds after they had been pronounced incurable. Catarrh in all its varied forms cured so it will never return, by breaking up the cold-catching tendency.

If you have weak lungs or consumption, and have been told you are beyond help, don't fail to call on them and have a thorough examination, as a visit will cost you nothing and may save your life.

Their new discovery of absorbing medicine by electricity, in paralysis, loss of power, rheumatism and all diseases of the nervous system is a godsend to suffering humanity. Medical men stand appalled at the marvelous cures that are being effected wherever this system has been introduced. Thousands who have given up all hope of ever being cured have now an opportunity of a lifetime to consult, without charge, Specialists of a national reputation. Remember, their knowledge of medicine, combined with electricity, gives them control of disease that others do not possess. If you are hard of hearing, are lame, or cannot walk, this new system will cure you quickly.

If you suspect kidney trouble, bring a two-ounce vial of your urine for a chemical and microscopic analysis.

If you are improving under your family physician do not come and take up our valuable time. Idlers and curiosity-seekers will please stay away.

Cancers, Tumors, Ulcers, all blood, skin and scap diseases cured by an entirely new method. Piles and Varicose cured in from 5 to 30 days without the knife.

Remember, not one penny will be charged for all the medicine required to complete a CURE, to all those taking treatment during this trip.

Office hours, 9 a. m. to 7:30 p. m.

E. Benjamin Andrews, LL.D., Editor.

LATE AND IMPORTANT PHASES OF CHILD STUDY.

BY COLIN A. SCOTT, PH. D.,
Professor of Psychology and Child Study
in the Wisconsin Normal School.

III.—First Thoughts of Children.

SINCE the publication of Darwin's "Biographical Sketch of an Infant" a great many facts have been collected indicating the way in which children react to their environment during the first months of their existence. These observations all show that sensorimotor brain centers, the first in structural development, also come first into function and at the start with a very small amount of definite association. In this latter point the human child differs markedly from the young of the lower animals. In the case of a newly born chicken, for example, we find a large number of the reactions of which he is capable already formed and needing only the slightest touch on the part of the environment to set them off. During the first day of his life the chicken, after picking his way through his shell, stands and walks and when he sees food among grains of sand seizes it with about as much precision as he ever does in later life. He is to a large extent mature and capable of supporting himself.

With the human infant there are indeed some reflexes already in existence, but with the exception of that for sucking these are of a very generalized type. There has been observed on the first day of life, even with infants prematurely born, a turning of the head toward the light. This indicates a performed associative path between the optic centers and the motor centers which move the head. It is, however, of a very indefinite character and goes no further than the pleasurable differentiation between light and darkness. The infant is still practically blind, and the distinguishing of objects is quite impossible to him.

There is a similar condition with respect to hearing, some observers reporting that even to loud noises the child makes no response whatever during the first few days.

Touch has been regarded by many as the first sense to manifest itself. Kussmaul, Perez and Preyer all believe that individual tactile sensations show themselves during intrauterine life. Even with prematurely born children touch elicits some response at the very first. The tongue, lips, nostrils and eyelashes are especially sensitive. The difference in sensibility is, however, less in infants than in adults, and reaction time is slower, indicating a lack of definite association.

Taste is developed as early as touch. Kussmaul found that on the first day of life solutions of sugar and quinine, introduced by a hair pencil and warmed so that the feeling of temperature would not affect the result, called forth "the same mimetic movements which we designate among grown people as the facial expressions of sweet and bitter." They respond to the sugar by protruding the lips in a spoutlike form, pressing the tongue between them, sucking and swallowing. On the contrary, when the quinine was introduced the visage was distorted, the eyes closed, the tongue protruded, and choking movements were made, accompanied by the expulsion of the fluid and active secretion of saliva. In many cases, however, the introduction of an attenuated solution of quinine was responded to by sucking movements, showing that taste sensibility is weaker at this age than the adult (Tracey). These movements cannot be called voluntary in the adult sense, but were as uncontrollable reflexes. They indicate a differentiation of associative paths in advance of what is to be observed with the sense of sight and hearing.

Children make indefinite reactions to strong odors while asleep during the first hours after birth. They are behind many of the lower animals in motor associations leading from this sense. A kitten 3 days old, before its eyes are opened, will raise its back and "spit" at a hand which has been rubbed over the back of a dog.

Internal sensations will give rise to various indefinite reactions. Pleasure and pain are at first manifested in connection with feelings of hunger and thirst. Pleasure is not expressed by a "real smile" until about the forty-fifth day (Darwin). These reactions are evidently of a very simple character, so simple, indeed, that the most of them may be carried out, in a great part at least, by nervous centers below the brain proper. The sucking reflex, for example, is possible in microcephalous children, in whom the upper brain is almost wholly wanting. With normal children, however, there is in a very few days after birth enough difference in their reactions, as compared with those born without the upper brain, to show that the cortex, the organ of consciousness par excellence, is contributing at least some re-enforcement to the lower centers.

With regard to the higher and more concrete phases of experiences, known to adults as volitions, desires, feeling, knowledge, and which we generally infer to exist in connection with the activity of the higher centers, it is impossible to say just at what point in the life of the child they first make their appearance. Although there may very likely be some protoplasmic mother liquid of an inner state in the automatic reactions and reflexes of children, or even in the germ cell itself, what all are accustomed to regard as really personal is at birth and for some time after conspicuous by its absence. The distinguishing of objects by sight, generally called "noticing," is not reported until the child is over a month old. Even after this, however, there is very little idea of distance derived from the eyes. Preyer's boy at 4 months old often grasped at objects which were twice the length of his arm from him and "when nearly 2 years old tried to hand a piece of paper to a person looking out of a second story window from the garden below." This failure to appreciate distances arises out of the fact that knowledge of this feature of experience arises from the senses of touch and pressure, and not until sight sensations and touch sensations have been sufficiently associated together can we dispense with the evidence of touch. By sight alone we would not be able to tell that anything was distant or near, rough or smooth, transparent or opaque. It is by a series of trials involving his skin and muscles that the child learns that he can walk through air, but not through a wall, or that he cannot pick up the spot of light from the floor. Similar associations are made with hearing and the other senses, and a great part of the child's early months is spent in making physical experiments on himself and his environment. When visual "noticing" begins, it is at first limited to about the distance of his fingers. Beyond this point he is practically blind, while the first real grasping of an object with an appreciation of its distance is not observed until about the end of the fifth month.

About this time he discovers various portions of his body. He notices his toes and may be observed to hunt for them when they have by some reflex and accidental movement on his part disappeared from sight. He discovers a difference in experience when he touches or handles his own body and when he does the same thing with another. He discovers that many things have a reverse side to them and turns them over and over, impressing on his mind the difference of appearance from different angles, while at the same time the object remains the same to his feeling of touch and pressure. He examines carefully the edges and corners of things and studies their weight and thickness. The rustle, and especially the thinness, of paper about this age is a delightful discovery, and when he finds out that paper will tear the new experience, revealing such an unusual effect of his volitions, is repeated time and time again, bringing in every possible variety of association between sight, sound, touch and muscular co-ordination. He takes the greatest pleasure in finding himself a cause.

The elaborate experiments which a child of 6 or 7 months goes through are not possible without a considerable degree of memory and associative power. The facility with which associated ideas are acquired is, according to Mr. Darwin, the most strongly marked of all the characteristics separating a child from even the most intelligent of the lower animals. Association by contiguity appears quite early. About the age of 5 or 6 months when a child is dressed for the street and put in his carriage he becomes restless and angry if he is not taken out immediately. Here is a firmly fixed association which has been acquired and remembered from past experience. From a brain standpoint we may figure it as follows, and by this it is not meant that we will have fully explained, but only given one of the necessary conditions of these more concrete elements of experience. At first the dressing, placing in carriage and taking out give rise to movements, touches, sights and sounds which involve the reaction of different brain centers following one after another. Each of these centers has associative fibers leading out in various directions throughout the brain. The three different outward events mean three different groups of brain activities. The first group is discharged at the time the first dressing occurred. At that time the centers involved in this group would radiate out impulses in every direction. The neutral process accompanying the sight of the carriage might even be one of the elements, but would be submerged by all the others. The sight of the carriage is, however, continued, while the other processes, involving, for instance, the sight of his crib,

FAMILY PERISHED.

Seven Cremated In Fire That Destroyed a Building, In Buffalo.

TWO MEN PUT UNDER ARREST.

Owner of Building and His Brother-in-Law Suspected of Setting the Place Afire to Get the Insurance Money.

Buffalo, Jan. 13.—Henry Bearstein, his wife and five children ranging in age from one-and-a-half to twelve years, were burned to death in a fire that destroyed a two-story frame building, Joseph Supowski, who owned the building, and Karl Bracki, his brother-in-law, have been arrested pending an investigation. Supowski carried an insurance of \$9,000 on the building and its contents.

The Pearlsteins and another family lived in rooms above the shoe store, and were asleep when the fire started. Supowski told the police that he accidentally dropped a lamp a few minutes after the fire began there was a loud explosion that blew out the front of the store and hurled some of the contents of the windows into the middle of the street. Plate glass windows on the opposite side of Broadway were shattered, and the sound of the explosion was heard two blocks away. The flames enveloped the building in a short time. The family living in the rear flat barely escaped with their lives. The Pearlsteins were awakened, but before they could reach the only stairway leading from their rooms, the fire had undermined the floor in the hallway, and it collapsed, carrying them down into a mass of flames. Their charred bodies were found at 8 o'clock, four hours after the firemen had extinguished the flames. The body of the mother and baby were found together, the little one tightly clasped in its mother's arms. Pearlstein's body was found close to that of his wife. He also held one of the children in his arms. The bodies of the other three children were found huddled together close to the father's body.

have ceased. New processes are stirred up in his new situation, the most of which are immediately dropped. The carriage process, sight, etc., however, still remain and new experiences, such as movement of the carriage, added. There has thus been a more constant repetition of some processes than of others.

It will be seen from this that the problem of nutrition is fundamental to even these complex evidences of intelligence. That the association should be firmly fixed depends not merely on the number of repetitions, but upon the nutritive overcompensation which follows the reaction. Vital conditions may be such that there is no overcompensation. Too early a repetition may produce this result, and we will then be dealing with associative paths which are fatigued and still charged with the waste products of former efforts.

If the associative process is complex and intense, recuperation will be proportionately tardy. It is only the shallower, more insignificant and artificial kinds of associations which are effected by what teachers know as a steady drill.

A HISTORIC ESTATE

THE STORY OF FAMOUS OLD BATTLE ABBEY.

Erected by William the Conqueror to Commemorate His Victory—Its Founding In A. D. 1066 and Its Many Vicissitudes.

"Going—going—gone!" cried the auctioneer at a recent sale in London, and then was sold a piece of property which, from its association with the battle of Hastings, is inseparably bound up with the story of the British nation. It was no less a place than Battle abbey, erected by William the Conqueror in 1066 to commemorate his victory.

Since the time of the first William it has had many owners and has now become the property of Sir Augustus Frederick Webster. The new owner is a descendant of Sir Thomas Webster, who bought the abbey from Viscount Montague in 1719 and whose family retained possession of it for 137 years.

Battle abbey is situated near Battle, Sussex. The town was formerly called Epiton and received its present name from being the spot on which the Saxons, under Harold, were defeated by William, duke of Normandy, in 1066. The Norman duke, marching from Pevensey, a few miles away, where he had landed, found the Saxons entrenched behind a stockade on ground which lies within the inclosure of the Battle estate. So stubborn was the defense that the fate of the day was uncertain until William ordered his archers to shoot upward. An arrow pierced Harold's eye, and he fell, with a few of his earls faithful to the last. After the battle Duke William, known as the Conqueror, founded a magnificent abbey to commemorate his victory. The high altar in the church is said to have stood on the very spot where the body of the Saxon prince was found.

The abbey was intrusted to the Benedictine order and enjoyed for 500 years great celebrity. The church was consecrated on Feb. 11, 1094, during a visit of William Rufus to Hastings, and the occupants of the original abbey came from the Benedictine monastery of Marmoutier-lez-Tours, on the banks of the Loire, founded by St. Martin as a refuge of privacy. In the middle of

SOUND AS A DOLLAR

That is the result of a course of treatment with Scott's Emulsion. We have special reference to persons with weak lungs and sensitive throats.

Scott's Emulsion does some things better than others. This is one of them. It has a peculiar action on the throat and lungs which gives them strength and makes them tough.

That's how Scott's Emulsion drives out coughs, colds and bronchitis. It keeps them out, too.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

"GO KNOCK ON THE DOOR IF YOU WANT TO GET IN"

By JOHN D. ROCKEFELLER, Jr.

It often happens that a young man in all earnestness says, "I want to do something for myself, something for my friends, something for my family and something for my God," and fails to do anything. Then he sighs and believes that opportunity has never offered itself to him.

I suppose that it often happens that men are the victims of circumstances, but more often a better explanation for failure can be found. Some say that Hobson did that great deed in the harbor of Santiago because fortune favored him. Others who were there were brave and competent and just as willing as Hobson, yet the opportunity was only for him.

The reason that one man finds an opportunity while another fails is that the first seeks, while the other waits to be called. It is not always so, but at least NINETY-NINE TIMES IN A HUNDRED FORTUNE FAVORS THE PERSISTENT HUNTER AND PASSES BY THE LAGGARD.

Go and knock on the door if you want to get in. Don't sit back and wait for the door to open.

ly living in the rear flat barely escaped with their lives. The Pearlsteins were awakened, but before they could reach the only stairway leading from their rooms, the fire had undermined the floor in the hallway, and it collapsed, carrying them down into a mass of flames. Their charred bodies were found at 8 o'clock, four hours after the firemen had extinguished the flames. The body of the mother and baby were found together, the little one tightly clasped in its mother's arms. Pearlstein's body was found close to that of his wife. He also held one of the children in his arms. The bodies of the other three children were found huddled together close to the father's body.

"Fricassee Nightmare." God has given us a capacity to enjoy food. That is not the principal object in eating. One goes to a dinner and after eating all that he really desires and more than is beneficial thinks he will add a little of the compounds they call dessert—the invention of the devil—and becomes uncomfortable and wretched. Most of the desserts we have might be called "fricassee nightmare" or "escaloped indigestion." Eating becomes idolatry if it becomes unfitting for higher service. It is a crime to gorge and be uncomfortable or to induce a headache. I once attended a dinner at the invitation of a parishioner and was asked to accompany a lady to the table. I did not need to eat, but I offered to help her to whatever she desired, and she asked for chicken salad, remarking, "It always gives me a wretched headache, but I am going to have some," and I replied, "Then you may help yourself, for I will not."—Address by Dr. Pierson.

The little folks love Dr. Wood's Norway Pine Syrup. Pleasant to take; perfectly harmless; positive cure for coughs, colds, bronchitis, asthma.

WELCOME TO HENRY.

Probably Will Be Invited to Become A Guest of the Nation.

TO BE LAVISHLY ENTERTAINED

Officers Will Be Detailed to Accompany Him and Salute Fired on Arrival—New York People Probably Entertain Him Handsomely.

Washington, Jan. 13.—The announcement that Prince Henry of Prussia, brother of Emperor William, will be met at New York by representatives of President Roosevelt. An officer will be detailed from the army and one from the navy to arrange for the convenience of the Prince, and to accompany him. He is an admiral in the German navy, and when he arrives at New York, will be greeted by a salute of 21 guns, which is the same as a Presidential salute. He may make an address at the launching of the imperial yacht, which is to be christened by Miss Roosevelt, and it is not improbable that President Roosevelt may attend the launching and respond to the Prince's address.

On his arrival in Washington Prince Henry will be received by the President, and will be invited to become the guest of the nation. Whether he

REAR ADMIRAL PRINCE HENRY.

will care to accept this invitation or to stay at the German embassy is not known. His call upon the President will be returned in person by Mr. Roosevelt, who will invite him to a dinner, where there will also be the most prominent men of the country. Everything will be done to make Prince Henry's visit a pleasant and memorable one.

New York, Jan. 13.—During this week the plans will be considered for the reception of Admiral Prince Henry of Prussia, brother of Kaiser Wilhelm, who will land here next month to witness the launching of the Kaiser's new yacht. The prospect now is that from the arrival of the Prince in New York waters will date a series of public receptions, fetes and kindly greetings of international character.

PRINCE HENRY IS TO COME.

Will Represent Emperor at Launching of His Yacht—Telegrams Between Him and President.

Berlin, Jan. 13.—Emperor Wilhelm's yacht Hohenzollern will go to

THERE ARE MANY ROADS.

The Finger Posts Marking the Many By-Paths of Present Day Troubles All Seem to Point the Same Way—Lack of Nerve Force.

Day by day the columns of this paper bring new evidence from East Liverpool people of the great work being done by Dr. A. W. Chase's Nerve Pills. Why they accomplish so much is easily explained. They are prepared with an eye single to restoring nerve force. They accomplish this object which no other medicine in the world has ever been able to do. That's why hundreds of East Liverpool people offer their testimony.

Mr. Cyrus Hauselman, of No. 279 Sugar street, East Liverpool, Ohio, says: "Dr. A. W. Chase's Nerve Pills are a fine medicine. It has done for me more to cure my old rheumatism than anything I ever took. The rheumatism had hung on for five or six years, and was all in the legs and shoulders. I could not sleep and at times could not move with the pain. I was told of the Nerve Pills, and got them at Larkin's drug store, corner Sixth and East Market streets, and they took hold finely—something nothing else ever did. The pain and stiffness is about gone. I am feeling strong, and get about and sleep well. It won't take many more to cure me completely."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers, or Dr. A. W. Chase Medicine company, Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

CHARLESTON EXPOSITION

Two forms of excursion tickets, season and fifteen days, may be obtained at special rates. For information about fares and trains consult ADAM HILL, Ticket Agent, East Liverpool, Ohio.

FIND THE CUSTOMS OFFICER.

New York to participate in the launching of His Majesty's new yacht, Prince Henry of Prussia will also be present at the ceremony, as representative of Emperor William.

In connection with the proposed trip of the Hohenzollern to New York, Emperor William telegraphed as follows, in English, to President Roosevelt:

Message from the Emperor.

"I am most gratified by your kind permission for Miss Roosevelt's performing the christening ceremony of my yacht. It gives me great pleasure to announce to you that I have ordered my yacht Hohenzollern to cross over and be present at the ceremony. My brother, Admiral Prince Henry of Prussia, will appear as my representative, and will be able to express to you once more my sincere feelings and friendship for the United States and their illustrious head."

WILLIAM, R. L.
The Reply of Roosevelt.
President Roosevelt replied as follows, in German:
"Your Majesty's intention to send over your yacht Hohenzollern to attend the christening by my daughter of your new yacht is the source of great pleasure and satisfaction to me. I can assure you a hearty welcome for your brother, Admiral Prince Henry, to whom I shall personally express my sincere feelings of esteem for your Majesty, as well as my best wishes for the welfare of the German people."

THEODORE ROOSEVELT.

Prince Henry will sail early in February on one of the North German Lloyd steamers. He will be attended by several officers of high rank, whose names have not yet been announced.

The date of the launching of the Emperor's yacht, it is understood, has been fixed for February 26.

The length of Prince Henry's stay in the United States is undetermined and will depend in part upon the wishes of President Roosevelt and the programme for his entertainment.

FLED BEFORE THE AMERICANS.

Wells' and Wint's Columns Captured Enough Rations to Keep 20,000 Insurgents Six Months.

Manila, Jan. 13.—The news received from Batangas province is cheerful. The expedition to Lobos, in Batangas has been a complete success. The columns, under Colonels Wint and Wells, have destroyed a large number of barracks and hamlets and enough rations to keep 20,000 Filipinos for six months. There was not a single American casualty during the entire expedition. The enemy fled before the Americans, many of them being killed, and several surrendered.

Major Henry Allen, formerly Governor of the Island of Leyte, and now chief of the insular constabulary, who has been making a tour of inspection through the Islands of Leyte and Mindanao, has returned to Manila, and reports that the native constabulary is fully able to control the situation in the province of Misamis, in Northern Mindanao, where he thinks the situation has been much exaggerated.

Previous reports concerning this province caused Generals Davis and Wade to request that it be returned from civil to military control.

With the exception of the church the entire town of Quingua, in Bulacan province, Luzon, has been burned to the ground, and thousands of Filipinos have been rendered homeless.

Commissioner Bernard Moses, head of the Department of Public Instruction for the islands, has delivered an address to the teachers of Manila in which he particularly urged the continued instruction of Filipino children in English. He said the members of the wealthy Philippine classes were making a great mistake in sending their children to Spanish schools, as the consequent neglect in English instruction would injure their position and standing in the islands which would inevitably and indissolubly become a portion of the American nation.

These bonds to be accepted as payment for the claims held by the creditors and thus enable the syndicate to go on with the operation of the company and keep it under its control. If the plan goes through it will furnish ready money to finish uncompleted plants, principally at Detroit and Dayton. The bankers' committee has had one bona fide offer for the sale of the entire Federal system, the offer coming, it is said, from the Bell Telephone company. It is said that the committee will not consider this offer. Tentative offers have been made by Judge Thomas, of New York, representing C. W. Morse, also of New York. An offer from John R. McLean, of Cincinnati, has also been received. It is probable that a fourth bidder will be in the field within a few days. None of these deals can go through until the plans of the bankers' committee become operative. In addition it is positively stated that there is now no chance for the sale of the properties at an upset price.

Members of the committee feel more confident than ever that these securities will be kept up to their full value. It is also emphatically stated that the situation in regard to the traction companies in which the syndicate has a controlling interest is very favorable, and that none of the traction companies will be sold. Four or five companies in which the syndicate is interested but do not hold the controlling interest, may be sold.

OFFICER TRIED TO SUICIDE.

Captain Horne Grabbed Knife, From Man, But Was Wounded Himself.
San Francisco, Jan. 13.—Captain W. J. Horne, of the Ninth Cavalry, U. S. A., tried to suicide in an O'Farrell street fruit store, owned by A. Dalporto. The proprietor was dressing a chicken when the Captain walked hastily up to him and asked whether the knife he was using was sharp. "It is," said Dalporto, and in an instant Horne grabbed it and slashed himself across the throat. Dalporto grappled with the Captain, and a desperate struggle followed, in which Dalporto received a slight gash on the right side of the neck. The shouting and the scuffle brought a crowd and with the aid of several men Horne was overpowered and taken to a hospital. He probably will recover from his wounds.

FOR PRESERVATION OF PEACE.

Central American Presidents, or Representatives, to Meet.

Managua, Nicaragua, (via Galveston, Texas), Jan. 13.—President Zelaya, the ministers of his cabinet and several other Nicaraguan officials, have left here for the port of Corinto, on the Pacific, where they will meet and confer with the Presidents of the other States or their representatives of Central America, who will assemble there upon the invitation of President Zelaya.

General Terencio Sierra, President of Honduras, and General Tomas Regalado, of Salvador, are already on their way to Corinto. The Presidents of the other republics or their representatives, are reported intending to go to Corinto later. The object of these meetings is declared to be the preservation of peace. They will occur January 15 and 17.

DEAD FROM WRECK.

Another Victim Died and Another Very Low.

New York, Jan. 13.—The death list caused by the New York Central tunnel accident was yesterday swelled to seventeen.

Winfield Slutz, who had submitted to the amputation of one of his legs, died at Flower hospital. He lived at New Rochelle.

Richard Molineaux, another New Rochelle man, who is at the same hospital, is reported to be in a precarious condition.

The other patients are progressing favorably.

Payne to Assume Duties.

Washington, Jan. 13.—Hon. Henry C. Payne, of Milwaukee, who is to succeed Postmaster-General Emory Smith in the cabinet, reached here last night, from Wisconsin. He was accompanied by Mrs. Payne and his niece, Miss Louise Jones. Mr. Payne will assume his duties the early part of the week.

Scratch, scratch, scratch; unable to attend to business during the day or sleep during the night. Itching piles—horrible plague. Doan's Ointment cures. Never fails. At any drug store, 50 cents.

Moffat's Life Pills

The Great Stomach and Liver Medicine.

Established by one of our most Eminent Physicians of New York City and now used in the United States and all foreign countries with more pleasing results than any other medicine ever compounded.

There is hardly a family among civilized nations who have not personal evidence of their beneficial effects. Their great success is owing to their uniform reliability in cases of Constipation, Bilious and Stomachic diseases, whether of long or short duration. They are entirely vegetable in their composition, and harmless to the gentlest infant. One ingredient opens the pores of the skin; another is diuretic, and stimulates proper action of the kidneys; a third is emollient, loosening phlegm and humor from the lungs; other properties are warming and cathartic, and cleanse the stomach and bowels from unhealthy secretions. Their combined effect is, to regulate the impaired functions of the system, and to produce health.

If you feel sick, bad taste in the mouth, coated tongue, dizziness, bilious or sick headache, your stomach and liver are out of order, correct these at once by using Moffat's Life Pills.

They are a positive cure for Malaria, Biliousness, Torpid Liver, Indigestion, Dyspepsia, Costiveness, Colds, La Grippe, Aching Limbs, Rheumatism, Impure Blood, Chills and Fever and all other diseases arising from a disordered condition of the stomach and liver.

These pills act on the stomach, bowels, liver and kidneys, purify and regulate the whole system, and are guaranteed to cure and give satisfaction or money refunded.

Ask your Druggist for Moffat's Life Pills and take no other. If he has not got them or will not get them for you, they will be sent by mail on receipt of 25 Cents a Box or 5 boxes for \$1.00. Sold by all first-class Druggists. Plain or sugar coated.

WELCOME TO HENRY.

Probably Will Be Invited to
Become A Guest of the
Nation.

TO BE LAVISHLY ENTERTAINED

Officers Will Be Detailed to Accompany Him and Salute Fired on Arrival—New York People Probably Entertain Him Handsomely.

Washington, Jan. 13.—The announcement that Prince Henry of Prussia, brother of Emperor William, will be met at New York by representatives of President Roosevelt, and that he will be accompanied by an officer and one from the navy to arrange for the convenience of the Prince, and to accompany him. He is an admiral in the German navy, and when he arrives at New York, he will be greeted by a salute of 21 guns, which is the same as a Presidential salute. He may make an address at the launching of the imperial yacht, which is to be christened by Miss Roosevelt, and it is not improbable that President Roosevelt may attend the launching and respond to the Prince's address.

On his arrival in Washington Prince Henry will be received by the President and will be invited to become the guest of the nation. Whether he

FIND THE CUSTOMS OFFICER.

New York to participate in the launching of his Majesty's new yacht. Prince Henry of Prussia will also be present at the ceremony, as representative of Emperor William.

In connection with the proposed trip of the Hohenzollern to New York, Emperor William telegraphed as follows, in English, to President Roosevelt:

Message from the Emperor.

"I am most gratified by your kind permission for Miss Roosevelt's performing the christening ceremony of my yacht. It gives me great pleasure to announce to you that I have ordered my yacht Hohenzollern to cross over and be present at the ceremony. My brother, Admiral Prince Henry of Prussia, will appear as my representative, and will be able to express to you once more my sincere feelings and friendship for the United States and their illustrious head."

WILLIAM, R. I.

The Reply of Roosevelt.

President Roosevelt replied as follows, in German:

"Your Majesty's intention to send over your yacht Hohenzollern to attend the christening by my daughter of your new yacht is the source of great pleasure and satisfaction to me. I can assure you a hearty welcome for your brother, Admiral Prince Henry, to whom I shall personally express my sincere feelings of esteem for your Majesty, as well as my best wishes for the welfare of the German people."

"THEODORE ROOSEVELT." Prince Henry will sail early in February on one of the North German Lloyd steamers. He will be attended by several officers of high rank, whose names have not yet been announced. The date of the launching of the Emperor's yacht, it is understood, has been fixed for February 26.

The length of Prince Henry's stay in the United States is undetermined and will depend in part upon the wishes of President Roosevelt and the programme for his entertainment.

FLED BEFORE THE AMERICANS.

Wells' and Wint's Columns Captured Enough Rations to Keep 20,000 Insurgents Six Months.

Manila, Jan. 13.—The news received from Batangas province is cheerful. The expedition to Lobo, in Batangas has been a complete success. The columns, under Colonels Wint and Wells, have destroyed a large number of barracks and hamlets and enough rations to keep 20,000 Filipinos for six months. There was not a single American casualty during the entire expedition. The enemy fled before the Americans, many of them being killed, and several surrendered.

Major Henry Allen, formerly Governor of the island of Leyte, and now chief of the insular constabulary, who has been making a tour of inspection through the islands of Leyte and Mindanao, has returned to Manila, and reports that the native constabulary is fully able to control the situation in the province of Misamis, in Northern Mindanao, where he thinks the situation has been much exaggerated.

Previous reports concerning this province caused Generals Davis and Wade to request that it be returned from civil to military control.

With the exception of the church the entire town of Quingua, in Bulacan province, Luzon, has been burned to the ground, and thousands of Filipinos have been rendered homeless. Commissioner Bernard Moses, head of the Department of Public Instruction for the islands, has delivered an address to the teachers of Manila in which he particularly urged the continued instruction of Filipino children in English. He said the members of the wealthy Philippine classes were making a great mistake in sending their children to Spanish schools, as the consequent neglect in English instruction would injure their position and standing in the islands which would inevitably and indisputably become a portion of the American nation.

BELL COMPANY WANTED IT.

Made Offer for Federal Telephone Company—Tentative Offer From McLean and Others.

Cleveland, O., Jan. 13.—A large majority in amount of the creditors of the Federal Telephone company, owned and controlled by the Everett-Moore syndicate, were in session all day here today. A large part of the conference was taken up in discussing various proposals for the purchase of the entire properties.

Creditors favor the depositing of all the stocks and bonds of the constituent companies owned by the Federal Telephone company in some big trust company, to be used as collateral security for a new issue of bonds,

these bonds to be accepted as payment for the claims held by the creditors and thus enable the syndicate to go on with the operation of the company and keep it under its control. If the plan goes through it will furnish ready money to finish uncompleted plants, principally at Detroit and Dayton. The bankers' committee has had one bona fide offer for the sale of the entire Federal system, the offer coming, it is said, from the Bell Telephone company. It is said that the committee will not consider this offer. Tentative offers have been made by Judge Thomas, of New York, representing C. W. Morse, also of New York. An offer from John R. McLean, of Cincinnati, has also been received. It is probable that a fourth bidder will be in the field within a few days. None of these deals can go through until the plans of the bankers' committee become operative. In addition it is positively stated that there is now no chance for the sale of the properties at an upset price.

Members of the committee feel more confident than ever that these securities will be kept up to their full value. It is also emphatically stated that the situation in regard to the traction companies in which the syndicate has a controlling interest is very favorable, and that none of the traction companies will be sold. Four or five companies in which the syndicate is interested but do not hold the controlling interest, may be sold.

OFFICER TRIED TO SUICIDE.

Captain Horne Grabbed Knife From Man, But Was Wounded Himself.

San Francisco, Jan. 13.—Captain W. J. Horne, of the Ninth Cavalry, U. S. A., tried to suicide in an O'Farrell street fruit store, owned by A. Dalporto. The proprietor was dressing a chicken when the Captain walked hastily up to him and asked whether the knife he was using was sharp. "It is," said Dalporto, and in an instant Horne grabbed it and slashed himself across the throat. Dalporto grappled with the Captain, and a desperate struggle followed, in which Dalporto received a slight gash on the right side of the neck. The shouting and the scuffle brought a crowd and with the aid of several men Horne was overpowered and taken to a hospital. He probably will recover from his wounds.

FOR PRESERVATION OF PEACE.

Central American Presidents, or Representatives, to Meet.

Managua, Nicaragua, (via Galveston, Texas), Jan. 13.—President Zelaya, the ministers of his cabinet and several other Nicaraguan officials, have left here for the port of Corinto, on the Pacific, where they will meet and confer with the Presidents of the other States or their representatives of Central America, who will assemble there upon the invitation of President Zelaya.

General Terencio Sierra, President of Honduras, and General Tomas Regalado, of Salvador, are already on their way to Corinto. The Presidents of the other republics or their representatives, are reported intending to go to Corinto later. The object of these meetings is declared to be the preservation of peace. They will occur January 15 and 17.

DEAD FROM WRECK.

Another Victim Died and Another Very Low.

New York, Jan. 13.—The death list caused by the New York Central tunnel accident was yesterday swelled to seventeen.

Winfield Stutze, who had submitted to the amputation of one of his legs, died at Flower hospital. He lived at New Rochelle.

Richard Molineaux, another New Rochelle man, who is at the same hospital, is reported to be in a precarious condition.

The other patients are progressing favorably.

Payne to Assume Duties.

Washington, Jan. 13.—Hon. Henry C. Payne, of Milwaukee, who is to succeed Postmaster-General Emory Smith in the cabinet, reached here last night, from Wisconsin. He was accompanied by Mrs. Payne and his niece, Miss Louise Jones. Mr. Payne will assume his duties the early part of the week.

THERE ARE MANY ROADS

The Finger Posts Marking the Many By-Paths of Present Day Troubles All Seem to Point the Same Way—Lack of Nerve Force.

Day by day the columns of this paper bring new evidence from East Liverpool people of the great work being done by Dr. A. W. Chase's Nerve Pills. Why they accomplish so much is easily explained. They are prepared with an eye single to restoring nerve force. They accomplish this object which no other medicine in the world has ever been able to do. That's why hundreds of East Liverpool people offer their testimony.

Mr. Cyrus Hauselman, of No. 279 Sugar street, East Liverpool, Ohio, says: "Dr. A. W. Chase's Nerve Pills are a fine medicine. It has done for me more to cure my old rheumatism than anything I ever took. The rheumatism had hung on for five or six years, and was all in the legs and shoulders. I could not sleep and at times could not move with the pain. I was told of the Nerve Pills, and got them at Larkin's drug store, corner Sixth and East Market streets, and they took hold finely—something nothing else ever did. The pain and stiffness is about gone. I am feeling strong, and get about and sleep well. It won't take many more to cure me completely."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers, or Dr. A. W. Chase Medicine company, Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

CHARLESTON EXPOSITION

Excursion Tickets Now on Sale via Penna Lines.

Low fares to Charleston, South Carolina, for the Interstate and West Indian Exposition are offered by Pennsylvania Lines. Two forms of excursion tickets, season and fifteen day, may be obtained at special rates. For information about fares and trains consult ADAM HILL, Ticket Agent, East Liverpool, Ohio.

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

Annual Sale of Pews—At the St. Aloysius' church yesterday occurred the annual sale of pews.

Mrs. Swindell's Funeral—The funeral of Mrs. Mary A. Swindell was held today from St. Stephen's Episcopal church at 1:30 o'clock. The interment was in Riverview cemetery.

King's Daughters' Social—The monthly social of the King's Daughters, of the M. P. church, will be held next Thursday afternoon at the home of Miss Hall, May street.

Will Attend the Funeral—Mr. and Mrs. John Rowe, Mrs. B. A. Rigby and James Logan, Jr., left today for East Palestine, where they will attend the funeral tomorrow of Basil Rowe, whose death occurred there Saturday.

Deaconess Had Charge—The funeral of the little child of Thomas Hancock occurred yesterday from the home in the rear of Chestnut street at 2 o'clock. The deaconess of the M. E. church had charge of the services.

Praise Service Tonight—The Young Women's Missionary society of the First Presbyterian church will hold a praise service in the basement room of the church at 7:30 this evening. Mrs. Alice Halleck-Braddock, a former missionary in India, will be present and address the meeting. At the close of the service a social will be held.

Pheasants From Oregon—A. V. Andrews, formerly of this city, writes from La Grande, Ore., where he is now located, saying East Liverpool sportsmen would do well to get some Chinese pheasants from Oregon and introduce them here. He says the birds are very cheap out there. With a start of a few birds it would not be long until good shooting, as he believes the pheasants would do well here.

WILL BUILD GREATER

McKinley Avenue Union Chapel Officers Decide to Enlarge the Church.

George Hall addressed the congregation at the McKinley avenue union chapel last night. The officers of this church have determined to enlarge the structure, as it is impossible to comfortably accommodate the large crowds who attend there.

The attendance has increased more than one-third since the first of the year. Work on the improvement will be commenced as soon as the weather will permit.

FOR TOWNSHIP CLERK

Willis Davidson An Aspirant for the Position—Fulfills All Requirements.

Willis Davidson, known to every man, woman and child in the city as one of the most popular and efficient police officers who ever served on the force, is announced today for the position of township clerk.

Mr. Davidson has been a staunch Republican all his life, and is thoroughly competent to look after the duties of the position. He possesses a good education, his position as shipping clerk and assistant bookkeeper of the old Specialty Glass company giving him extraordinary qualifications for the position he seeks. Mr. Davidson is a man of good moral character and worthy in every way of the support and confidence of the Republicans of East Liverpool.

For the purpose of acquainting contractors with the plans and specifications for certain alterations contemplated by the East Liverpool Turn society to their building on Walnut street, the committee appointed for the purpose will meet contractors at the hall on Tuesday, January 14, at 2:30 p. m.

The committee reserves the right to reject any and all bids.

JOHN HUFFMAN,
F. OSCHMANN,
DAVID BERNHARD.

Card of Thanks.

We wish to express our heartfelt thanks to our many kind friends and neighbors; also to his Sunday school teacher, Rev. Mr. Crawford, and members of the M. E. church, who so kindly assisted us in our late sad bereavement.

CHARLES A. WHITE

Of Salineville, a Strong Candidate for the Office of Recorder.

Salineville has a strong candidate for the Republican nomination for county recorder Charles A. White, one of the foremost citizens of that town, has entered the race for the office and will make a vigorous canvass.

Mr. White is 35 years of age and has long been prominent in the educational, political and religious circles of Salineville. He is an ardent Republican and possesses the friendship and good will of all those who have known him longest and most intimately.

Mr. White was born on a farm and educated in the public schools and at the Mechanicstown normal school. He learned the carpenter's trade and followed it until overtaken by a series of peculiar misfortunes that made him a cripple and turned him aside from his trade to the profession of school teaching, in which he has been eminently successful. First he lost his left hand while working in a planing mill. A few years later, in the same mill, he was caught in a belt and whirled about the shafting. This time he lost his right arm. Since recovering from the accident, he has taught school in Salineville. He served four years as village treasurer and is now serving his second term as village clerk. For two years he was a member of the Washington township central committee. He is a member of the First Presbyterian church, the Protected Home Circle and the Knights of the Golden Eagle.

It is remarkable what Mr. White has accomplished since the misfortune that deprived him of his right arm and left hand. He writes a legible and plain business-like hand.

REVIVAL SERVICES

Of Great Interest at the M. P. Church. Some Excellent Singing.

The revival services at the M. P. church yesterday, both morning and evening, were most interesting. Large congregations were present during the day.

At the morning service two persons united with the church, while seven persons were baptized.

In connection with these services and others that will be held at this church during the week, will be the singing, which be in charge of Prof. Reese, of Scranton, Pa. The gentleman arrived here yesterday morning and had charge of the singing of the morning service yesterday.

Prof. Reese is a Welshman of the high class, with all the emotional melody and profound religious depths of that gifted nation of people. His splendid singing took strong hold upon his hearers and he made a very favorable impression.

There will be services every night this week, beginning with a song service under the direction of Prof. Reese promptly at 7:45. All meetings are to be held upstairs.

Hand made harness at the Buckeye Harness Shop; nice stock ready for your inspection. East Market street.

7-a

The Bitter Bit.

"See that party with the jag sitting in the corner of the car?" said a conductor who was riding to the car barns in a Zoo and Eden park car to the conductor in charge of the car.

"Yep. He's got a heavy bundle," was the answer.

"Well, take this counterfeit half dollar with you when you collect his fare. A passenger passed it on me a month ago. If he gives you a dollar, you can shove it on him."

The conductor of the car took the lead half dollar, entered the car, and the man with the jag held out a silver dollar and received the counterfeit half and 45 cents in change.

"Worked like a charm," said the conductor as he reached the platform. "Here he comes now. He wants to get off."

The drunken man wobbled to the door and unsteadily descended from the car.

"Now we'll split up," remarked the conductor of the car as he drew the dollar from his pocket. And as both of the conductors gazed at the silver dollar they gasped in unison: "We're up ag'in it! It's a counterfeit dollar."—Cincinnati Enquirer.

Baleena Eating Elephant.

Stark naked savages, with long, greased plaits of hair hanging down to their shoulders, were perched on every available inch of the carcass, hacking away with knives and spears, yelling, cursing and munching, covered with blood and entrails; old men, young men, prehistoric hags, babies, one and all gorged or gorging, smearing themselves with blood, laughing and fighting. Pools of blood, strips of hide, vast bones, blocks of meat, individuals who had died not wisely but too well lay round in bewildering confusion, and in two short hours all was finished. Nothing remained but the great gaunt ribs, like the skeleton of a ship's wreck, and a few disconsolate vultures perched thereon.—E. S. Grogan Before the Royal Geographical Society.

It pays to advertise in the Evening News Review.

Y. M. C. A. NOTES

This evening 50 of the Y. M. C. A. members will sit down to an oyster supper and plan to increase the membership to 500, and incidentally to have a good deal of sport doing it. There is some fun ahead for the members if present plans are carried out. The membership is now 391.

Secretary Wright is making up lantern slides and has ordered the necessary apparatus to give a stereopticon entertainment shortly. He would like some of the local amateurs who have interesting negatives showing good contrast to allow him to make slides from them, preferring to make up interesting slides than to purchase or rent.

The repapering and redecorating of the lecture room is well under way and will be finished in good time for the Saturday concert and auxiliary reception.

Reserved seats for the Fadettes' orchestra concert on Saturday evening can be obtained at the Y. M. C. A. office after Wednesday at 9 a. m. There is every prospect of a full house.

TILLET MAY COME

Noted English Labor Leader Expresses a Desire to Speak Here.

Secretary T. J. Duffy this morning received a letter from Hon. Ben Tillett, the English labor leader, in which the gentleman states he has three open dates, Jan. 14, 15 and 16. Mr. Tillett is now in Philadelphia, but expects to go to Harrisburg tonight. He expressed a desire to speak in this city provided arrangements could be made with some of the trades' organizations here.

Secretary Duffy concluded it would be impossible for the Brotherhood to take up the matter, but President McLane of Trades Council, was conferred with, and at once set about making a canvass of the trustees of that body. It was thought if these officials gave their consent, arrangements could be made to have Mr. Tillett address a meeting in this city Thursday evening.

PARTNERSHIP DISSOLVED

The Well Known Firm of Jacob Stein & Co. Dissolved Today.

The partnership heretofore existing between Jacob Stein and Robert and Edward Miller, who have for the past several years successfully conducted large dry goods houses on Sixth street, this city, and Main street, Wellsville, was dissolved today.

Mr. Stein will hereafter conduct the business here, while Robert Miller will be proprietor of the Wellsville store.

Seriously Hurt.

Heber Davidson, of Broadway, while playing with his little nephew, was accidentally struck in the left eye, causing a very painful injury.

Evening News Review.

19TH YEAR. NO. 10.

EAST LIVERPOOL, O., MONDAY, JANUARY 13, 1902.

TWO CENTS.

ANOTHER BREAK IS FOUND IN NEW CITY RESERVOIR

Looks As If the Structure Would
Never Be Filled With the
Aqueous Fluid.

WITHOUT ANY WATER IN IT

A Long Fissure Has Developed in
the Southeast Corner of
the Basin.

IT RUNS FROM TOP TO BOTTOM

And Is in the Corner Opposite That on
Which Repairs Have Been in Prog-
ress—Engineers Seem to Think the
Damage Is Irreparable.

If indications can be depended on
and if the opinions of supposedly com-
petent engineers are in any capacity
reliable, there is every reason to be-
lieve that the new reservoir recently
erected for the use of the East Liv-
erpool water works system, which
has been undergoing repairs for some
time, will never be filled with water.

A great seam has made its appear-
ance, which extends from top to bot-
tom of the new basin, at the south-
east corner on the river side. The old
break occurred on the southwest cor-
ner, and it is that portion of the basin
which is being repaired. A large
amount of money has been expended
in the repair work, but it looks very
much as if the city is throwing its
money away.

The crevice was discovered Satur-
day evening by a News Review rep-
orter and on Sunday a number of men
who were walking along the reservoir
hill top discovered the break. Among
them were two engineers. They ex-
pressed their opinions privately, but
said the new basin would surely break
out if an attempt was made to fill it.
This, it is said, is now understood
by members of the water works board.
There seems to be no remedy, but
that a solid wall should be constructed
for the full length of the two bas-
ins along the reservoir hill.

FOUND HIS PARENTS

Youngstown Man After 25 Years
Learns He Has a Father And
Mother in Salem.

Youngstown, January 13.—Freder-
ick Klopfer, a butcher of this city, has
learned that his parents from whom
he had been separated for 25 years,
were Mr. and Mrs. Charles Campbell,
a wealthy couple of Salem, O.

About 29 years ago Charles Camp-
bell, of Salem, took his wife to Pitts-
burg for medical treatment. The doc-
tors advised that the patient be taken
to the hospital and the boy, Charles
Frank, a child then only two years
old, was given into the hands of a
nurse till the mother could recover.
It seems that the boy was lost or went
astray from the nurse and was picked
up by some one and taken to the Troy
Hill Orphans' home, in Allegheny,
where he remained until he was 12
years old. At that age he was adopted
by Mr. and Mrs. Charles Klopfer,
a pious German family, of Allegheny.
Klopfer took the name of his foster
parents and through a misdirected let-
ter learned that his parents were liv-
ing. He has resigned his position
here and will rejoin his parents in
Salem.

WELLSVILLE MILL CASE

It Is Expected To Be Laid Before the
Grand Jury To-
morrow.

A number of the members of the
Wellsville lodge of the Amalgamated
Association went to Lisbon today. It
is expected that they will present to
the grand jury the evidence on which
they expect to secure the indictment
of D. S. Brookman, manager of the
Wellsville mill, for the alleged illegal
discharge of union workmen, the case
of Leonard Schaeffer being made the
test case.

SUIT FOR \$1,050

Claimed As Due on a Building Con-
tract in Wel-
ville.

Lisbon, January 13.—(Special)—
Alexander D. Forbes and James W.
Dennis, as partners, have brought suit

against Edward G. Whitacre for \$1,
050. The petition says that the part-
ners erected a building for the defend-
ant on Third street, Wellsville, com-
pleting it October 1. On the building
\$1,250 has been paid and there is \$1,
050 due.

The petition further alleges that
\$72.93 is due the plaintiffs on account.

RELIEF IS PROMISED STREET CAR PATRONS

THE 12-MINUTE SCHEDULE TO GO
INTO EFFECT AGAIN.

Manager Healy Says the Much-De-
sired Change Will Take Place
January 20.

The 12-minute schedule on the East
Liverpool railway line, which it was
found necessary to change a few weeks
ago, thus causing much dissatisfaction
will again go into effect on January
20—one week hence.

This information comes from the
management of the East Liverpool
line. Improvements which were found
necessary in the machinery at the
power house made the change in the
schedule compulsory.

It was not the intention to make
the change a permanent one, and
though all the contemplated improve-
ments have not been made, Manager
Healy expects to have them so near
completed that the old schedule can
be put into effect at the time above
stated.

GRAND JURY AT WORK

CALLED AND EMpaneled AT LIS-
BON TODAY.

The Instructions of the Judge on a
Variety of Of-
fenses.

Lisbon, January 13.—(Special)—
The grand jury was empaneled today
at 10:30 a. m., with Al Carille, of Sa-
lem, as foreman.

The judge, in his instructions to the
jury, mentioned or defined the crimes
of assault and battery, cutting with in-
tent to kill or wound, rape, non-sup-
port of minor child, seduction under
promise of marriage, and defrauding a
hotel keeper. He also explained to
the jury the meaning of the term
bucket shop.

It cannot, of course, be learned who
are to be before the jury or for what
crimes. But the judge's instructions
help to give an idea of the business
and the indictments to be considered.

The jury is to visit the county jail
and report on its condition.

FIFTEEN WERE RECEIVED

Into the M. E. Church As a Result
of the Revival
Services.

As a result of the meetings at the
M. E. church, conducted by the pas-
tor, Rev. Dr. Crawford, eight persons
were received on probation and seven
by letter. The church was well filled
yesterday, both morning and evening,
manifesting increasing interest. The
sermon in the morning was especially
fine and was considered by many per-
sons one of the best ever delivered by
Dr. Crawford.

FALSE FIRE ALARM

Aroused Lisbon People From Their
Slumbers Before Breakfast
Was Ready.

Lisbon, January 13.—(Special)—
A fire alarm brought Lisbon people
from their beds at 6:30 o'clock this
morning. The alarm was sent in by
an individual who thought he saw
smoke issuing from the pad factory.
An investigation, however, revealed
that the supposed smoke was steam
coming from an engine in the factory.

A Strike at Salem.

Salem, January 13.—Almost 150 em-
ployees of the Buckeye Engine com-
pany, of this city, went out of the
shops Saturday night on a demand for
extra pay for working overtime. Mem-
bers of a committee appointed to wait
upon the company to make the de-
mand were discharged, it is alleged,
whereupon the entire gang quit work.

Appointed Administrator.

Lisbon, January 13.—(Special)—
No will having been found in the es-
tate of Wilson T. F. Garwood, late
of Perry township, letters of adminis-
tration are granted to Mary E. Gar-
wood, his widow.

BIG DECREASE IN CONTAGION

Reports Compiled By Sanitary Of-
ficer J. H. Burgess Are
Interesting.

REMARKABLE DIFFERENCE

Is Shown By the Reports in the Num-
ber of Contagious Cases in the
City Last December And Those of
the Same Month a Year Previous.

Sanitary Officer J. H. Burgess com-
pleted the compiling of a report today
for the month of December of last
year, showing the number of cases
of contagious disease that have come
under his jurisdiction. A table for the
month of December of the year 1900
has also been compiled, and a compar-
ison of the two shows a remarkable
difference.

From December 1, 1900, to January
1, 1901, there were 14 cases of diph-
theria and 8 of scarlet fever, while
during December of last year there
were but 3 cases of diphtheria and
3 of scarlet fever. This decrease, in
view of the fact that the city has
gained largely in population during
the past year, is difficult to under-
stand.

Mr. Burgess, however, claims that
the efforts of the board of health are
responsible in a great measure, be-
cause of the fact that the sanitary
condition of the city has been greatly
improved and that other precautions
taken by the board have not been with-
out effect.

Without admitting that there is yet
room for improvement, Mr. Burgess
believes that East Liverpool leads
many cities of its size in its method
of battling with contagion. The crowd-
ed condition of the city and the scar-
city of pure water, he says, are diffi-
culties that have to be confronted
here that most of the other cities
know nothing of.

"It is almost surprising," says the
sanitary officer, "that we have es-
caped the smallpox, since it is preva-
lent in many of the towns and cities
almost in the immediate community.
However, since nothing of that nature
has shown up as yet, and also that
the lesser cases of contagion have
been so remarkably few, the citizens
of East Liverpool can rightly consider
themselves fortunate."

BLANKETS CAUGHT FIRE

AND TOUCHED OFF 40 QUARTS
OF NITRO GLYCERINE.

Terrific Explosion Near Smith's Fer-
ry—250 Barrel Oil Tank 6
Destroyed.

Forty quarts of nitro glycerine ex-
ploded on the Galey oil property, near
Smith's Ferry, on Saturday morning.
The nitro glycerine was covered with
some wet blankets, which in some
way caught fire.

As soon as the men saw that the
blankets were on fire they fled, and
had gone but a few rods when the ex-
plosion occurred, completely destroy-
ing a 250-barrel tank and badly damag-
ing the engine house.

Licensed to Wed.

Lisbon, January 13.—(Special)—
A marriage license was issued Satur-
day to William W. Urmstead, of Can-
ton, and Julia Hall, of Salem.

FAMILY IN A FIGHT WITH RABID DOGS

Elmer S. Good, his wife and several
small children, who live on Third
street, Chester, had a very exciting
and dangerous experience with five
mad dogs at an early hour this morn-
ing. The family had arisen early
and were seated at the breakfast
table when a beagle hound and her
four pups burst into the room and
made a vicious attack upon them.

It was several minutes before the
family realized that the dogs were
mad. They recognized this when they
saw foam and froth issuing from the
dogs' mouths. The dogs, for a mo-
ment, centered their attack upon Hel-
en, the eldest daughter of Mr. and
Mrs. Good. Her escape from being
bitten was prevented by Mrs. Good,
who seized her child and with her
climbed upon a table for refuge.

At this juncture the entire family
became much alarmed. They were
found upon chairs, battling with the

GOOD PLAN FOR PURER PRIMARIES

Suggested By Judge Smith a Year
Ago to Be Acted Upon
This Week.

STATE LAW EXPENSIVE

And the Proposed System Is Calculated
to Produce the Same Results With
Much Less of an Outlay—Commit-
tee Will Meet Thursday.

If the wishes of a majority of the
Republican committeemen from the
southern end of the county are con-
curred in stricter regulations will be
adopted at the meeting of the com-
mittee this week for the government
of primary elections in the future.

It will be remembered that a great
deal of dissatisfaction was experienced
over the manner in which the last
county primary was conducted.

No one was accused of crookedness,
but it was thought in several locali-
ties the system was very lax. This
was especially true of Wellsville,
where the committeemen in charge of
the election were accused of conduct-
ing affairs in a high-handed manner.
The outcome of the dissatisfaction
was that when the convention was
held at Lisbon for the purpose of rat-
ifying the nominations, Judge P. M.
Smith, of Wellsville, presented a set
of very excellent rules in the form of
a resolution. The rules covered every
detail of the work of conducting a pri-
mary and were very generally sup-
ported by a majority of the candi-
dates and committeemen. It was ar-
gued that it would be a great advan-
tage to have the primaries governed
by the state law, which is a most ex-
cellent system, but upon investigation
it was found if so conducted a vast
amount of expense would be incurred.
For this reason Judge Smith had pre-
pared the regulations in the manner
stated, which requires that all elec-
tion officers be qualified, and provid-
ing penalties for neglect of the duties
of their office. The proposed plan was
calculated to save most of the ex-
pense required by the state law, and
at the same time provide about the
same regulations.

The resolution was taken into the
meeting of the county committee in
the afternoon and after some discus-
sion was placed in the hands of a
committee headed by R. N. Chamber-
lain, of East Palestine. The commit-
tee was to make its report at the
next meeting of the county committee,
which will be held next Friday.

Mr. Chamberlain was communicated
with today with reference to what
his committee proposed to do.

He stated a meeting of the com-
mittee had been called for Thursday
evening of this week at Lisbon, and
that in all probability a report would
be made to the county committee on
Friday. The committee is made up
of R. N. Chamberlain, East Palestine;
Attorney George E. Davidson, East
Liverpool; F. A. Adams and Ed A.
King, Lisbon.

PAID \$2 EXTRA

John Miller Finds That Sunday Drink-
ing Comes High in the
Mayor's Court.

Not forgetting his resolution to fine
those an extra dollar or two who de-
secrate the Sabbath by getting drunk,
Mayor Davidson this morning assessed
John Miller \$3 and costs, where, if he

WENT DOWN TO HIS DEATH CLUTCHING MADLY AT ICE

had waited until today to go against
the flowing bowl, he might have got
off with \$1 and costs. Miller was cap-
tured by Patrolman Woods and taken
to jail in the patrol, where he yet
holds forth. He couldn't stand the
pressure of the \$7.60.

Officer Stafford arrested a hobo Sat-
urday night who was sporting a well
developed "jag" and attempting to
clean out a Second street saloon. The
culprit told the mayor this morning
his name was John Young. "Well,
Young," said his honor, "I'll give you
one minute in which to vanish. If
you are seen here in two minutes from
now I'll send you up for life." Young
took an immediate sneak.

NEW BASEBALL DEAL IS BEING PROJECTED

CANTON - PAINESVILLE TEAM
WILL NOT COME HERE.

Manager Drumm's Proposition Turned
Down—Local Salaried Team
Now Proposed.

The negotiations which have been
pending between the East Liverpool
base ball magnates and the manage-
ment of the Canton-Painesville team,
are off.

The local men could not see fit to
accept Manager Drumm's proposition.

Plans are now being framed where-
by the team that will represent East
Liverpool will be made up in the
main of local players. William Ash-
baugh will be the manager and the
team will be a salaried one. The club
will have all the financial backing
necessary, and Mr. Ashbaugh will be
responsible to the magnates for the
conduct and efficiency of the play-
ers.

CARS IN COLLISION

A BAD SMASH ON THE STREET
RAILWAY LINE.

Cars Dashed Together And One Badly
Wrecked—One Person
Hurt.

A street car collision happened on
the East Liverpool line Saturday
evening on Lyth's switch, near Wells-
ville. The eastbound car was running
on an irregular schedule and Supt.
Thomas Reed said that this was per-
haps the reason for Nos. 15 and 16
coming together.

McDonald was conductor and Wer-
nick motorman of Car No. 15. On car
No. 16 was Motorman Harry Goddard
and G. W. Ferguson was conductor.
The cars came together with a terri-
fic clash. Mrs. William Burford, of
Wellsville, is reported to have been
slightly injured, although Supt. Reed
said, when asked about the accident,
said no one was hurt. Car 15 had its
end badly smashed and was run into
the repair shop.

TWELFTH BIRTHDAY

Pleasantly Observed By Miss Ethel
Wasbutzky—Her Friends
Entertained.

Miss Ethel Wasbutzky, of Sixth
street, entertained a number of her
friends Saturday afternoon in honor
of her twelfth birthday. The time was
pleasantly spent in music and games.
An elaborate luncheon was served.
She received a number of nice pres-
ents, among them being a gold watch
from her mother.

MORE DEPUTIES NAMED

East Liverpool And Wellsville Men
Given Places By Sheriff
Leonard.

Lisbon, January 13.—(Special)—
Sheriff Leonard today appointed and
had approved by Judge Hole the fol-
lowing deputies:

Thomas Stafford, East Liverpool.
Joseph T. Warren, Wellsville.
E. P. Speidel, Hanoverton.
Charles Johnson, Salem.
John Higgins, Sallineville.

GRANTED A DIVORCE

An East Palestine Woman Charged
And Proved Cruelty And
Desertion.

Lisbon, January 13.—(Special)—
Cora Sutherland, of East Palestine, has
been granted a divorce from George
Sutherland and the custody of two mi-
nor children. Desertion and cruelty
were charged.

Frank Feltz, a Laborer, Drowned
In the Ohio River After a
Hard Struggle.

VICTIM OF PECULIAR ACCIDENT

Was In a Skiff With a Companion
and Collided With a Steam-
boat Wheel.

BOTH THROWN INTO STREAM

But Feltz Having Been Injured in the
Collision Was Unable to Save Him-
self—His Body Has Not Yet Been
Recovered.

Clutching desperately at small, frail
pieces of floating ice, which were not
of sufficient strength to give him any
assistance, Frank Feltz, a laboring
man, who lived on a shanty boat on
the beach below the railroad depot,
went down to death in the Ohio river
last night as the result of a most pec-
uliar accident.

The steamer Keystone State on its
upward trip arrived at the wharf-
boat shortly before 10 o'clock and im-
mediately tied up. Owing to a strong
breeze and a rather swift current the
engineer allowed the machinery to re-
main slowly in motion to avoid any
unnecessary strain on the ropes, and
the paddle wheel continued to revolve
all the while the boat remained at the
wharf.

Soon after its arrival Feltz, in com-
pany with James Cunningham, a local
teamster, started out from shore at a
point just below the wharfboat, and
pulling out into the river, proceeded
upward in an effort to pass on the
outside of the steamer.

Just as the skiff was at the outer
edge of the wheel of the steamer a
collision resulted, which almost com-
pletely wrecked the skiff. The occu-
pants were thrown violently into the
water, but by a desperate effort Cun-
ningham seized the rudder of the boat,
where he held fast until rescued by a
roustabout with great difficulty. He
was completely exhausted and narrow-
ly escaped death.

Feltz had no chance to catch hold
of anything, and even if he had it is
thought he could not have done so.
He was nearest the wheel when the
collision occurred and it is claimed
by his companion that he was badly
injured. He made a struggle, however,
before going down, though he was too
much dazed to make an outcry.

Skiffs were immediately procured
and every effort made to find the body,
but without success. The search was
renewed this morning. Men dragged
the river all day at and about the
place where the drowning occurred.
It is the belief of many that the body
is lodged near the wharfboat because
of the eddy there, which would tend
to prevent it from floating down
stream.

Cunningham, in explaining why he
and Feltz came to be out in the river
at so late an hour, with the thermom-
eter near the zero point, says he in-
tended to get on the Keystone State
to buy some rabbits. Mrs. Feltz says
that when her husband started down
to the river he told her he was going
after coal.

Feltz was doing the rowing and it is
thought that he made a miscalculation
of distance when he tried to turn
around the wheel of the steamer.
However, it is the opinion of those
who witnessed the accident that it was
due to extreme foolishness. The
dead man is alone responsible.

Chief Thompson made an investiga-
tion this morning. It was his purpose
to use dynamite in an effort to raise
the body, but on the advice of expe-
rienced rivermen, who claimed the ex-
posure would have no effect while the
ice was in the river, he abandoned the
notion.

Feltz was 33 years old and is sur-
vived by a wife and small child, who
are said to be in destitute circum-
stances. He came here early last Decem-
ber from Williamstown, W. Va., where
his parents reside.

Bond Fixed at \$7,000.

Lisbon, January 13.—(Special)—
In the estate of Christina McGilvary,
late of Madison township, the bond
of Alexander McBane is reduced to
\$7,000.

AWFUL DEATH MET BY AN AGED WOMAN

Mrs. Mary Flinn the Victim of a
Most Shocking Accident
at Steubenville.

HER CLOTHING TOOK FIRE

While She Was Standing Before a
Grate and She Was Literally Roast-
ed Alive—Husband Terribly Burn-
ed While Trying to Aid Her.

Steubenville, Jan. 13.—Mrs. Mary Flinn, aged 73, wife of Patrick Flinn, died at the Gill hospital in this city Saturday afternoon from the effects of terrible burns received an hour before. Her body was roasted from head to foot, and death came as a merciful relief after an hour's untold agony. Her husband is lying in a critical condition at his home as a result of his heroic attempt to save the life of his wife.

It was while Mrs. Flinn was in the act of making coffee at a grate for her husband, who is an invalid, that her clothes caught fire. Her apron was first to ignite, and noticing the flames she screamed to her husband for help. He attempted to remove her apron, but while doing so, her skirts became ignited and in an instant her body was enveloped in flames.

The imperiled woman continued to scream for help, and failing to get an immediate response, she attempted to run into the street, but while going out the door, tripped and fell headlong down a small flight of steps. Her head struck the brick pavement and cut a long gash over her right eye.

A moment after she fell neighbors reached the scene and made an effort to extinguish the flames. It was practically useless, however, as the fire had consumed all of her clothing, and nothing remained around her body except small charred strips.

Doctors were hastily summoned while the aged sufferer was being carried into the house. An examination revealed that her eyes, hair and ears were burned, her face was black and her chest, back, legs and feet literally cooked, as were also her hands, from which the flesh fell when touched. It was evident, too, that she inhaled the flames, as her lips were burned so severely that they became hard. The sight of her eyes was completely destroyed.

The burns were temporarily dressed and the patient then removed to the hospital, where she remained until her death. She was conscious to the last, though she suffered intense agony. In the meantime friends and relatives of the aged husband were at his home caring for him.

His right hand, with which he endeavored to loosen the apron string from his wife's burning body, was terribly burned. He had stepped on burning garments in his efforts, and when the neighbors arrived one of his socks was burning fiercely. The flames were extinguished, and the sock removed, but not before his foot was burned black.

It is feared that the aged victim's injuries, together with the shock occasioned by his wife's awful death, will also result fatally.

An Attack of Pneumonia Warded Off.
"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James Prendergast, merchant, Annato Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warded off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. For sale by Alvin H. Bulger, Druggist.

S. J. Firestone, executor, to Margaret Kretsmar, lot 343 in Harbaugh's addition to Lisbon, \$600.

Adam M. Walker et al., to Stanton J. Walker, 7 acres Elkrum, \$400.

Warren M. Evans et al., to Richard Hunter, lot 95 in J. M. Evans' second addition to Salem, \$217.50.

Aressie M. Evans to Rudolph Rafer, 121 acres in Perry township, \$1.00.

Tressie M. Evans to L. O. Zimmerman, lot 226 in J. M. Evans fifth addition to Salem, \$1.00.

Annie and John M. Meredith to John M. Sweeney lot 57 Milner's addition to Salineville, \$250.

S. R. Dixon to L. P. Dixon to Arthur E. Tetlow, lot 3539 Dixsonville, East Liverpool, \$100.

SMALLPOX SPREADING

Six New Cases Have Developed at
Mingo—Vaccination Now
Compulsory.

Mingo Junction, Jan. 13.—Six new cases of smallpox developed here Saturday, making 12 in all. Strict quarantine is being maintained and vaccination is compulsory.

A number of cases have been taken out of the mill here, and there is talk of having the mills of the National Steel company and Steel Hoop company closed for a time.

Page's Climax Salve is truly the woman's friend, as no woman can have broken breasts or sore nipples while she uses this salve. Try it.

For County Commissioner.
As I announced my full intentions last spring of being a candidate for the office of County Commissioner, notwithstanding other reports, I wish to say to my friends and the public in general, that I have never dropped out of the contest and ask for your earnest support in my canvass.

EAST END

EPWORTH LEAGUE OFFICERS

Chosen at a Meeting Held on Saturday
Evening in Erie Street
Church.

The Junior Epworth League met Saturday evening in the Erie street M. E. church and elected officers. The superintendents chosen were: Mesdames G. W. Orcutt, Sarah Dawson, Gertie Messenger. The president chosen was Miss Sadie Manley; vice president, Miss Lisette Smith; second vice president, Miss Mabel Flick; third vice president, Miss Beulah Wallover; fourth vice president, Miss Leland Smith; secretary, Clinton Flick; treasurer, Miss Ada Miles.

The Juniors will give an "at home" January 23, 24 and 25 at the residence of Mrs. Sarah Dawson on St. George street.

YOUNGSTOWN POTTERY

Ed Fisher Looking After Interests of
T. F. Burton, Who
Is Ill.

Ed Fisher left this morning for Youngstown. He went in the place of Thomas F. Burton to look after Mr. Burton's interests in the forming of the new pottery at Youngstown. Mr. Burton has taken a deep interest in the Youngstown pottery deal and is unfortunate in being critically ill when an important deal is on.

Mr. Fisher is financially interested and will represent Mr. Burton in a meeting that will be held tonight in Youngstown.

SEVEN CONVERTS

As the Result of Last Evening's Ser-
vices at the Second Presby-
terian Church.

Services at the Second Presbyterian church were interesting last evening from the fact that when Rev. N. W. Crowe got through preaching seven persons announced their intention of leading a better life and wished their names affixed to the roll of Rev. Mr. Crowe's church.

Fell Down Stairs.

A little son of Captain W. J. Terrence, of the East End fire department, fell down stairs last evening and sustained some severe injuries. His left cheek was badly bruised and a physician was summoned, but the boy was found not to have been seriously hurt.

Repairing Kilns at Pipe Works.

George Culbertson, of Helena, has been given the contract for the repairing of all the kilns of the East End sewer pipe works. Culbertson has several men at work on the contract, but as each kiln is to be repaired it will be some time before the work is finished.

Six New Houses.

A contract has been let for the building of six new houses by A. G. Chaffins on Harker avenue.

EAST END AFFAIRS.

The Ladies' Aid society of the Erie street church will meet Thursday afternoon with Mrs. Frank Knowles at her home in the Calhoun addition.

Robert Burchett, of Louisville, arrived in the East End this morning. He will move his family and expects to engage in the mercantile business.

A lot of cinders are being used to repair the sidewalks in the Klondike. Teams have been busy for the past week hauling material to that section of the city and Klondikers are happy that they are being noticed.

Claims Will Present New Evidence.

Frankfort, Ky., Jan. 13.—At the second trial of James Howard on the charge of killing William Gobel two years ago, the commonwealth will conclude early this week, and the defense claims it will present evidence that was not available at the former trial.

When doctors fail try Burdock Blood Bitters. Cures dyspepsia, constipation; invigorates the whole system.

DISSOLUTION SALE

SCHLEY WAS SNUBBED

Signals Were Not Answered From New York, When She Came Up.

LOWERED DIGNITY BY PLEADING.

With the Commander of the Fleet That We Might Have the Surrender of the Colon, So Correspondent Graham Asserts in His Book.

Chicago, Jan. 13.—A book entitled "Schley and Santiago" is in press in this city, and will be issued within ten days. The author is George E. Graham, a war correspondent, who had materials, as he was on board the Brooklyn during the fight with the Spanish fleet, and was thus in a position to tell the story of Santiago without fear or favor. The book is said to have the unqualified endorsement of Rear Admiral Schley, who read and corrected the proof sheets. When President Roosevelt was governor of New York he was present when Mr. Graham gave an account of the battle to State officials and members of the Legislature, and said:

Commended by Roosevelt.

"I am sure you feel as pleased at having listened to Mr. Graham as I do, for I have listened to the best account I have ever heard or read of the naval fighting during this war."

The book is the first and only complete story of the work of the flying squadron, commanded by Schley. Mr. Graham was assisted by his camera, which enabled him to add many interesting illustrations, and the account he gives of the movements of the fleet and the battle is evidently sincere. It is free of virulent and personal attacks; the aim is to give a truthful statement of every occurrence. In connection with the arrival of the New York, Mr. Graham says:

"The commodore reached over to me, took my glasses, and looked searchingly to the east, saying slowly as he did so: 'There is the Texas, and there is the Vixen, but I don't see the New York,' and then, as he kept the glasses up, in an instant he evidently had found her, for he remarked: 'Yes, there she is; I can tell her by her smoke.' This was at 1:45 o'clock, and the Colon had gone ashore at 1:15, while Captain Cook had received the surrender at 1:43. At 2 o'clock, just as the New York got where we considered her in signal distance, Commodore Schley ordered the signal raised: 'A glorious victory has been achieved; details later.' This signal replaced the one which had been flying for nearly three-quarters of an hour. 'The enemy has surrendered,' and, which the New York had not answered. Vainly the signal officers on the bridge watched the New York, for even the courtesy of an answering signal pennant showing that she understood our signal. None was displayed, and then it apparently dawned upon Commodore Schley's mind that Sampson's flag captain on the New York was intent on ignoring him. Picking up the megaphone, Commodore Schley did the one thing that day for which I have always criticized him—lowered his dignity sufficiently to plead with the commander of a fleet that he might have the surrender of the ship where escape had been frustrated by the Brooklyn and Oregon, thus making complete the day's victory."

Made a Request to Sampson.

"I request the honor of the surrender of the Cristobal Colon," he said, in a clear, distinct voice; and from the commander-in-chief's flagship came wafted back the insolent answer from a cadet, "What?"

"I request the honor of the surrender of the Cristobal Colon," again called the commodore, and this time his voice trembled slightly. We watched the bridge of the New York closely, waited intently for an answer, but none came. And that message, as had all the others preceding it since the destruction of the Spanish fleet, which had been addressed by Schley to the New York, remained unanswered.

"Somebody raised a broom at our masthead on one of the pennant hal-yards, and the crew of the Oregon followed suit, and then gave three cheers for Commodore Schley. On the Texas the men all lined up on the forward deck, and at the request of somebody aboard—I presume of Philip himself—gave three cheers for Commodore Schley. The little Vixen circled around three or four times, her

Municipal Government Cannot Be Divorced From Partisan Politics

By EDWARD M. SHEPARD,
Late Candidate For Mayor of Greater New York

It has been said that the problems of municipal government are business problems simply. This is not correct. EVERY MUNICIPAL PROBLEM IS A POLITICAL PROBLEM IN THE PROPER, THOUGH NOT NECESSARILY IN THE PARTISAN, SENSE OF THE TERM. Ours is a democratic country. Every municipal problem is a political one that must be determined in the light of popular elections. Since that is the fact, every detail of municipal administration depends either directly or indirectly upon the opinions of the voters in the community.

I THINK IF WE RECOGNIZE THAT MUNICIPAL GOVERNMENT IS A POLITICAL AFFAIR WE WILL HAVE MADE SOME HEADWAY IN DEALING WITH THIS PROBLEM.

The populace must in some way be harnessed to the chariot of political progress. Without that you may make headway for a year or two with this experiment or that, but you will find yourself defeated—the end.

crew yelling themselves hoarse for the Brooklyn, for Schley and for the victory. But from the New York there came never a sound of joyfulness and never a cheer."

CATHOLIC CLUBS' FEDERATION.

Work For Current Year Likely to Be Outlined at Executive Committee Meeting.

Cincinnati, Jan. 13.—Secretary Anthony Matre states that the constitution adopted by the American Federation of Catholic societies in this city last month will not be printed in time for distribution at the meeting of the National Executive Board in Columbus, January 26. The proceedings of the last National convention will be printed, in connection with the new constitution, and also such information as may be ordered after the meeting in Columbus, January 26. It is expected that the work for the current year will be definitely outlined at Columbus, and will be followed by State organizations wherever feasible. Secretary Matre says the new constitution and proceedings of the National convention and executive board will be printed later and forwarded to all societies enrolled at that time.

THE CHASTLY TUNNEL PROBLEM

Depew and Other Central People Will Try to Solve It—Danger in Third Rail.

New York, Jan. 13.—Senator Chauncey M. Depew will not go to Washington to-day as planned, but will stay over until to-morrow to have a conference with President Newman, William K. Vanderbilt, H. McKay

ENGINEER WISKAR.

Twombly and other managers and directors of the New York Central railroad, regarding the accident in the tunnel last week, especially to discuss the electrical and other improvements for that underground passage.

If electricity is to solve the tunnel problem, the Senator seems inclined to pin his faith to a powerful motor. "We all thought," said the Senator, last night, "that with the use of electricity the chances of accidents would be reduced to a minimum. But we all have read of the recent accident in the Liverpool tunnel. Then there was something wrong with the third rail; in an instant the train was on fire and 26 people were killed. That shows what may happen with a third rail."

"I am going to the Central offices to-morrow feeling that if I could solve this tunnel question, had ability as an engineer, or in other ways, I would give up everything else, even the United States Senate, and devote myself to it. And I may add that is the spirit of the Central's managers and directors in taking hold of this question now."

TRADE SITUATION IN GERMANY.

The Berlin Bourse Had Another Strong Week Despite Pessimistic Speeches.

Berlin, Jan. 13.—Notwithstanding the unfavorable view of the condition of business given by Emperor William's speech from the throne, read by Count von Buelow, at the opening of the Prussian diet January 8, and the pessimistic survey of the finances of the Empire by Baron von Thielmann, secretary of the imperial treasury, the Bourse had another strong week. The upward movement is assuming greater dimensions and affecting more industries such as cement, machinery, electrical and tex-

tile concerns. "On some days last week an uncommon activity was developed, but it is remarked that the buying was solely speculative and confined to the professional element which is inclined to realize at the first opportunity. The investing public still holds aloof, particularly from industrials. The keenest observers point out that the present bull movement has already gone much too far, and a reaction is predicted. The Frankfurter Zeitung and the Vossische Zeitung both express this view.

Money remains very easy. Call money was offered abundantly at 2 per cent and some was placed at less. The reviews emphasize the fact that money is now easier at Berlin than at any other place in Europe. The ease of money has caused all foreign exchange to rise, the exchange on Paris reaching the gold point. The export of gold to Paris is regarded as probable. The reviews, however, expect an early reduction in the Reichsbank rate of discount.

The market for most of the government funds was firm. Nevertheless government 3 per cent lost a fraction as a result of the speech from the throne and the statement of Baron von Thielmann, which they have not wholly recovered.

Bank stocks were bought considerably during the past week for speculative purposes, and the shares of provincial banks also improved. Shares of the ocean steamship companies were very quiet, as were American securities with the exception of Canadians, which were more active upon New York advices.

The reports of the iron industry continue to be mainly favorable. A number of price advances were announced last week. The rolling mills of Western Germany advanced the price of iron five marks to 105 marks, the Silesian works did the same thing, and the Bar Iron association announced a similar increase. The latter resolved to take orders only for short terms, thus reversing their previous policy. The Silesian district reports an active demand for sheet iron.

THE ENGINEER WAS KILLED.

Collision on a Southern Railroad—Five Injured, Among Them Mme. Nordica.

Rome, Ga., Jan. 13.—As a result of a collision between a passenger train and a mixed freight on the Southern railway near Reeves station, twenty miles north of Rome, Mme. Nordica, the singer, was injured; her accompanist, E. omaine Simmons, sustained a bruised hand, an engineer was killed, and three other employees of the road were injured.

The Dead.

Frank Tracey, engineer, Atlanta.

The Injured.

Mme. Nordica.
E. omaine Simmons.
Guy Connolly, passenger conductor.
Ed Lewis, fireman (colored).
Dr. Garlington, the Southern railway surgeon here, was summoned. He stated last night that Mme. Nordica was not badly hurt, and he thought she would be able to fill her engagement to-night.

Mr. Simmons, her accompanist, sustained injuries to his right hand. The exact condition of the injured member was not ascertained here, but it is understood he will be able to play to-night.

Mme. Nordica's car was not derailed, and together with two other Pullmans, was returned to Rome, and sent over the Nashville, Chattanooga and St. Louis to Nashville, where they were expected to arrive early this morning.

ALBAN SEIZED A SHIP.

Deposited the Value with a Banker—Intends to Attack.

Colon, Colombia, (via Galveston, Texas), Jan. 13.—The South American Steamship company, having refused to charter its steamer Lantaro to the Colombian government to be used by the latter as a gunboat, General Alban, the military commander of this district, issued a decree appropriating the vessel. He has taken possession of it and has deposited a sum of money equal to its value with Senor Ehrman, a banker of Panama. The captain and crew of the Lantaro will remain in the service of the Colombian government. Cannon are now being mounted upon her and she will probably sail from Panama to-morrow to attack the fleet of the Colombian liberals.

The United States cruiser Philadelphia which left Panama January 9 for Las Labeles, has not yet returned.

Smallpox Suspect Escapes.

Steubenville, Jan. 13.—Tom Breen, a smallpox suspect in quarantine at the McDevitt hotel at Mingo, was picked up near the court house here Saturday, by Officer Edgerly and placed in the lockup. Breen had been in the city since he escaped from the hotel, and was loafing about the saloons drinking. He was taken to Mingo by several guards who came up after him and again locked up in the hotel building.

Takes the burn out; heals the wound; cures the pain. Dr. Thomas' Electric Oil, the household remedy.

Wintering in Colorado And Utah.

The climate of Colorado and Utah has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument—the conclusion is self-evident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow blockades during the last ten winters than it has upon the majority of railroads in other localities which are popularly supposed to be more free from such delays than the mountain systems. For free illustrated booklet write S. K. Hooper, R. P. & T. A., Denver, Col.

ALLIED PRINTING
TRADES UNION COUNCIL
EAST LIVERPOOL, O.
MONDAY, JANUARY 13, 1902.

Governor Nash's effort to have Jan-
 uary 29, McKinley's birthday, observ-
 ed throughout the country as a day
 for contributions to the McKinley
 monument fund is meeting with gen-
 eral favor. The governor, as chairman
 of the Ohio auxiliary of the McKinley
 National Memorial association, has
 invited every governor of a state or
 territory to issue an appeal to the
 citizens to observe the day in the
 manner indicated. Several governors
 have already issued proclamations on
 the subject and all others heard from
 promise to do so. January 29 ought
 to swell the Canton monument fund
 to such dimensions that no further ap-
 peals for contributions will be neces-
 sary.

A leading German statistician has
 compiled statistics which indicate
 that married people live longer than
 single. For instance, there are 64.4
 married people to every 58.63 single
 people who live to be past 30 years
 of age. Between the ages of 40 and
 50 the death rate of married people
 is 14.2 per thousand, and of single peo-
 ple, 26.5. As years advance, the pro-
 portion grows greater. The figures
 carry with them their own moral.

The Kaiser's brother will soon be a
 visitor to this country. He is said to
 be a well-behaved and well educated
 young man and therefore deserving
 of a cordial welcome. But the fact
 that he is a prince need not influence
 Americans to overdo the reception
 business until the honored guest, as
 well as other sensible people, becomes
 disgusted.

The first McKinley monument to be
 completed and unveiled is not in Ohio,
 but in the little college town of Dur-
 ham, N. C. President McKinley was
 the friend of the south, as he was of
 the whole country. Affection and es-
 teem for him were bounded by no
 sectional lines.

The extension of the Panhandle rail-
 road from Chester toward Pittsburg is
 apparently about to be undertaken in
 a short time. It means increased
 prosperity, not alone to Chester, but
 to all territory along the route, and
 cannot be completed too soon to suit
 the people.

Senator Patterson has prepared a
 bill which provides for the infliction
 of the penalty of life imprisonment
 upon any person who shall assault the
 president or vice president of the
 United States while they are within
 the borders of the state of Ohio.

Despite an increase of 50 per cent
 in the cost of material and a rise in
 the price of labor, the leading cities
 of the country report that the year
 1901 was the most remarkable in the
 history of the United States for the
 extent of its building operations.

Government ownership for the pro-
 posed Pacific canal is both common
 sense and business. The government
 will be the greatest customer of the
 cable line to Manila, and it should not
 license a monopoly and then pay tri-
 bute to it.

Tammany Hall's new boss loudly
 proclaims that he intends to be the
 "whole thing." But there is a well-
 grounded suspicion that he wears a
 brass collar, with string attached, and
 that the collar is stamped "R. Cro-
 ker."

It is said a large number of the
 Democratic members of the legislature

will unite with the Republicans in
 enacting the legislation recommended
 by Governor Nash for reform in taxa-
 tion. This is as it should be. The
 question is one that concerns the
 whole people, and it would be folly to
 make it a party matter.

Some Democrats are talking about
 Schley for president and others about
 Miles. How they could lay aside their
 professed fear of "militarism" long
 enough to nominate either is one of
 the things that passes comprehension.

Governor Nash will be inaugurated
 today with imposing ceremonies. Ohio
 is proud of her executive and has full
 confidence in his wisdom and states-
 manship.

Boston has formed a club for the
 advancement of aerial navigation.
 Those Bostonians were always eager
 to get up in the world.

The Kimberley mines in Africa last
 year produced \$22,000,000 worth of
 diamonds. It was not a good year for
 diamond mining, either.

Germany is now forming a steel
 trust. Of course the Democrats will
 hold the American protective tariff
 system responsible.

The principal trouble of the De-
 mocracy, both in congress and in the
 Ohio legislature, is lack of leaders and
 issues.

Columbus is to get a Carnegie li-
 brary. It is one of the needs of the
 capital city.

These are days when the gas meter
 is putting in its best licks for its em-
 ployers.

OBITUARY

Basil Rowe.

Basil Rowe, a former resident of
 East Liverpool, and one of the best
 known men in this community, died at
 his home in East Palestine Saturday
 night, after an illness of several
 months from heart trouble. He was in
 his 70th year.

Mr. Rowe came to this city many
 years ago and was among the older
 residents who witnessed the develop-
 ment of the then small village. He
 remained here until a few years ago
 when he went to East Palestine,
 where he has since resided and where
 he was held in high esteem.

He is survived by a wife, who is the
 daughter of Philander Gaston, of near
 Clarkston, and the following daugh-
 ters: Mrs. J. N. Logan, of East Liv-
 erpool; Mrs. John McBryor, of Corao-
 polis, Pa.; Mrs. Norman Ward, of Al-
 liance, and Mrs. William Owens and
 Mrs. Harry Lyons, of East Palestine.
 Two sons, Walter and Charles, both
 of East Palestine, are also living.

The funeral will take place at East
 Palestine tomorrow afternoon at 1
 o'clock from the M. E. church. A short
 service will be held previously at the
 residence. Interment in the East Pal-
 estine cemetery.

Mrs. Hannah Orr.

Mrs. Hannah Orr died at the home
 of her son-in-law, Mark Brownlow,
 156 Mary street, at 3:30 this morning,
 aged 74 years. She died from the ef-
 fects of jaundice, from which she had
 suffered for the past four months.
 Mrs. Orr had been a resident of this
 city for 14 years, and is survived by
 a large family of children. They are:
 Mrs. Alice Moore, of New Rumley, O.;
 Mrs. Ella Beatty, Kilgore; Mrs. Belle
 Brownlow, Mrs. Blanche McNutt,
 Frank Orr, of this city, and James
 Orr, of Salineville. She also leaves
 two brothers, Henry A. Clark, of Ade-
 na, and J. W. Clark, of Davenport,
 Neb., and two sisters, Mrs. Sarah E.
 Hines, Uhrichsville, and Mrs. Mary J.
 Shields, of Adena.

Funeral services will be conducted
 from the late residence at 2:30 Thurs-
 day afternoon, Dr. Clark Crawford, of
 whose church Mrs. Orr had been a
 life-long member, officiating. Inter-
 ment will be made in Riverview cem-
 etery.

Death of an Infant.

The infant daughter of Mr. and Mrs.
 W. A. Calhoun died last night at 9
 o'clock, stomach trouble being the
 cause. The funeral will be held at
 the Calhoun home tomorrow afternoon
 at 2 o'clock and will be conducted by
 Rev. D. A. Herrick, of Alliance. Inter-
 ment in Spring Grove cemetery.

William Wines.

The demise of William Wines, aged
 22, occurred Saturday evening at his
 home on Waterloo street. He had been
 ill for several months with consump-
 tion. Funeral services will be held
 tomorrow afternoon at 2 o'clock from
 the M. P. church. The interment will
 be in Riverview.

Helen Calhoun.

The three-months-old daughter, Hel-
 en Calhoun, of Mr. and Mrs. William
 A. Calhoun, died last evening at their
 home, 171 Seventh street. The funeral
 services will be conducted from the
 residence at 2 o'clock tomorrow after-
 noon.

POTTERY NEWS

William Devon, of the D. E. Mc-
 Nicol pottery, on Saturday received a
 large photograph from his brother,
 Harry Devon, at Burslem, England,
 which shows a gathering of many
 members of the "Pleasant Afternoon
 Society," a band of men of that town
 who are engaged in missionary work.
 In the picture is shown Mayor Lovett,
 of Burslem, and his daughter, and al-
 so Councilman Borden, of that town.
 The object of the society is to seek
 persons who are non-church goers for
 the purpose of making them good
 church members. This society is
 granted a large sum of money annu-
 ally from the wealthy residents of that
 section to advance its work.

The deal for the purchase of the
 American pottery at Toronto by the
 Union Potteries company, of this
 city and Pittsburg, still hangs fire,
 but there is a possibility of papers
 being signed soon, causing the To-
 ronto factory to be turned over to the
 Union. It has been known for some
 time that a "deal" was on. It has
 been said that additional conferences
 will be held soon between the officers
 of the two companies, when a satis-
 factory purchase will be decided upon.
 The figure placed on the Toronto po-
 ttery by its present owners was con-
 sidered too high by the officials of
 the Union company.

The National Pottery company is
 about to place a novelty on the mar-
 ket. It is composed of three plain
 plates and a mug, the color of which
 is brown, resembling "Rookwood"
 ware. On the right side of each plate
 is painted a monk, but on each plate
 the figure is changed. On one the
 monk is testing a violin, on another he
 is smelling a cluster of pinks, and
 on another he is pictured reading a
 paper. A similar design is on the
 mug. A name for the novelty has not
 been selected. The first set was com-
 pleted last Thursday.

President A. S. Hughes, of the Na-
 tional Brotherhood, left yesterday for
 Cincinnati, where he will be at work
 probably the remainder of the week.
 The Scott Pottery company, of Cin-
 cinnati, has been reorganized and ex-
 tensive improvements made to the
 plant. It is the desire of the company
 to have the concern conducted in all
 departments under the uniform list,
 and President Hughes will aid the op-
 eratives in putting the scale in effect.

Carpenters are working at the Union
 pottery building addition, in which an
 elevator will be installed. The services
 of a clay carrier will then be dispens-
 ed with. After the improvement is
 finished clay will be sent to the clay
 shops from the clay cellars by the
 new elevator. After the new jiggers
 are installed at this plant, the clay
 shops will contain 11 machines, many
 of which are of an improved pat-
 tern.

The Evans Bros., part owners of the
 Fallston pottery, were in the city last
 Saturday for the purpose of placing
 several large orders. The output of
 the Fallston pottery is disposed of al-
 most entirely by these gentlemen, and
 in order to keep abreast of their or-
 ders, they are compelled to place busi-
 ness with factories in this city.

Saggermakers' local No. 16 will
 meet in its hall this evening when
 one new candidate will be obligated.
 At the last meeting of this local new
 officers were installed for the new
 term of six months. The membership
 of this local has been increasing quite
 rapidly during the last few months.

Work on the changes being made
 to the clay shop of the Union pottery
 has been delayed materially on ac-
 count of the slow delivery of the shaft-
 ing. The shafting is expected to ar-
 rive this week, and the new jiggers
 will be started as soon as possible.

J. F. Bradshaw, traveling salesman
 for the National China company, left
 today for a two months' trip in West
 Virginia. Mr. Bradshaw has had an
 established route in that state for six
 years. He reports trade for 1901 the
 best by far of any previous year.

William Walls, foreman of the Steu-
 benville pottery, was here Saturday
 visiting the Laughlin pottery No. 2
 and the Vodrey pottery. He has been
 connected with the Steubenville po-
 ttery for a number of years and is
 well known in this city.

William Devon, fireman at the D. E.
 McNicol pottery, received a letter
 from his brother Saturday, in which
 the writer stated he expected to visit
 this city soon. He is a kilnman and
 employed in one of the Burslem po-
 teries.

The molds that will be used at the
 new pottery at Barberton will be
 blocked out in this city. The work,
 it is said, will be done at the Frost
 model shop. Work will begin soon.

The glost kiln crew of the D. E.
 McNicol pottery is now composed of

10 men. The latest additions to this
 crew are Jack Barbour and Mike Ma-
 lone.

Daniel Madden, a printer at the Vod-
 rey pottery, who has been ill for five
 weeks with pneumonia, has recovered
 and is able to leave his home.

Gotham & Lockhart have secured
 an order for the new models of ware
 to be made for the New Castle China
 company.

George Smith, secretary of No. 9,
 who has been ill with an attack of
 pneumonia, is improving rapidly.

FRIENDS AND VISITORS

Mrs. M. O. Fisher, of McKinley ave-
 nue, is ill.

Thomas Marron returned this morn-
 ing from a trip to Zanesville.

Mrs. George Halles, of West Market
 street, who has been ill with typhoid
 fever, is able to be out again.

Mrs. W. C. Van Fossen and daugh-
 ter have returned to their home in
 this city, after a visit with relatives
 at Winona.

Mrs. M. E. Koplin, of New Castle,
 is the guest of her son, H. B. Koplin,
 manager of the Columbiana County
 Telephone company in this city.

Miss Catherine Craft, of Wellsburg,
 who has been visiting her brother,
 Charles Craft, of this city, for several
 weeks, returned to her home yester-
 day.

F. W. Shea leaves this evening for
 Louisville, Ky., from which point he
 will start on an extensive southern
 trip in the interest of the National
 Glass company, of Pittsburg.

Rev. Dunham, the evangelist who is
 expected in the city about the middle
 of the week, will be entertained during
 his sojourn here at the home of Mr.
 Arthur B. Taylor, Jackson street.
 For Township Clerk,

AT THE THEATER

The stage hands' benefit will be held
 earlier this year than was expected,
 arrangements to this effect having
 been closed Saturday morning. The
 attraction this year will be "Lovers'
 Lane," by Clyde Fitch, which was
 presented at the Alvin theater, Pittsburg,
 recently. The company appearing at
 Pittsburg will be here for the benefit
 January 21. It is said this will be the
 only Fitch production that will appear
 here this season and is the best he
 has written.

Chester De Vonde and an excellent
 company will begin a week's engage-
 ment at the opera house tonight. Mr.
 De Vonde has surrounded himself with
 the strongest talent available. No ex-
 pense has been spared to make each
 play a production. One thing always
 noticeable about the staging of the
 plays produced by the above company
 is the detail in which everything is
 worked out.

There was a rather small attend-
 ance at the opera house Saturday
 night to witness the performance
 given by the Atkinson & Richards
 vaudeville company. Owing to the
 small audience many of the acts were
 cut short, though the performance
 was pleasing. Several features were of
 a high order.

"Are You a Mason?" one of the best
 attractions the Knights of Pythias
 could secure for their annual benefit,
 will be presented at the opera house
 Monday evening, January 27. Tickets
 are now on sale and an unusually large
 demand for them is reported.

WELLSVILLE

PRESIDING ELDER PREACHED

Dr. Manchester Appropriately Opened the M. E. Revival Season in Wellsville.

In the Methodist Episcopal church last evening a very large congregation greeted Dr. Manchester, presiding elder of the Steubenville district. The eminent clergyman preached an eloquent sermon, using as his text a portion of Paul's letter to the Corinthians. At the conclusion of the sermon the pastor, Rev. C. E. Clark, announced that the address of the visiting minister was very appropriate for the revival meetings which commence tonight and continue throughout the week.

The services last evening were opened with a duet sung by Mrs. Al Lichtenberger and Miss Ethel McCann.

ALBINO ARRESTED

"White Bill," of Wellsville Is Accused of Stealing a Timepiece.

A young man known only by the name of "White Bill" was jailed Saturday evening by Officer Roley. The charge of stealing a watch was preferred against him by Frank Geisse, the Third street saloonist. Bill is a peculiar character. In appearance he resembles an Albino. His hair, eye brows and lashes are a snowy white and his eyes are a pink. He undergoes the same difficulty with his eyesight as does an owl. During the day he can scarcely see, but at night his eyes can penetrate the darkness with the accuracy of a cat.

For the alleged stealing he will be given a hearing this evening by Mayor Dennis.

HURLED AGAINST A SEAT

Lady Injured in a Collision of Street Cars in Wellsville.

Mrs. William Burford, of this city, was slightly injured in the street car collision at Lyth's switch Saturday evening. She was on the car bound for Wellsville and was sitting on a front seat.

When the cars collided she was thrown violently against another seat and sustained minor bruises to her limbs. No one else was hurt.

Bowlers Going to Alliance.

Captain Shingler's bowling aggregation will leave tomorrow evening for Alliance to battle with a league team. The members of the home team are Messrs. Willet Aten, Dick Harsha, Ben Evans, George Apple, Charles Hall and M. R. Shingler. They will be accompanied by several bowling enthusiasts, among whom will be Mayor Dennis and Frank Fox.

Mayor a Good Walker.

Mayor Dennis established a walking record Saturday afternoon. He had a business mission in Pughtown, a little hamlet in West Virginia, seven miles back of Congo, and not being able to procure a livery rig he walked the entire distance, covering the 14 miles in two hours and 50 minutes.

Commission's Last Meeting.

The last meeting of Wellsville's sewer commission will be held tonight. Preparations have been completed for its official demise. However, the commission intends to die "hard." Numerous resolutions have been prepared and will be passed at this meeting.

Will Address Teachers.

Superintendent Powell, of the Steubenville schools, will make an address before the teachers of the public schools this evening. His subject will be on school work and will no doubt be very interesting and instructive to the teachers.

MINOR NEWS OF WELLSVILLE.

Charles Stevenson is in Pittsburgh on business. James Nolan was a Pittsburgh visitor Saturday evening. Mrs. Frank Slaughter, of Pittsburgh, is the guest of friends. Mrs. John Strudoff is in from the country visiting friends. Mrs. Harriet Pierce, Main street, is visiting friends in Pittsburgh. Alexander Forbes is recovering from his recent severe illness. Messrs. M. R. Shingler and Frank

Fox are the guests of friends in Pittsburgh.

Judge P. M. Smith left this morning for Lisbon to attend court.

Richard McSweeney is dangerously ill at the home of his daughter, Mrs. Mike Broderick.

George Strickmaker, of Philadelphia, is the guest of her sister, Mrs. George Hurst, Main street.

Mrs. Byron Jenkins, of Pittsburgh, was in the city today attending the funeral of the late Mrs. Wilcoxen.

David P. Breach, assistant engineer of the Cincinnati division of the Pennsylvania lines, was in the city yesterday.

Edward Irwin, of New Castle, was in the city Saturday on business pertaining to the finishing of the sewer inlet at the depot.

The funeral of Mrs. Joseph Wilcoxen was held in the Brick church this morning at 10 o'clock. Interment was made in Spring Hill.

Samuel Myers, who resigned the agency for the Adams Express company, has accepted a position in the steel mill and will learn to be a roller.

The stockholders of the Wellsville Plate and Sheet Steel Iron company will hold a meeting tomorrow afternoon for the purpose of electing officers for the ensuing year.

A special meeting of Silver Creek lodge No. 182, K. of P., was held in the lodge rooms Saturday evening. Among other business of importance a degree of rank was conferred upon several members.

HUMAN SACRIFICE PREVENTED.

Human Sacrifice Prevented Chinaman About to Execute a Fellow Countryman—Was Rescued.

Baker City, Ore., Jan. 12.—A human sacrifice was prevented by the timely arrival of some Sisters of Charity upon the scene in this city. Hy Wong, a paralytic Chinaman, who has been a county charge, was returned to the care of his countrymen in Chinatown. While he was an inmate of the county hospital his queue had been cut off.

On this account the Chinese made preparations to offer him as a sacrifice to Joss. Hy Wong managed to get a message to the Sisters at the hospital, and they rescued him before his life was taken. It is asserted that all preparations for Hy Wong's execution had been completed when the Sisters arrived at the Joss house.

PETITION TO ROOSEVELT.

Chicago Friends of Boers Ask Him to Enforce Neutrality Law.

Chicago, Jan. 13.—The Chicago branch of the American Transvaal League held a meeting here last night and adopted a petition calling upon President Roosevelt to enforce the neutrality law. A large number of signatures of prominent men—judges, lawyers and others—was obtained. The petition is in the form of an argument, and sets forth that the United States is conceded to be a neutral nation in war between Great Britain and the South African Republic. It is contended that if the augmentation of Great Britain's military supplies from the port of New Orleans was stopped, the South African war would come to a speedy end. It is urged that horses and mules designed for use in military operations are within the meaning of the term "military supplies," as used in the treaty of Washington. The President, therefore, is called upon to enforce strictly Article VI of that treaty.

Priority.

"Always try to keep yourself well to the front," said Senator Sorghum to the young man who is studying politics.

"You mean I must be among the first to advance new ideas and promote reforms."

"Not exactly, but you must be among the first to claim credit when the trick is done and everybody is applauding."—Washington Star.

If eggs would only grow on egg plants, the incubator would do the rest—and the poor old hen would have to retire from business.—Sioux Falls Argus-Leader.

SOUTH SIDE

TO M'KEES ROCKS

THE MONACA-CHESTER EXTENSION MAY RUN.

Report That the Pennsylvania Company Intends to Parallel the Lake Erie.

Surveys made by the engineering corps of the Pennsylvania company within the past week have created considerable interest in railroad circles. It is reported that plans are in progress for the construction of a branch line of the Panhandle that will parallel the Pittsburgh and Lake Erie from Monaca to McKee's Rocks, where the line will cross the river and connect with the Fort Wayne.

The plan under contemplation by the Pennsylvania officials, says a Pittsburgh paper, is for the extension of the New Cumberland branch of the Panhandle from Crester, W. Va., to Monaca, and thence along the river front to McKee's Rocks. At this point it is said that the Ohio river will be bridged and a connection had with the Fort Wayne. The survey also includes a division of the route in order to pass along Neville island and there penetrate many of the industrial centers that are yielding heavy freight tonnage.

It is stated on good authority that rights of way for the new branch line have been acquired. Between the tracks of the Lake Erie for most of the distance there is ample room to construct a single tract line, while at various points where the surveys touch the river's edge the company is planning to drive piles. The permission for this is now being sought, and as soon as the agreement with the government officials has been reached the detailed plans for the branch line will be officially announced.

For several months past the engineers have been working in the vicinity of Chester. Numerous reports have gained circulation relative to the real purpose of the projected line and the name of the promoter. On several occasions the Pittsburgh and Lake Erie has been named in this connection, but officials of that company deny all knowledge of the reported surveys. Another report has it that surveys have been made along the Raccoon creek, by which route the Pennsylvania hopes to reach Monaca.

REAL ESTATE BOOM

Continues Active in Chester—Site For Three Story Building Purchased.

Real estate and other property in Chester is every day increasing in value. Lots that could have been purchased a year ago for \$200 cannot be obtained at the present time for less than \$400 and there are numerous lots near the center of the city that are valued at \$1,000 and over.

William Allison, of Middle Run, has purchased a corner lot on Carolina avenue from George Richmond for \$750. Mr. Allison states he will soon start the erection of a three-story brick building on the lot, for store and residence purposes, the top floor being arranged for dancing purposes.

Back to His Old Home.

George Moore, a farmer of Hancock county, who resided near Chester until a few years ago, when he went west, returned to Chester yesterday. He has been working in South Dakota for some time, and came here from Rapid City, S. D.

CHESTER NOTES.

Miss Bessie Swearingen visited Miss Moore in Wellsville.

Miss Kate Peck has returned from a six weeks' visit at Cleveland.

Mrs. Edgar Pauley is in Pittsburgh to visit her father, who is critically ill.

We're Getting Ready to Inventory

We're going to get ready for two weeks.

We've found it easier to count money than goods.

So this week and next we're going to sell as many goods as we can. Its cold weather and a little off season for big sales of Furniture and Carpets but we're going to help the matter along by remarkable bargains.

We'll adopt a new plan in this sale.

Instead a straight, arbitrary discount we'll have you make your selection and we'll make the price.

HARD'S

"THE BIG STORE"

home in Eleventh street Saturday night.

E. C. Baxter has returned from a two weeks' business visit in the neighborhood of Wellsburg.

Thompson Allison, toll collector, is confined to his home, being dangerously ill with typhoid fever.

George Still, after a week's sickness, has returned to work at the Taylor, Smith and Taylor pottery.

WHAT CONGRESS MAY DO.

Senate Has No Defined Programme. Forecast of the House.

Washington, Jan. 13.—The Senate is still without any definite plan of action for the future, and the indications are that the present week will witness a greater display of activity in the Senate committee rooms than in the Senate chamber. There are very few matters of importance on the calendar, but enough to engage attention for a few hours each day until Thursday, when the Senate probably will adjourn for the week.

Among the measures which there will be an effort made to get out of committee during the week are: The Nicaragua canal bill, the Philippine tariff bill, and the ship subsidy bill. The indications are that the Nicaragua bill will be reported practically as it passed the House, and that the shipping bill will not be materially amended, but the Republican leaders have practically decided to make a material reduction of the tariff on Philippine imports.

It is not probable that the discussion of either of these questions will begin for some time. The utmost that is to be expected in that direction is a preliminary arrangement for consideration. Which of the measures shall receive first attention is not yet determined, and considerable rivalry is likely to develop for precedence. All of the three measures will be debated at some length when taken up in the Senate.

Washington, Jan. 13.—The really important work of the House of Representatives aside from the Nicaragua canal bill is still in the committee stage, so that there is little of importance to be considered during the week. Monday will be given to bills affecting the District of Columbia. After that the pension appropriation bill will be passed. Although this measure carries about \$139,000,000, it follows the department estimates and does not involve any serious issues, so that after a brief explanation its passage usually follows promptly. The ways and means committee has a few minor bills on the calendar, for the redemption of revenue stamps made worthless by the repeal of certain features of the war revenue act. With the disposal of these bills, there will be little to engage the attention of the House, and there promises to be several periods of adjournment during which time the committees will perfect the largest measures to be brought before the House. The chief interest of the week will center in the hearing on Cuban reciprocity, to begin at 10 o'clock Wednesday morning, before the ways and means committee. The hearings will continue for several days, and it is expected that General Wood and others prominent in Cuban affairs, as well as the interest opposed to reciprocity, will address the committee.

He Grabbed the Offer.

Ex-Governor George W. Peck of Wisconsin, author of "Peck's Bad Boy," was running a little country weekly in the pineries in the early sixties. It was an unimportant sheet save for one column of jokes which Peck wrote each week. This department caught the eye of "Brick" Pomeroy, who was then printing his Democrat in Lacrosse, Wis., and one day he wrote to Peck asking him whether he would be willing to go down to Lacrosse and work for The Democrat at \$25 a week.

Three days later Mr. Pomeroy got this telegram: "I accept your offer quicker than instantly. For heaven's sake don't withdraw it!"

CORRECTING BOUNDARY LINE. Surveyors for Maryland and Pennsylvania at Work.

Hanover, Pa., Jan. 13.—The surveyors employed jointly by the States of Pennsylvania and Maryland to correct the boundary line as first established by Mason and Dixon have proceeded with their work as far as Germany township, Adams county, Pa.

They report that many of the stones are displaced. The surveyors found one used as a door sill in a dwelling, another in a church, others lying down and some at a considerable distance from the original places. All these stones will be secured and reset in their proper places.

GOV. NASH TO BE AGAIN INAUGURATED TO-DAY.

Columbus, O., Jan. 3.—Gov. George K. Nash will to-day be inaugurated into office for his second term. Arrangements have been made for a military and civic parade in the afternoon. In the evening there will be a public reception.

By a Modern Esop.

In the days when Children understood the language of Everything a Boy was telling his Troubles to the Eggs.

"They always Beat me," he complained, "unless I am Good."

"They will not beat us," observed the Eggs, "unless we are Good."

Moral.—There must be some Mistake in those Jokes about Omelets.—Baltimore American.

Where He Didn't Study.

"My gracious!" cried the sympathetic girl. "Your dog seems half starved. He looks as if he hadn't had anything to eat for a week."

"Neither he has, poor fellow!" replied the college student. "I forgot all about him."

"Why, where was he?"

"Locked up in my study room!"—Philadelphia Record.

E. Benjamin Andrews, LL.D., Editor.

LATE AND IMPOR- TANT PHASES OF CHILD STUDY.

BY COLIN A. SCOTT, PH. D.,

Professor of Psychology and Child Study
in the Wisconsin Normal School.

ment, also come first into function and at the start with a very small amount of definite association. In this latter point the human child differs markedly from the young of the lower animals. In the case of a newly born chicken, for example, we find a large number of the reactions of which he is capable already formed and needing only the slightest touch on the part of the environment to set them off. During the first day of his life the chicken, after picking his way through his shell, stands and walks and when he sees food among grains of sand seizes it with about as much precision as he ever does in later life. He is to a large extent mature and capable of supporting himself.

With the human infant there are indeed some reflexes already in existence, but with the exception of that for sucking these are of a very generalized type. There has been observed on the first day of life, even with infants prematurely born, a turning of the head toward the light. This indicates a performed associative path between the optic centers and the motor centers which move the head. It is, however, of a very indefinite character and goes no further than the pleasurable differentiation between light and darkness. The infant is still practically blind, and the distinguishing of objects is quite impossible to him.

There is a similar condition with respect to hearing, some observers reporting that even to loud noises the child makes no response whatever during the first few days.

Touch has been regarded by many as the first sense to manifest itself. Kussmaul, Perez and Preyer all believe that individual tactile sensations show themselves during intrauterine life. Even with prematurely born children touch elicits some response at the very first. The tongue, lips, nostrils and eyelashes are especially sensitive. The difference in sensibility is, however, less in infants than in adults, and reaction time is slower, indicating a lack of definite association.

Taste is developed as early as touch. Kussmaul found that on the first day of life solutions of sugar and quinine, introduced by a hair pencil and warned so that the feeling of temperature would not affect the result, called forth "the same mimetic movements which we designate among grown people as the facial expressions of sweet and bitter." They respond to the sugar by protruding the lips in a spoutlike form, pressing the tongue between them, sucking and swallowing. On the contrary, when the quinine was introduced the visage was distorted, the eyes closed, the tongue protruded, and choking movements were made, accompanied by the expulsion of the fluid and active secretion of saliva. In many cases, however, the introduction of an attenuated solution of quinine was responded to by sucking movements, showing that taste sensibility is weaker at this age than the adult (Tracey). These movements cannot be called voluntary in the adult sense, but were as uncontrollable reflexes. They indicate a differentiation of associative paths in advance of what is to be observed with the sense of sight and hearing.

Children make indefinite reactions to strong odors while asleep during the first hours after birth. They are behind many of the lower animals in motor associations leading from this sense. A kitten 3 days old, before its eyes are opened, will raise its back and "split" at a hand which has been rubbed over the back of a dog.

Internal sensations will give rise to various indefinite reactions. Pleasure and pain are at first manifested in connection with feelings of hunger and thirst. Pleasure is not expressed by a "real smile" until about the forty-fifth day (Darwin).

These reactions are evidently of a very simple character, so simple, indeed, that the most of them may be carried out, in a great part at least, by nervous centers below the brain proper. The sucking reflex, for example, is possible in microcephalous children, in whom the upper brain is almost wholly wanting. With normal children, however, there is in a very few days after birth enough difference in their reactions, as compared with those born without the upper brain, to show that the cortex, the organ of consciousness par excellence, is contributing at least some re-enforcement to the lower centers.

With regard to the higher and more concrete phases of experiences, known to adults as volitions, desires, feeling, knowledge, and which we generally infer to exist in connection with the activity of the higher centers, it is impossible to say just at what point in the life of the child they first make their appearance. Although there may very likely be some protoplasmic mother liquid of an inner state in the automatic reactions and reflexes of children, or even in the germ cell itself, what all are accustomed to regard as really personal is at birth and for some time after conspicuous by its absence. The distinguishing of objects by sight, generally called "noticing," is not reported until the child is over a month old. Even after this, however, there is very little idea of distance derived from the eyes. Preyer's boy at 4 months old often grasped at objects which were twice the length of his arm from him and "when nearly 2 years old tried to hand a piece of paper to a person looking out of a second story window from the garden below." This failure to appreciate distances arises out of the fact that knowledge of this feature of experience arises from the senses of touch and pressure, and not until sight sensations and touch sensations have been sufficiently associated together can we dispense with the evidence of touch. By sight alone we would not be able to tell that anything was distant or near, rough or smooth, transparent or opaque. It is by a series of trials involving his skin and muscles that the child learns that he can walk through air, but not through a wall, or that he cannot pick up the spot of light from the floor. Similar associations are made with hearing and the other senses, and a great part of the child's early months is spent in making physical experiments on himself and his environment. When visual "noticing" begins, it is at first limited to about the distance of his fingers. Beyond this point he is practically blind, while the first real grasping of an object with an appreciation of its distance is not observed until about the end of the fifth month.

About this time he discovers various portions of his body. He notices his toes and may be observed to hunt for them when they have by some reflex and accidental movement on his part disappeared from sight. He discovers a difference in experience when he touches or handles his own body and when he does the same thing with another. He discovers that many things have a reverse side to them and turns them over and over, impressing on his mind the difference of appearance from different angles, while at the same time the object remains the same to his feeling of touch and pressure. He examines carefully the edges and corners of things and studies their weight and thickness. The rustle, and especially the thinness, of paper about this age is a delightful discovery, and when he finds out that paper will tear the new experience, revealing such an unusual effect of his volitions, is repeated time and time again, bringing in every possible variety of association between sight, sound, touch and muscular co-ordination. He takes the greatest pleasure in finding himself a cause.

The elaborate experiments which a child of 6 or 7 months goes through are not possible without a considerable degree of memory and associative power. The facility with which associated ideas are acquired is, according to Mr. Darwin, the most strongly marked of all the characteristics separating a child from even the most intelligent of the lower animals. Association by contiguity appears quite early. About the age of 5 or 6 months when a child is dressed for the street and put in his carriage he becomes restless and angry if he is not taken out immediately. Here is a firmly fixed association which has been acquired and remembered from past experience. From a brain standpoint we may figure it as follows, and by this it is not meant that we will have fully explained, but only given one of the necessary conditions of these more concrete elements of experience. At first the dressing, placing in carriage and taking out give rise to movements, touches, sights and sounds which involve the reaction of different brain centers following one after another. Each of these centers has associative fibers leading out in various directions throughout the brain. The three different outward events mean three different groups of brain activities. The first group is discharged at the time the first dressing occurred. At that time the centers involved in this group would radiate out impulses in every direction. The neutral process accompanying the sight of the carriage might even be one of the elements, but would be submerged by all the others. The sight of the carriage is, however, continued, while the other processes, involving, for instance, the sight of his crib,

First Thoughts of Children.

SINCE the publication of Darwin's "Biographical Sketch of an Infant" a great many facts have been collected indicating the way in which children react to their environment during the first months of their existence. These observations all show that sensorimotor brain centers, the first in structural development, also come first into function and at the start with a very small amount of definite association. In this latter point the human child differs markedly from the young of the lower animals. In the case of a newly born chicken, for example, we find a large number of the reactions of which he is capable already formed and needing only the slightest touch on the part of the environment to set them off. During the first day of his life the chicken, after picking his way through his shell, stands and walks and when he sees food among grains of sand seizes it with about as much precision as he ever does in later life. He is to a large extent mature and capable of supporting himself.

With the human infant there are indeed some reflexes already in existence, but with the exception of that for sucking these are of a very generalized type. There has been observed on the first day of life, even with infants prematurely born, a turning of the head toward the light. This indicates a performed associative path between the optic centers and the motor centers which move the head. It is, however, of a very indefinite character and goes no further than the pleasurable differentiation between light and darkness. The infant is still practically blind, and the distinguishing of objects is quite impossible to him.

There is a similar condition with respect to hearing, some observers reporting that even to loud noises the child makes no response whatever during the first few days.

Touch has been regarded by many as the first sense to manifest itself. Kussmaul, Perez and Preyer all believe that individual tactile sensations show themselves during intrauterine life. Even with prematurely born children touch elicits some response at the very first. The tongue, lips, nostrils and eyelashes are especially sensitive. The difference in sensibility is, however, less in infants than in adults, and reaction time is slower, indicating a lack of definite association.

Taste is developed as early as touch. Kussmaul found that on the first day of life solutions of sugar and quinine, introduced by a hair pencil and warned so that the feeling of temperature would not affect the result, called forth "the same mimetic movements which we designate among grown people as the facial expressions of sweet and bitter." They respond to the sugar by protruding the lips in a spoutlike form, pressing the tongue between them, sucking and swallowing. On the contrary, when the quinine was introduced the visage was distorted, the eyes closed, the tongue protruded, and choking movements were made, accompanied by the expulsion of the fluid and active secretion of saliva. In many cases, however, the introduction of an attenuated solution of quinine was responded to by sucking movements, showing that taste sensibility is weaker at this age than the adult (Tracey). These movements cannot be called voluntary in the adult sense, but were as uncontrollable reflexes. They indicate a differentiation of associative paths in advance of what is to be observed with the sense of sight and hearing.

Children make indefinite reactions to strong odors while asleep during the first hours after birth. They are behind many of the lower animals in motor associations leading from this sense. A kitten 3 days old, before its eyes are opened, will raise its back and "split" at a hand which has been rubbed over the back of a dog.

Internal sensations will give rise to various indefinite reactions. Pleasure and pain are at first manifested in connection with feelings of hunger and thirst. Pleasure is not expressed by a "real smile" until about the forty-fifth day (Darwin).

These reactions are evidently of a very simple character, so simple, indeed, that the most of them may be carried out, in a great part at least, by nervous centers below the brain proper. The sucking reflex, for example, is possible in microcephalous children, in whom the upper brain is almost wholly wanting. With normal children, however, there is in a very few days after birth enough difference in their reactions, as compared with those born without the upper brain, to show that the cortex, the organ of consciousness par excellence, is contributing at least some re-enforcement to the lower centers.

With regard to the higher and more concrete phases of experiences, known to adults as volitions, desires, feeling, knowledge, and which we generally infer to exist in connection with the activity of the higher centers, it is impossible to say just at what point in the life of the child they first make their appearance. Although there may very likely be some protoplasmic mother liquid of an inner state in the automatic reactions and reflexes of children, or even in the germ cell itself, what all are accustomed to regard as really personal is at birth and for some time after conspicuous by its absence. The distinguishing of objects by sight, generally called "noticing," is not reported until the child is over a month old. Even after this, however, there is very little idea of distance derived from the eyes. Preyer's boy at 4 months old often grasped at objects which were twice the length of his arm from him and "when nearly 2 years old tried to hand a piece of paper to a person looking out of a second story window from the garden below." This failure to appreciate distances arises out of the fact that knowledge of this feature of experience arises from the senses of touch and pressure, and not until sight sensations and touch sensations have been sufficiently associated together can we dispense with the evidence of touch. By sight alone we would not be able to tell that anything was distant or near, rough or smooth, transparent or opaque. It is by a series of trials involving his skin and muscles that the child learns that he can walk through air, but not through a wall, or that he cannot pick up the spot of light from the floor. Similar associations are made with hearing and the other senses, and a great part of the child's early months is spent in making physical experiments on himself and his environment. When visual "noticing" begins, it is at first limited to about the distance of his fingers. Beyond this point he is practically blind, while the first real grasping of an object with an appreciation of its distance is not observed until about the end of the fifth month.

About this time he discovers various portions of his body. He notices his toes and may be observed to hunt for them when they have by some reflex and accidental movement on his part disappeared from sight. He discovers a difference in experience when he touches or handles his own body and when he does the same thing with another. He discovers that many things have a reverse side to them and turns them over and over, impressing on his mind the difference of appearance from different angles, while at the same time the object remains the same to his feeling of touch and pressure. He examines carefully the edges and corners of things and studies their weight and thickness. The rustle, and especially the thinness, of paper about this age is a delightful discovery, and when he finds out that paper will tear the new experience, revealing such an unusual effect of his volitions, is repeated time and time again, bringing in every possible variety of association between sight, sound, touch and muscular co-ordination. He takes the greatest pleasure in finding himself a cause.

The elaborate experiments which a child of 6 or 7 months goes through are not possible without a considerable degree of memory and associative power. FAMILY PERISHED.

Seven Cremated In Fire That
Destroyed a Building,
In Buffalo.

TWO MEN PUT UNDER ARREST.

Owner of Building and His Brother
in-Law Suspected of Setting the
Place Afire to Get the Insurance
Money.

Buffalo, Jan. 12.—Henry Pearlstein, his wife and five children ranging in age from one-and-a-half to twelve years, were burned to death in a fire that destroyed a two-story frame building. Joseph Supowski, who owned the building, and Karl Bracki, his brother-in-law, have been arrested pending an investigation. Supowski carried an insurance of \$9,000 on the building and its contents.

The Pearlsteins and another family lived in rooms above the shoe store, and were asleep when the fire started. Supowski told the police that he accidentally dropped a lamp. A few minutes after the fire began there was a loud explosion that blew out the front of the store and hurled some of the contents of the windows into the middle of the street. Plate glass windows on the opposite side of Broadway were shattered, and the sound of the explosion was heard two blocks away. The flames enveloped the building in a short time. The fam-

ily living in the rear flat barely escaped with their lives. The Pearlsteins were awakened, but before they could reach the only stairway leading from their rooms, the fire had undermined the floor in the hallway, and it collapsed, carrying them down into a mass of flames. Their charred bodies were found at 8 o'clock, four hours after the firemen had extinguished the flames. The body of the mother and baby were found together, the little one tightly clamped in its mother's arms. Pearlstein's body was found close to that of his wife. He also held one of the children in his arms. The bodies of the other three children were found huddled together close to the father's body.

had extinguished the flames. The body of the mother and baby were found together, the little one tightly clamped in its mother's arms. Pearlstein's body was found close to that of his wife. He also held one of the children in his arms. The bodies of the other three children were found huddled together close to the father's body.

have ceased. New processes are stirred up in his new situation, the most of which are immediately dropped. The carriage process, sight, etc., however, still remain and new experiences, such as movement of the carriage, added. There has thus been a more constant repetition of some processes than of others.

It will be seen from this that the problem of nutrition is fundamental to even these complex evidences of intelligence. That the association should be firmly fixed depends not merely on the number of repetitions, but upon the nutritive overcompensation which follows the reaction. Vital conditions may be such that there is no overcompensation. Too early a repetition may produce this result, and we will then be dealing with associative paths which are fatigued and still charged with the waste products of former efforts.

If the associative process is complex and intense, recuperation will be proportionately tardy. It is only the shallower, more insignificant and artificial kinds of associations which are effected by what teachers know as a steady drill.

A HISTORIC ESTATE

THE STORY OF FAMOUS OLD BATTLE ABBEY.

Erected by William the Conqueror to Commemorate His Victory—Its Founding in A. D. 1066 and Its Many Vicissitudes.

"Going—going—gone!" cried the auctioneer at a recent sale in London, and then was sold a piece of property which, from its association with the battle of Hastings, is inseparably bound up with the story of the British nation. It was no less a place than Battle abbey, erected by William the Conqueror in 1066 to commemorate his victory.

Since the time of the first William it has had many owners and has now become the property of Sir Augustus Frederick Webster. The new owner is a descendant of Sir Thomas Webster, who bought the abbey from Viscount Montague in 1719 and whose family retained possession of it for 137 years.

Battle abbey is situated near Battle, Sussex. The town was formerly called Epton and received its present name from being the spot on which the Saxons, under Harold, were defeated by William, duke of Normandy, in 1066. The Norman duke, marching from Pevensey, a few miles away, where he had landed, found the Saxons intrenched behind a stockade on ground which lies within the inclosure of the Battle estate. So stubborn was the defense that the fate of the day was uncertain until William ordered his archers to shoot upward. An arrow pierced Harold's eye, and he fell, with a few of his earls faithful to the last. After the battle Duke William, known as the Conqueror, founded a magnificent abbey to commemorate his victory. The high altar in the church is said to have stood on the very spot where the body of the Saxon prince was found.

The abbey was intrusted to the Benedictine order and enjoyed for 500 years great celebrity. The church was consecrated on Feb. 11, 1094, during a visit of William Rufus to Hastings, and the occupants of the original abbey came from the Benedictine monastery of Marmoutier-les-Tours, on the banks of the Loire, founded by St. Martin as a refuge of privacy. In the middle of

SOUND AS A DOLLAR

That is the result of a course of treatment with Scott's Emulsion. We have special reference to persons with weak lungs and sensitive throats.

Scott's Emulsion does some things better than others. This is one of them. It has a peculiar action on the throat and lungs which gives them strength and makes them tough.

That's how Scott's Emulsion drives out coughs, colds and bronchitis. It keeps them out, too.

"GO KNOCK ON the DOOR IF YOU WANT TO GET IN"

By JOHN D. ROCKEFELLER, Jr.

It often happens that a young man in all earnestness says, "I want to do something for myself, something for my friends, something for my family and something for my God," and fails to do anything. Then he sighs and believes that opportunity has never offered itself to him.

I suppose that it often happens that men are the victims of circumstances, but more often a better explanation for failure can be found. Some say that Hobson did that great deed in the harbor of Santiago because fortune favored him. Others who were there were brave and competent and just as willing as Hobson, yet the opportunity was only for him.

The reason that one man finds an opportunity while another fails is that the first seeks, while the other waits to be called. It is not always so, but at least NINETY-NINE TIMES IN A HUNDRED FORTUNE FAVORS THE PERSISTENT HUNTER AND PASSES BY THE LAGGARD.

Go and knock on the door if you want to get in. Don't sit back and wait for the door to open.

"Fricassee Nightmare."

God has given us a capacity to enjoy food. That is not the principal object in eating. One goes to a dinner and after eating all that he really desires and more than is beneficial thinks he will add a little of the compounds they call dessert—the invention of the devil—and becomes uncomfortable and wretched. Most of the desserts we have might be called "fricassee nightmare" or "escaloped indigestion." Eating becomes idolatry if it becomes unfitting for higher service. It is a crime to gorge and be uncomfortable or to induce a headache. I once attended a dinner at the invitation of a parishioner and was asked to accompany a lady to the table. I did not need to eat, but I offered to help her to whatever she desired, and she asked for chicken salad, remarking, "It always gives me a wretched headache, but I am going to have some," and I replied, "Then you may help yourself, for I will not."—Address by Dr. Pierson.

The little folks love Dr. Wood's Norway Pine Syrup. Pleasant to take; perfectly harmless; positive cure for coughs, colds, bronchitis, asthma.

East Liverpool, Ohio,

The Most Eminent Specialist in America are in our city and will remain until

Wednesday Noon, January 22,

Ten Days Only,

and will receive patients while here at the parlors of the Thompson House.

Dr. Snell and Staff

—OF THE—

New York and Ohio Electro-Medical Institute are visiting a few of the principal cities of our country. This being their visiting trip, and to introduce their new system of curing disease, they will give consultation, examination, advice and all medicine necessary to complete a cure FREE. All patients taking advantage of this offer will be expected to state to their friends the results obtained.

Don't fail to call on these renowned specialists. All diseases of men and women treated. No matter what your disease may be or of how long standing, there is no experimenting or guesswork; you will be told whether you can be cured or not.

They have an entirely new and original method of treating all kinds of deafness which has restored the hearing to hundreds after they had been pronounced incurable. Catarrh in all its varied forms cured so it will never return, by breaking up the cold-catching tendency.

If you have weak lungs or consumption, and have been told you are beyond help, don't fail to call on them and have a thorough examination, as a visit will cost you nothing and may save your life.

Their new discovery of absorbing medicine by electricity, in paralysis, loss of power, rheumatism and all diseases of the nervous system is a godsend to suffering humanity. Medical men stand appalled at the marvelous cures that are being effected wherever this system has been introduced. Thousands who have given up all hope of ever being cured have now an opportunity of a lifetime to consult, without charge, Specialists of a national reputation. Remember, their knowledge of medicine, combined with electricity, gives them control of disease that others do not possess. If you are hard of hearing, are lame, or cannot walk, this new system will cure you quickly.

If you suspect kidney trouble, bring a two-ounce vial of your urine for a chemical and microscopic analysis.

If you are improving under your family physician do not come and take up our valuable time. Idlers and curiosity-seekers will please stay away.

Cancers, Tumors, Ulcers, all blood, skin and scalp diseases cured by an entirely new method. Piles and Varicose cured in from 5 to 30 days without the knife.

Remember, not one penny will be charged for all the medicine required to complete a cure, to all those taking treatment during this trip.

Office hours, 9 a. m. to 7:30 p. m.

WELCOME TO HENRY.

Probably Will Be Invited to Become A Guest of the Nation.

TO BE LAVISHLY ENTERTAINED

Officers Will Be Detailed to Accompany Him and Salute Fired on Arrival—New York People Probably Entertain Him Handsomely.

Washington, Jan. 13.—The announcement that Prince Henry of Prussia, brother of Emperor William, will be met at New York by representatives of President Roosevelt, an officer will be detailed from the army and one from the navy to arrange for the convenience of the prince, and to accompany him. He is an admiral in the German navy, and when he arrives at New York, will be greeted by a salute of 21 guns, which is the same as a Presidential salute. He may make an address at the launching of the imperial yacht, which is to be christened by Miss Roosevelt, and it is not improbable that President Roosevelt may attend the launching and respond to the prince's address.

On his arrival in Washington Prince Henry will be received by the President, and will be invited to become the guest of the nation. Whether he

REAR ADMIRAL PRINCE HENRY.

will care to accept this invitation or to stay at the German embassy is not known. His call upon the President will be returned in person by Mr. Roosevelt, who will invite him to a dinner, where there will also be the most prominent men of the country. Everything will be done to make Prince Henry's visit a pleasant and memorable one.

New York, Jan. 13.—During this week the plans will be considered for the reception of Admiral Prince Henry of Prussia, brother of Kaiser Wilhelm, who will land here next month to witness the launching of the Kaiser's new yacht. The prospect now is that from the arrival of the prince in New York waters will date a series of public receptions, fetes and kindly greetings of international character.

PRINCE HENRY IS TO COME.

Will Represent Emperor at Launching of His Yacht—Telegrams Between Him and President.

Berlin, Jan. 13.—Emperor William's yacht Hohenzollern will go to

THERE ARE MANY ROADS.

The Finger Posts Marking the Many By-Paths of Present Day Troubles All Seem to Point the Same Way—Lack of Nerve Force.

Day by day the columns of this paper bring new evidence from East Liverpool people of the great work being done by Dr. A. W. Chase's Nerve Pills. Why they accomplish so much is easily explained. They are prepared with an eye single to restoring nerve force. They accomplish this object which no other medicine in the world has ever been able to do. That's why hundreds of East Liverpool people offer their testimony.

Mr. Cyrus Hauselman, of No. 279 Sugar street, East Liverpool, Ohio, says: "Dr. A. W. Chase's Nerve Pills are a fine medicine. It has done for me more to cure my old rheumatism than anything I ever took. The rheumatism had hung on for five or six years, and was all in the legs and shoulders. I could not sleep and at times could not move with the pain. I was told of the Nerve Pills, and got them at Larkin's drug store, corner Sixth and East Market streets, and they took hold finely—something nothing else ever did. The pain and stiffness is about gone. I am feeling strong, and get about and sleep well. It won't take many more to cure me completely."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers, or Dr. A. W. Chase Medicine company, Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

Two forms of excursion tickets, season and fifteen day, may be obtained at special rates. For information about fares and trains consult ADAM HILL, Ticket Agent, East Liverpool, Ohio.

FIND THE CUSTOMS OFFICER.

New York to participate in the launching of His Majesty's new yacht, Prince Henry of Prussia will also be present at the ceremony, as representative of Emperor William.

In connection with the proposed trip of the Hohenzollern to New York, Emperor William telegraphed as follows, in English, to President Roosevelt:

Message from the Emperor.

"I am most gratified by your kind permission for Miss Roosevelt's performing the christening ceremony of my yacht. It gives me great pleasure to announce to you that I have ordered my yacht Hohenzollern to cross over and be present at the ceremony. My brother, Admiral Prince Henry of Prussia, will appear as my representative, and will be able to express to you once more my sincere feelings and friendship for the United States and their illustrious head."

WILLIAM, R. I."

The Reply of Roosevelt.

President Roosevelt replied as follows, in German:

"Your Majesty's intention to send over your yacht Hohenzollern to attend the christening by my daughter of your new yacht is the source of great pleasure and satisfaction to me. I can assure you a hearty welcome for your brother, Admiral Prince Henry, to whom I shall personally express my sincere feelings of esteem for your Majesty, as well as my best wishes for the welfare of the German people."

"THEODORE ROOSEVELT."

Prince Henry will sail early in February on one of the North German Lloyd steamers. He will be attended by several officers of high rank, whose names have not yet been announced. The date of the launching of the Emperor's yacht, it is understood, has been fixed for February 26.

The length of Prince Henry's stay in the United States is undetermined and will depend in part upon the wishes of President Roosevelt and the programme for his entertainment.

FLED BEFORE THE AMERICANS.

Wells' and Wint's Columns Capture Enough Ratings to Keep 20,000 Insurgents Six Months.

Manila, Jan. 13.—The news received from Batangas province is cheerful. The expedition to Lobos, in Batangas has been a complete success. The columns, under Colonels Wint and Wells, have destroyed a large number of barracks and hamlets and enough ratings to keep 20,000 Filipinos for six months. There was not a single American casualty during the entire expedition. The enemy fled before the Americans, many of them being killed, and several surrendered.

Major Henry Allen, formerly Governor of the island of Leyte, and now chief of the insular constabulary, who has been making a tour of inspection through the islands of Leyte and Mindanao, has returned to Manila, and reports that the native constabulary is fully able to control the situation in the province of Misamis, in Northern Mindanao, where he thinks the situation has been much exaggerated. Previous reports concerning this province caused Generals Davis and Wade to request that it be returned from civil to military control.

With the exception of the church the entire town of Quingua, in Bulacan province, Luzon, has been burned to the ground, and thousands of Filipinos have been rendered homeless.

Commissioner Bernard Moses, head of the Department of Public Instruction for the islands, has delivered an address to the teachers of Manila in which he particularly urged the continued instruction of Filipino children in English. He said the members of the wealthy Philippine classes were making a great mistake in sending their children to Spanish schools, as the consequent neglect in English instruction would injure their position and standing in the islands which would inevitably and indissolubly become a portion of the American nation.

BELL COMPANY WANTED IT.

Made Offer for Federal Telephone Company—Tentative Offer From McLean and Others.

Cleveland, O., Jan. 13.—A large majority in amount of the creditors of the Federal Telephone company, owned and controlled by the Everett Moore syndicate, were in session all day here to-day. A large part of the conference was taken up in discussing various proposals for the purchase of the entire properties.

Creditors favor the depositing of all the stocks and bonds of the constituent companies owned by the Federal Telephone company in some big trust company, to be used as collateral security for a new issue of bonds,

these bonds to be accepted as payment for the claims held by the creditors and thus enable the syndicate to go on with the operation of the company and keep it under its control. If the plan goes through it will furnish ready money to finish uncompleted plants, principally at Detroit and Dayton. The bankers' committee has had one bona fide offer for the sale of the entire Federal system, the offer coming, it is said, from the Bell Telephone company. It is said that the committee will not consider this offer. Tentative offers have been made by Judge Thomas, of New York, representing C. W. Morse, also of New York. An offer from John R. McLean, of Cincinnati, has also been received. It is probable that a fourth bidder will be in the field within a few days. None of these deals can go through until the plans of the bankers' committee become operative. In addition it is positively stated that there is now no chance for the sale of the properties at an upset price.

Members of the committee feel more confident than ever that thesecurities will be kept up to their full value. It is also emphatically stated that the situation in regard to the traction companies in which the syndicate has a controlling interest is very favorable, and that none of the traction companies will be sold. Four or five companies in which the syndicate is interested but do not hold the controlling interest, may be sold.

OFFICER TRIED TO SUICIDE.

Captain Horne Grabbed Knife From Man, But Was Wounded Himself.

San Francisco, Jan. 13.—Captain W. J. Horne, of the Ninth Cavalry, U. S. A., tried to suicide in an O'Farrell street fruit store, owned by A. Dalporto. The proprietor was dressing a chicken when the Captain walked hastily up to him and asked whether the knife he was using was sharp. "It is," said Dalporto, and in an instant Horne grabbed it and slashed himself across the throat. Dalporto grappled with the Captain, and a desperate struggle followed, in which Dalporto received a slight gash on the right side of the neck. The shouting and the scuffle brought a crowd and with the aid of several men Horne was overpowered and taken to a hospital. He probably will recover from his wounds.

FOR PRESERVATION OF PEACE.

Central American Presidents, or Representatives, to Meet.

Managua, Nicaragua, (via Galveston, Texas), Jan. 13.—President Zelaya, the ministers of his cabinet and several other Nicaraguan officials, have left here for the port of Corinto, on the Pacific, where they will meet and confer with the Presidents of the other States or their representatives of Central America, who will assemble there upon the invitation of President Zelaya.

General Terencio Sierra, President of Honduras, and General Tomas Regalado, of Salvador, are already on their way to Corinto. The Presidents of the other republics or their representatives, are reported intending to go to Corinto later. The object of these meetings is declared to be the preservation of peace. They will occur January 15 and 17.

DEAD FROM WRECK.

Another Victim Died and Another Very Low.

New York, Jan. 13.—The death list caused by the New York Central tunnel accident was yesterday swelled to seventeen.

Winfield Slutze, who had submitted to the amputation of one of his legs, died at Flower hospital. He lived at New Rochelle.

Richard Molineaux, another New Rochelle man, who is at the same hospital, is reported to be in a precarious condition.

The other patients are progressing favorably.

Payne to Assume Duties.

Washington, Jan. 13.—Hon. Henry C. Payne, of Milwaukee, who is to succeed Postmaster-General Emory Smith in the cabinet, reached here last night, from Wisconsin. He was accompanied by Mrs. Payne and his niece, Miss Louise Jones. Mr. Payne will assume his duties the early part of the week.

Scratch, scratch, scratch; unable to attend to business during the day or sleep during the night. Itching piles—horrible plague. Doan's Ointment cures. Never fails. At any drug store, 50 cents.

The Evening News Review is the largest and newest East Liverpool paper.

Moffat's Life Pills

The Great Stomach and Liver Medicine.

Established by one of our most Eminent Physicians of New York City and now used in the United States and all foreign countries with more pleasing results than any other medicine ever compounded.

There is hardly a family among civilized nations who have not personal evidence of their beneficial effects. Their great success is owing to their uniform reliability in cases of Constipation, Bilious and Stomachic diseases, whether of long or short duration. They are entirely vegetable in their composition, and harmless to the gentlest infant. One ingredient opens the pores of the skin; another is diuretic, and stimulates proper action of the kidneys; a third is emollient, loosening phlegm and humor from the lungs; other properties are warming and cathartic, and cleanse the stomach and bowels from unhealthy secretions. Their combined effect is, to regulate the impaired functions of the system, and to produce health.

If you feel sick, bad taste in the mouth, coated tongue, dizziness, bilious or sick headache, your stomach and liver are out of order, correct these at once by using Moffat's Life Pills.

They are a positive cure for Malaria, Biliousness, Torpid Liver, Indigestion, Dyspepsia, Costiveness, Colds, La Grippe, Aching Limbs, Rheumatism, Impure Blood, Chills and Fever and all other diseases arising from a disordered condition of the stomach and liver.

These pills act on the stomach, bowels, liver and kidneys, purify and regulate the whole system, and are guaranteed to cure and give satisfaction or money refunded.

Ask your Druggist for Moffat's Life Pills and take no other. If he has not got them or will not get them for you, they will be sent by mail on receipt of 25 Cents a Box or 5 boxes for \$1.00. Sold by all first class Druggists. Plain or sugar coated.

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

Annual Sale of Pews—At the St. Aloysius' church yesterday occurred the annual sale of pews.

Mrs. Swindell's Funeral—The funeral of Mrs. Mary A. Swindell was held today from St. Stephen's Episcopal church at 1:30 o'clock. The interment was in Riverview cemetery.

King's Daughters' Social—The monthly social of the King's Daughters, of the M. P. church, will be held next Thursday afternoon at the home of Miss Hall, May street.

Will Attend the Funeral—Mr. and Mrs. John Rowe, Mrs. B. A. Rigby and James Logan, Jr., left today for East Palestine, where they will attend the funeral tomorrow of Basil Rowe, whose death occurred there Saturday.

Deaconess Had Charge—The funeral of the little child of Thomas Hancock occurred yesterday from the home in the rear of Chestnut street at 2 o'clock. The deaconess of the M. E. church had charge of the services.

Praise Service Tonight—The Young Women's Missionary society of the First Presbyterian church will hold a praise service in the basement room of the church at 7:30 this evening. Mrs. Alice Halleck-Braddock, a former missionary in India, will be present and address the meeting. At the close of the service a social will be held.

Pheasants From Oregon—A. V. Andrews, formerly of this city, writes from La Grande, Ore., where he is now located, saying East Liverpool sportsmen would do well to get some Chinese pheasants from Oregon and introduce them here. He says the birds are very cheap out there. With a start of a few birds it would not be long until good shooting, as he believes the pheasants would do well here.

WILL BUILD GREATER

McKinley Avenue Union Chapel Officers Decide to Enlarge the Church.

George Hall addressed the congregation at the McKinley avenue union chapel last night. The officers of this church have determined to enlarge the structure, as it is impossible to comfortably accommodate the large crowds who attend there.

The attendance has increased more than one-third since the first of the year. Work on the improvement will be commenced as soon as the weather will permit.

FOR TOWNSHIP CLERK

Willis Davidson An Aspirant for the Position—Fulfills All Requirements.

Willis Davidson, known to every man, woman and child in the city as one of the most popular and efficient police officers who ever served on the force, is announced today for the position of township clerk.

Mr. Davidson has been a staunch Republican all his life, and is thoroughly competent to look after the duties of the position. He possesses a good education, his position as shipping clerk and assistant bookkeeper of the old Specialty Glass company giving him extraordinary qualifications for the position he seeks. Mr. Davidson is a man of good moral character and worthy in every way of the support and confidence of the Republicans of East Liverpool.

For the purpose of acquainting contractors with the plans and specifications for certain alterations contemplated by the East Liverpool Turn society to their building on Walnut street, the committee appointed for the purpose will meet contractors at the hall on Tuesday, January 14, at 2:30 p. m.

The committee reserves the right to reject any and all bids.

JOHN HUFFMAN,
F. OSCHMANN,
DAVID BERNHARD.

Card of Thanks.

We wish to express our heartfelt thanks to our many kind friends and neighbors; also to his Sunday school teacher, Rev. Mr. Crawford, and members of the M. E. church, who so kindly assisted us in our late sad bereavement.

THOMAS B. HANCOCK AND FAMILY.

SCHLEGEL'S
MARKET STREET,
Both Phones 230.

CHARLES A. WHITE

Of Salineville, a Strong Candidate for the Office of Recorder.

Salineville has a strong candidate for the Republican nomination for county recorder Charles A. White, one of the foremost citizens of that town, has entered the race for the office and will make a vigorous canvass.

Mr. White is 35 years of age and has long been prominent in the educational, political and religious circles of Salineville. He is an ardent Republican and possesses the friendship and good will of all those who have known him longest and most intimately.

Mr. White was born on a farm and educated in the public schools and at the Mechanicstown normal school. He learned the carpenter's trade and followed it until overtaken by a series of peculiar misfortunes that made him a cripple and turned him aside from his trade to the profession of school teaching, in which he has been eminently successful. First he lost his left hand while working in a planing mill. A few years later, in the same mill, he was caught in a belt and whirled about the shafting. This time he lost his right arm. Since recovering from the accident, he has taught school in Salineville. He served four years as village treasurer and is now serving his second term as village clerk. For two years he was a member of the Washington township central committee. He is a member of the First Presbyterian church, the Protected Home Circle and the Knights of the Golden Eagle.

It is remarkable what Mr. White has accomplished since the misfortune that deprived him of his right arm and left hand. He writes a legible and plain business-like hand.

REVIVAL SERVICES

Of Great Interest at the M. P. Church. Some Excellent Singing.

The revival services at the M. P. church yesterday, both morning and evening, were most interesting. Large congregations were present during the day.

At the morning service two persons united with the church, while seven persons were baptized.

In connection with these services and others that will be held at this church during the week, will be the singing, which be in charge of Prof. Reese, of Scranton, Pa. The gentleman arrived here yesterday morning and had charge of the singing of the morning service yesterday.

Prof. Reese is a Welshman of the high class, with all the emotional melody and profound religious depths of that gifted nation of people. His splendid singing took strong hold upon his hearers and he made a very favorable impression.

There will be services every night this week, beginning with a song service under the direction of Prof. Reese promptly at 7:45. All meetings are to be held upstairs.

Hand made harness at the Buckeye Harness Shop; nice stock ready for your inspection. East Market street.

The Bitter Bit.

"See that party with the jag sitting in the corner of the car?" said a conductor who was riding to the car barns in a Zoo and Eden park car to the conductor in charge of the car.

"Yep. He's got a heavy bundle," was the answer.

"Well, take this counterfeit half dollar with you when you collect his fare. A passenger passed it on me a month ago. If he gives you a dollar, you can shove it on him."

The conductor of the car took the lead half dollar, entered the car, and the man with the jag held out a silver dollar and received the counterfeit half and 45 cents in change.

"Worked like a charm," said the conductor as he reached the platform. "Here he comes now. He wants to get off."

The drunken man wobbled to the door and unsteadily descended from the car.

"Now we'll split up," remarked the conductor of the car as he drew the dollar from his pocket. And as both of the conductors gazed at the silver dollar they gasped in unison: "We're up ag'in it! It's a counterfeit dollar."—Cincinnati Enquirer.

Baleena Eating Elephant.

Stark naked savages, with long, greased plaits of hair hanging down to their shoulders, were perched on every available inch of the carcass, hacking away with knives and spears, yelling, cursing and munching, covered with blood and entrails; old men, young men, prehistoric hags, babies, one and all gorged or gorging, smeared themselves with blood, laughing and fighting. Pools of blood, strips of hide, vast bones, blocks of meat, individuals who had dined not wisely but too well lay round in bewildering confusion, and in two short hours all was finished. Nothing remained but the great gaunt ribs, like the skeleton of a ship's wreck, and a few disconsolate vultures perched thereon.—E. S. Grogan Before the Royal Geographical Society.

It pays to advertise in the Evening News Review.

Y. M. C. A. NOTES

This evening 50 of the Y. M. C. A. members will sit down to an oyster supper and plan to increase the membership to 500, and incidentally to have a good deal of sport doing it. There is some fun ahead for the members if present plans are carried out. The membership is now 391.

Secretary Wright is making up lantern slides and has ordered the necessary apparatus to give a stereopticon entertainment shortly. He would like some of the local amateurs who have interesting negatives showing good contrast to allow him to make slides from them, preferring to make up interesting slides than to purchase or rent.

The repapering and redecorating of the lecture room is well under way and will be finished in good time for the Saturday concert and auxiliary reception.

Reserved seats for the Fadettes' orchestra concert on Saturday evening can be obtained at the Y. M. C. A. office after Wednesday at 9 a. m. There is every prospect of a full house.

TILLET MAY COME

Noted English Labor Leader Expresses a Desire to Speak Here.

Secretary T. J. Duffy this morning received a letter from Hon. Ben Tillett, the English labor leader, in which the gentleman states he has three open dates, Jan. 14, 15 and 16. Mr. Tillett is now in Philadelphia, but expects to go to Harrisburg tonight. He expressed a desire to speak in this city provided arrangements could be made with some of the trades' organizations here.

Secretary Duffy concluded it would be impossible for the Brotherhood to take up the matter, but President Mc Lane of Trades Council, was conferred with, and at once set about making a canvass of the trustees of that body. It was thought if these officials gave their consent, arrangements could be made to have Mr. Tillett address a meeting in this city Thursday evening.

PARTNERSHIP DISSOLVED

The Well Known Firm of Jacob Stein & Co. Dissolved Today.

The partnership heretofore existing between Jacob Stein and Robert and Edward Miller, who have for the past several years successfully conducted large dry goods houses on Sixth street, this city, and Main street, Wellsville, was dissolved today.

Mr. Stein will hereafter conduct the business here, while Robert Miller will be proprietor of the Wellsville store.

Seriously Hurt.

Heber Davidson, of Broadway, while playing with his little nephew, was accidentally struck in the left eye, causing a very painful injury.

NOTICE OF MEETING.
PRINTERS AND TRANSFERRERS WILL MEET IN THEIR HALL TONIGHT. BUSINESS OF IMPORTANCE. BY ORDER OF PRESIDENT.

Skating at West End Park this afternoon and evening.

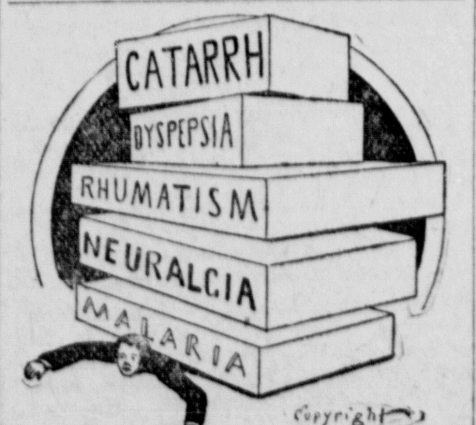

TOO LATE TO CLASSIFY.
